10. CONCLUSION

1. Satellite (ECHO II) ✓ 2. Photo: No Image

ECHO II was in area at time of sighting, however, observer did not report seeing satellite. Possible that observer is slightly off in direction. Observer felt that object was satellite.

11. BRIEF SUMMARY AND ANALYSIS

Wite light, like a star, horizontal flight across sky, moving SE to NW. Observer felt it was a satellite. Characteristic of a satellite except for direction. Possible error in direction. ECHO II was over New York at 812 PM EST (07/0113Z) North of city 44 deg above the horizon moving NE.

SUBJECT: UFO

ANALYST: MAJOR H. QUINTANILLA PI: SCHEIMAN DATE: 29 APRIL 1966

This is in response to Work Order #66-8 from Major Quintanilla (TDEW/UFO) who requested photo analysis of two attached prints and negatives taken by Mr. [redacted] of Northport, New York.

There is no apparent image on the negative or prints. The film does not appear to have been exposed in a camera, ie, no frame marks and the film is exposed around the sprocket holes.

1. Reference the attached report of an unidentified flying object from Mr [redacted]. Mr [redacted] lives at [redacted] Avenue, Long Beach, New York. The sighting by Mr [redacted] has all the characteristics of a satellite observation with the exception of the reported direction. There are no known satellites with a retrograde orbit. The satellite Echo II was over Long Beach, New York, at the exact time Mr [redacted] made his observation. It passed to the north of the city at 44 degrees above the horizon moving northeast. If there was an error in the reported direction, then the object was undoubtedly Echo II. If the direction reported by Mr [redacted] is correct, then it is likely that a high-flying aircraft was the cause of the sighting.

Sir:

I have tried to answer all questions clearly, concisely and completely. However, there has been a time lapse of one month and the only way of checking the information was by means of notes I took at the time. You will notice some corrections I made to the times. The date was 6 Sep 65 not 5 Sep 65 - because it was the evening of Labor Day - Monday evening.

My very best regards.

[redacted]

P.S. Your letter has actually made me feel "homesick" for the USAF! Does the Air Force need programmers for their Electronic Data Processing systems? [redacted]

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

6 (Day) SEP (Month) 65 (Year)

2. Time of day: [redacted]9 (Hour) 13 (Minutes) EDT

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): (a. Eastern)
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

[redacted]E (Nearest Postal Address) LONG BEACH (City or Town) NEW YORK (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) [redacted]3 (Minutes) _____ (Seconds)

(a. Certain)
b. Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? By my watch - no longer visible at 2116 hours

5.2 Was object in sight continuously? Yes ✓ No ____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a. Bright)
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One):
a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORM
FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight — pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

As above - about as bright as the brightest star visible

12. The edges of the object were:

(Circle One):
a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other _____

13. Did the object: *(Circle One for each question)*

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

14. Did the object disappear while you were watching it? If so, how?

No

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound None

b. Color White - like a bright star (intensity of light did not change during sighting)

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

All of the object

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

How do you draw a moving star?

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
(c. Outdoors)
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b. In the residential section of a city?)
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

A city block from both Atlantic Ocean & Raynolds Channel

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

a. Eyeglasses	Yes	No	(e. Binoculars)	(Yes)	No	7 x 50
b. Sun glasses	Yes	No	f. Telescope	Yes	No	
c. Windshield	Yes	No	g. Theodolite	Yes	No	
d. Window glass	Yes	No	h. Other _____			

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

A moving star!

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

Yes - Fall of 1957 - New York
In 1952 while stationed at Warren AFB on a bright, clear, moonless night, I and two other instructors saw a bright green object (turn to last page)

31. Was anyone else with you at the time you saw the object? (Circle One) (Yes) No

31.1 IF you answered YES, did they see the object too? (Circle One) (Yes) No

31.2 Please list their names and addresses:

[redacted]
Long Beach, N.Y.

