### 3 students claim saucer sighting here

Unidentified Flying Objects (UFO) could have spared farmers a lot of drought problems the past few years.

Providing, of course, that Wednesday afternoon's performance, is a regular feature.

Three Penn Manor students, Molly DeHart, John Wolfe, and Becky Adams, reported a flying saucer sighting Wednesday between 3 and 3:30 p.m. Miss Adams reported the object was circular, white and flying high.

She said they observed it over Penn Manor High School and it disappeared from sight over trees behind the Sugar Bowl.

And, right after it passed the rains came—just a sprinkle—but it rained.

Dear Sir,

Three children saw a flying saucer or what they thought was a flying saucer on Wednesday, October 21, 1964. On Thursday, October 22, another boy and I saw it and I would like to know if it is a Government Project, and if it is, would you please tell us so? We saw it between 3:15 and 3:45 P.M. It was a whitish yellow thing.

I have been studying rockets and aircraft, so when I heard about the saucer, I started looking for it, and I found it. I will be happy for any information pertaining to this thing. Thank you.

Sincerely,

A large, dark, irregular redaction mark covering the signature area of the letter.
