REPORT ON AERIAL OBJECT OBSERVED

1. Name of Observer: [REDACTED]
2. Address of Observer: [REDACTED] Mallala, S.Aus.
3. Occupation of Observer: electrician
4. Date & Time of Observation: 14 Jan 54 at 1120 hours
5. Period of Observation: 5 seconds
6. Manner of Observation: Visual. Position 130°30'E 34°27'S
7. Where was object first observed: Up and in front of observer
8. What first attracted observer's attention: Nothing in particular
9. Did object appear as a light or as a definite object: Definite object
10. How many: One only
11. Color of light or object: silver
12. Apparent shape: flat and square
13. Any detail of structure observable: no
14. Any method of propulsion obvious: no
15. Any sound: no
16. Height, or angle of elevation: 025° above horizon
17. Speed, or angular velocity: not able to estimate
18. Any experience which enables observer to be reasonably certain about the answers given to 16 and 17: No particular experience
19. Direction of flight with reference to landmarks or points of the compass: Appeared in position 190°T from observer's position & traveled in a general western direction.
20. Did the object remain on a straight path, deviate or manoeuvre at all: Appeared to rise and descend and move in a general westerly direction until it rose vertically at a great speed.
21. Was any trail of exhaust, vapour or light seen: no
22. Where did object disappear, e.g. in mid-air, behind a hill, over the horizon: in mid-air.