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) Long Beach (City) ___ (Zone) N.Y. (State)

TELEPHONE NUMBER [redacted] AGE 33 SEX Male

Indicate any additional information about yourself, including any special experience, which might be pertinent.

U.S. Air Force 1951 - 1955

Technical Training Instructor
1951 - 1953 - Warren AFB, Wyo

Group Training NCO
5th Comm. Gp., Korea
1953 - 1954

Chief Clerk & NCOIC - Comm Center
647th AC&W Sqdn
Manassas, Va.
1954 - 1955

Presently employed as a programmer by Pan American Airways for their IBM 7080 realtime reservation system. (Output teletype & communications)

(Have processed and handled many forms similar to this one while stationed in Manassas.)

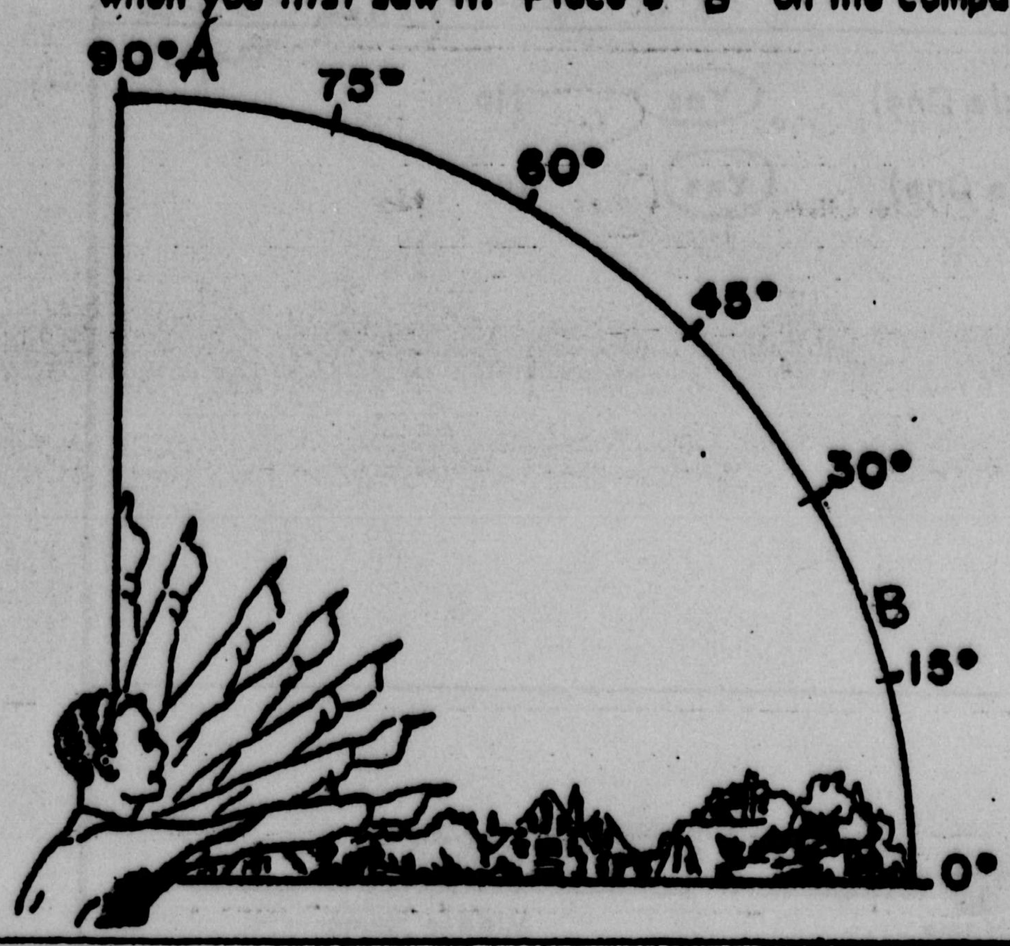

33. When and to whom did you report that you had seen the object?

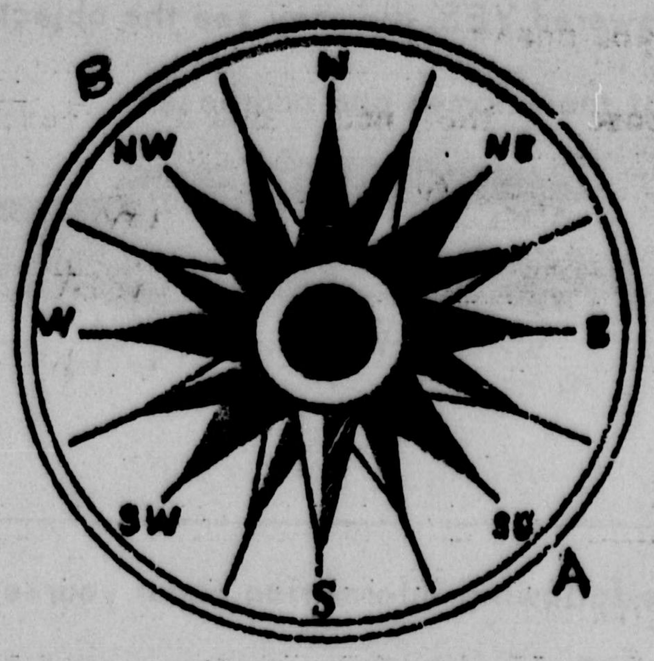

6 (Day) SEP (Month) 1965 (Year)

[redacted]
Lt. Moon
Suffolk County AFB
L.I., N.Y.

Called base at 2130; waited until 2150; completed report at 2200

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

A ——————————————— B

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

34. Date you completed this questionnaire: 3 (Day) Oct (Month) 1965 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

I again sighted a similar object on Sep 8, 1965 however this object was approximately 10° further North (more NNW) than the sighting on 6 Sep 65. The object, direction, weather etc was identical to the sighting except the time was approx. 2115 hours. I again called Suffolk County AFB, was connected to the tower (They said) but information regarding the sighting was not taken by the NCO in the tower.

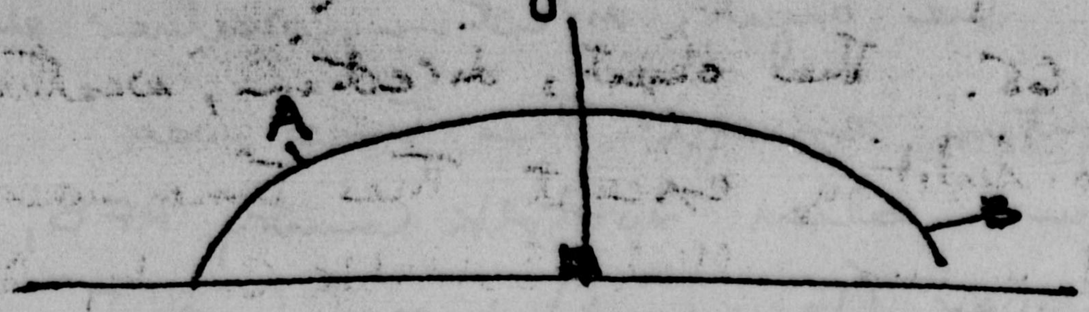

It is my belief that what I saw on both occasions was a satellite. However, the satellite could not have been launched from Cape Kennedy because of the direction of travel. ~~The~~

Two programmers who work with me at Pan Am have recently been transferred from Pan Am's Guided Missile Range Division (Pan Am handles down-range tracking) and they verified that unless direction was radically changed by 180° this satellite could not have been launched at the Cape.

However, we could not rule out launchings from Virginia, Vandelbilt AFB, Calif. or the USSR.

30. (Cont'd)

The object was too bright, too large (about the size of a match head at arms length) and much too fast to be the navigational lights of an aircraft. The object travelled (est.) through 135° in 3 or 4 minutes

Spotted at A, disappeared at the horizon.

The sighting was unreported - not one of us had (at that time) heard of satellites or UFO's.

We were just mystified and speculative for many days.

NO

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound NONE

b. Color BRIGHT BLUE WHITE LIGHT - AS A STAR. EMITS.

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

ALL

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
(c.) Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
b. In the residential section of a city?
(c.) In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other NAKED EYE		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

APPEARED TO BE A STAR MOVING ACROSS THE HEAVENS

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

NO

31. Was anyone else with you at the time you saw the object? *(Circle One)* (Yes) No

31.1 IF you answered YES, did they see the object too? *(Circle One)* (Yes) No

31.2 Please list their names and addresses: [redacted] WIFE

[redacted]

32. Please give the following information about yourself:

NAME [redacted]
Last Name Middle Name

ADDRESS [redacted] N.Y.
Street City Zone State

TELEPHONE NUMBER [redacted] AGE 40 SEX M.

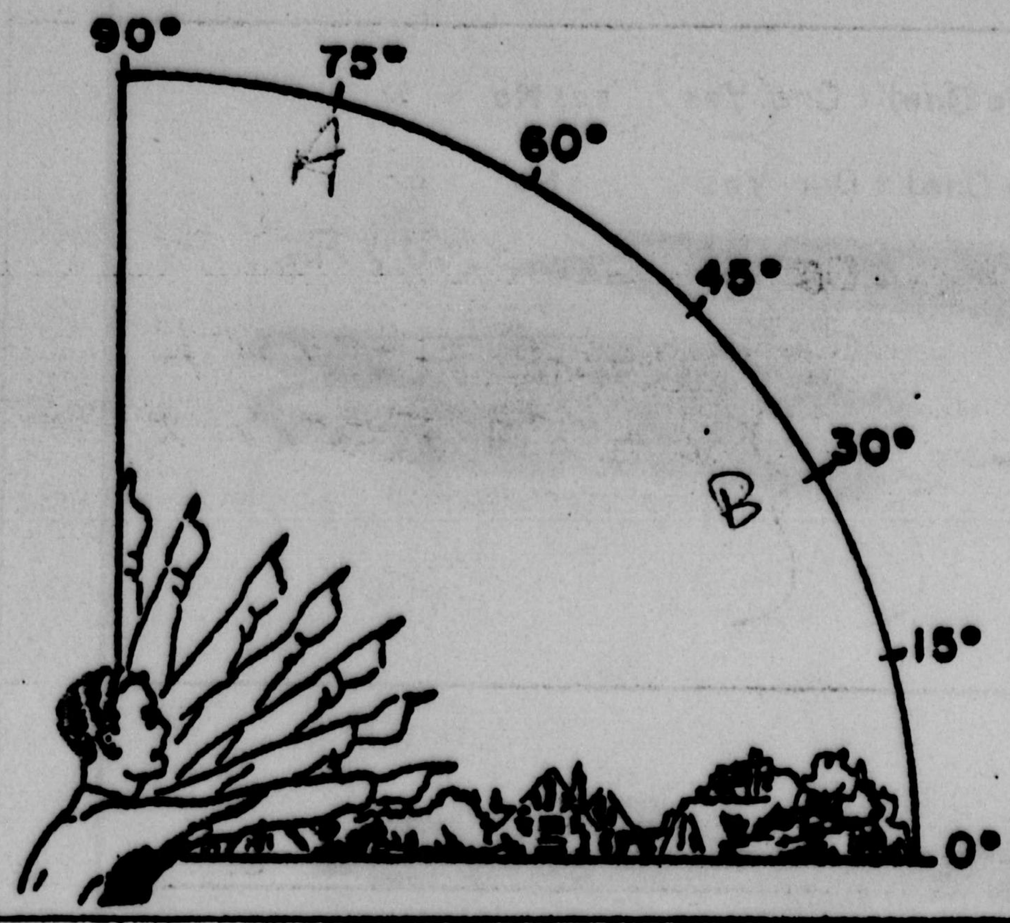

Indicate any additional information about yourself, including any special experience, which might be pertinent.

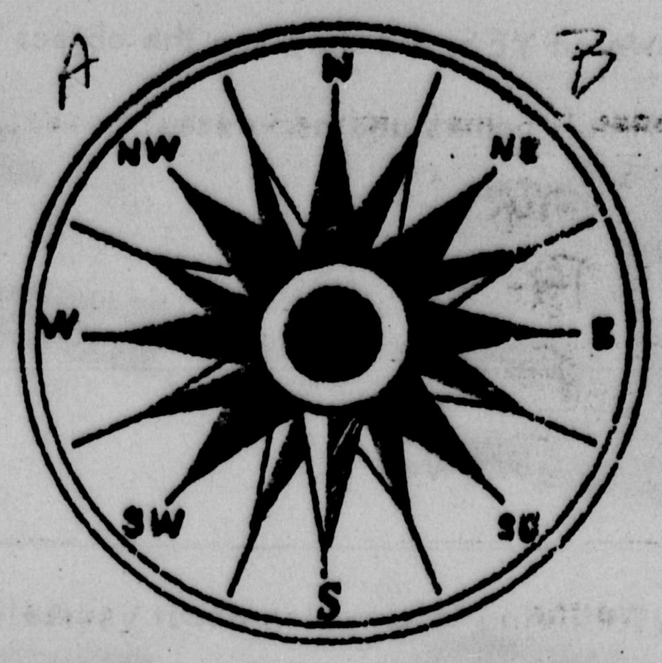

TRAINED AND CONDITIONED AS A NEW YORK POLICE OFFICER TO OBSERVE AND REPORT FACTS WITHOUT EMOTIONS OR SUPPOSITIONS ENTERING DETERMINATIONS.

33. When and to whom did you report that you had seen the object? SOUTH HAMPTON AFB.

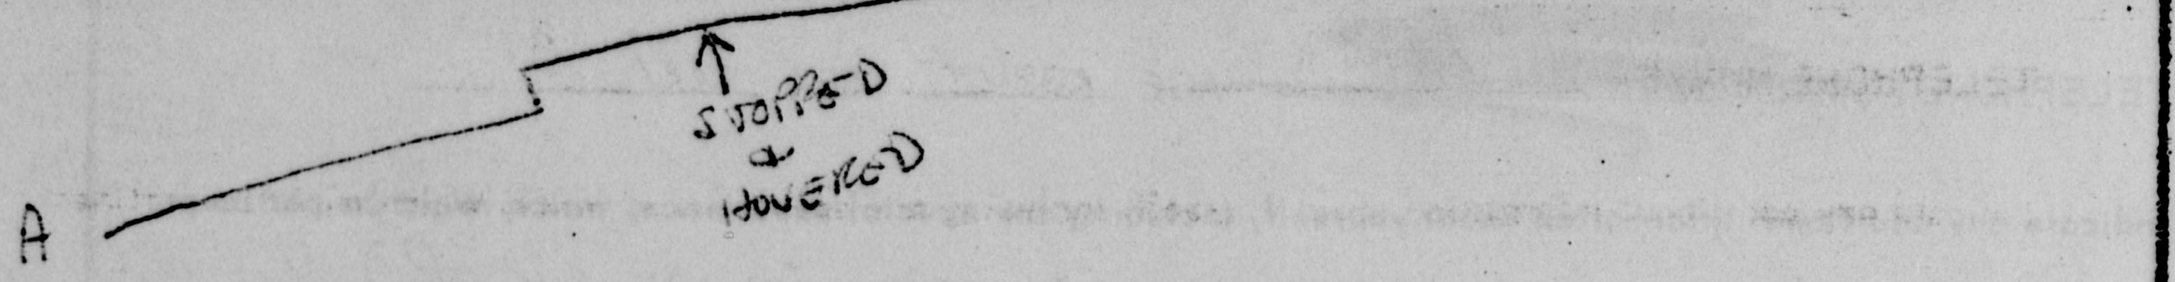

DON'T RECALL
Day Month Year

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? 1 OBJECT
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

34. Date you completed this questionnaire: 10 (Day) 15 (Month) 65 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

None

6 Sep 6[illegible]

February 18, 1966

Mrs Hunt/sh/SAFOICC/72842/18 Feb 66

Dear Mr. [redacted]:

This is in reply to your report of an aerial observation on the night of September 6, 1966.

Your sighting coincided with the passage of the satellite ECHO II which was to the north of the city 40 degrees above the horizon traveling in a northeasterly direction. Erratic movements of satellites can be attributed to an illusion caused by atmospheric conditions.

Thank you for reporting your observation to the Air Force.

Sincerely,

Mr [redacted]
[redacted]
East Setauket, NY

ATTN OF: TDEW/UFO

NOV 12 1965

SUBJECT: UFO Sighting, 6 Sep 65

TO: Hq USAF SAFOICC (Mrs Hunt)
Wash D C 20330

Reference the attached UFO report from Mr [redacted] of [redacted], East Setauket, New York. Mr [redacted] reported an unidentified flying object on the night of 6 September 1965. The sighting coincided with the passage of the satellite Echo II, which was 40 degrees above the horizon to the north of the city traveling in a northeast direction. Erratic movements of satellites are attributed to an illusion caused by atmospheric conditions and the passage of the satellite near bright stars or planets.

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

6 (Day) 9 (Month) 65 (Year)

2. Time of day: 9 (Hour) 18 (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): (a.) Daylight Saving
b. Standard

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address) Northport (City or Town) Suffolk County, N.Y. (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) 5 (Minutes) _____ (Seconds)

a. Certain
b. Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? wrist watch

5.2 Was object in sight continuously? Yes ✓ No ____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a.) Bright clear
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One):
a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (*Circle One*):

a. None
b. A few
(c.) Many
d. Don't remember

8.2 MOON (*Circle One*):

I did not see the moon from where I was standing.

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (*Circle One*):

(a.) Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER (*Circle One*):

(a) Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: (*Circle One*):

a. Solid
b. Transparent
c. Vapor
(d.) As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (*Circle One*):

a. Brighter
b. Dimmer
(c.) About the same slightly brigter
d. Don't know

11.1 Compare brightness to some common object:

venus

12. The edges of the object were:

(*Circle One*):
a. Fuzzy or blurred
(b.) Like a bright star
c. Sharply outlined
d. Don't remember
e. Other _____

13. Did the object:

(*Circle One for each question*)

a. Appear to stand still at any time?	Yes	(No)	Don't know
b. Suddenly speed up and rush away at any time?	Yes	(No)	Don't know
c. Break up into parts or explode?	Yes	(No)	Don't know
d. Give off smoke?	Yes	(No)	Don't know
e. Change brightness?	Yes	(No)	Don't know
f. Change shape?	Yes	(No)	Don't know
g. Flash or flicker?	Yes	(No)	Don't know
h. Disappear and reappear?	Yes	(No)	Don't know

14. Did the object disappear while you were watching it? If so, how?

Later
NO. Some moments! I was telephoning Suffolk A.F. Base

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): (Yes) No Don't Know. IF you answered YES, then tell what it moved behind:

Jet Air Liner. There were two in the area
moments apart during the sighting, heard ~~None~~ N.N.E

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of:

17. Tell in a few words the following things about the object:

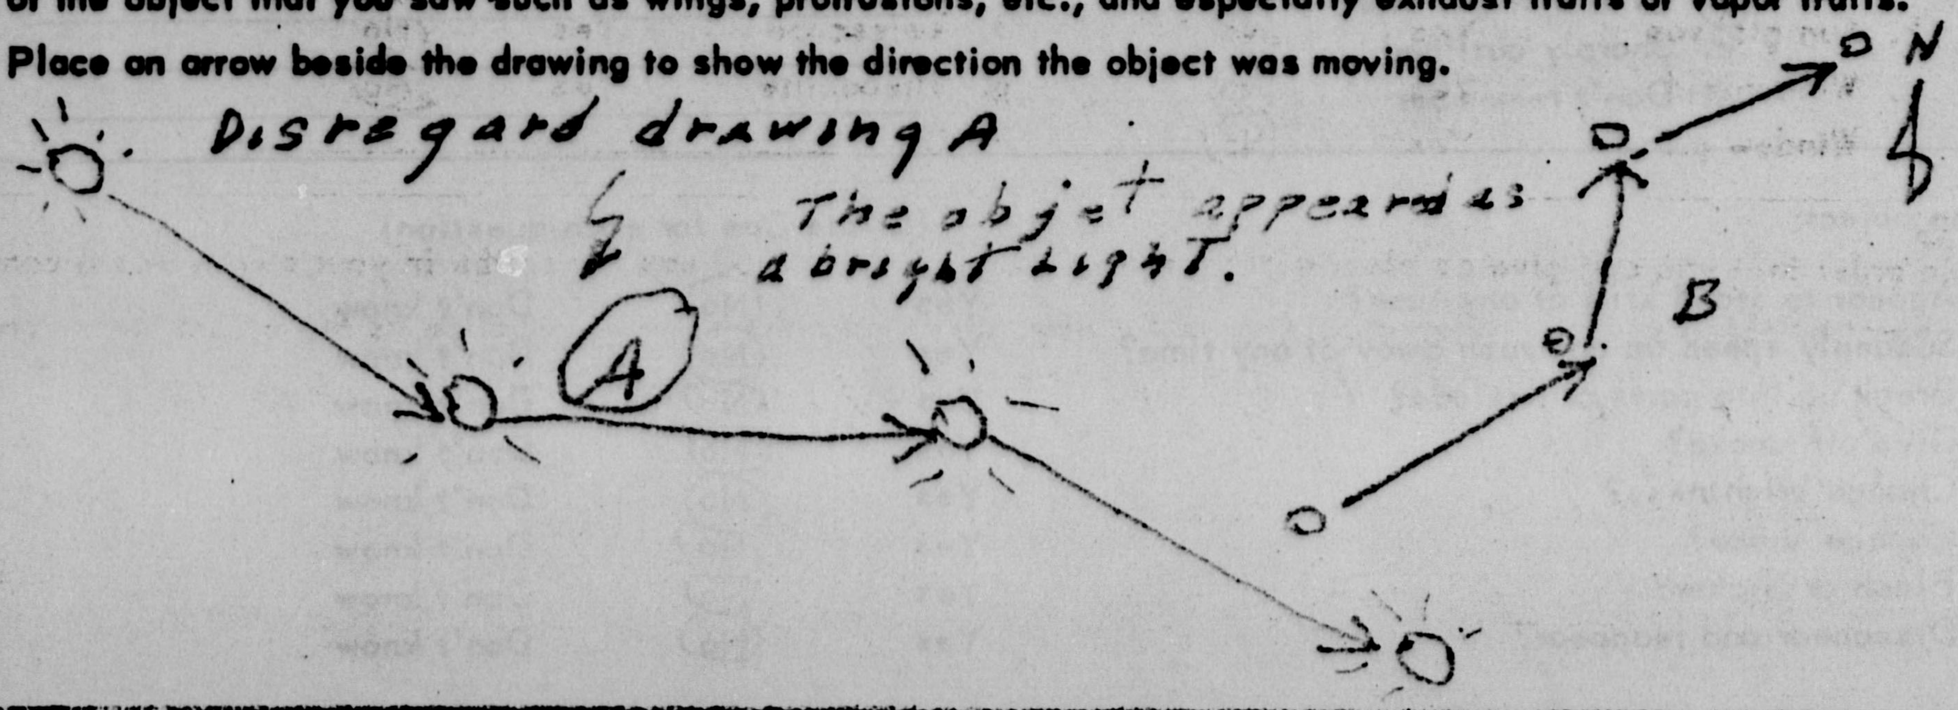

a. Sound None

b. Color greenish white light.

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

All of it.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) (Yes) (No)

IF you answered YES, then what speed would you estimate? Faster than a ~~satellite~~ satellite

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
(c.) Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b.) In the residential section of a ~~city~~? town
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

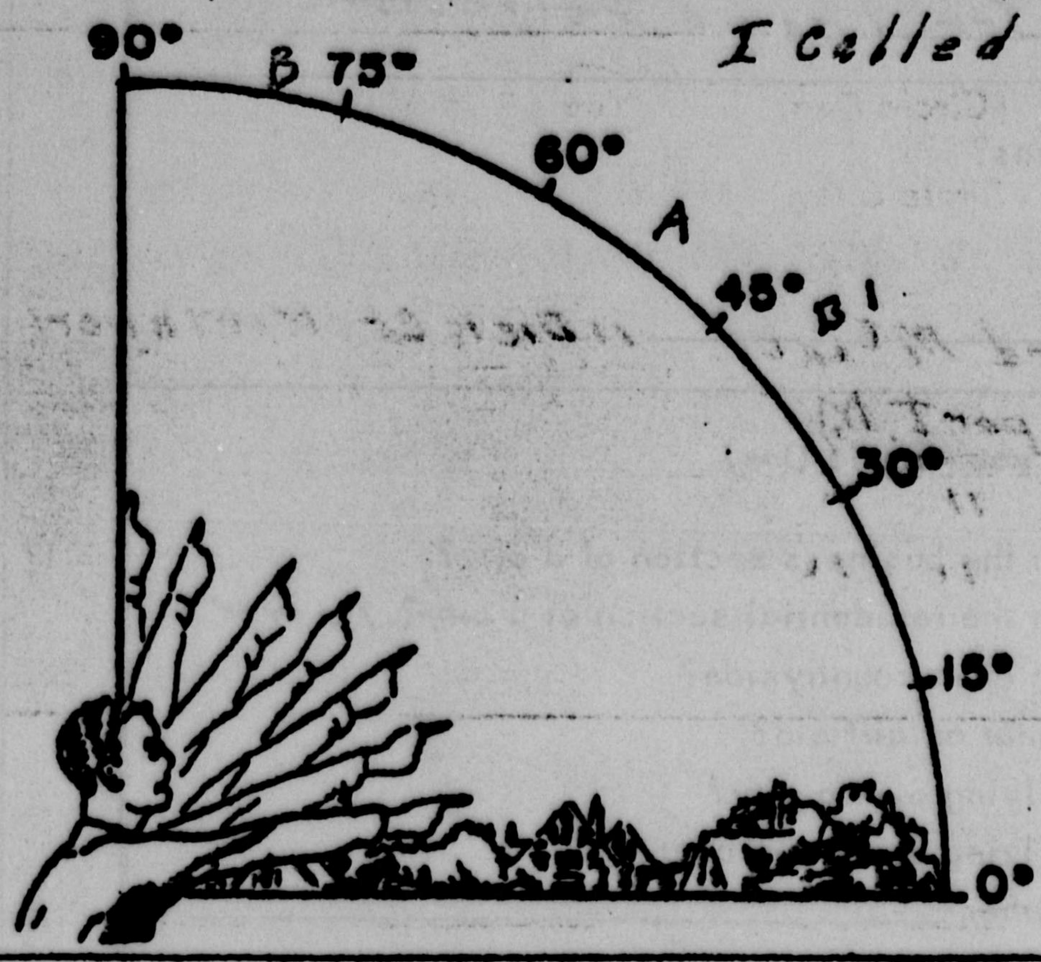

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other _____		

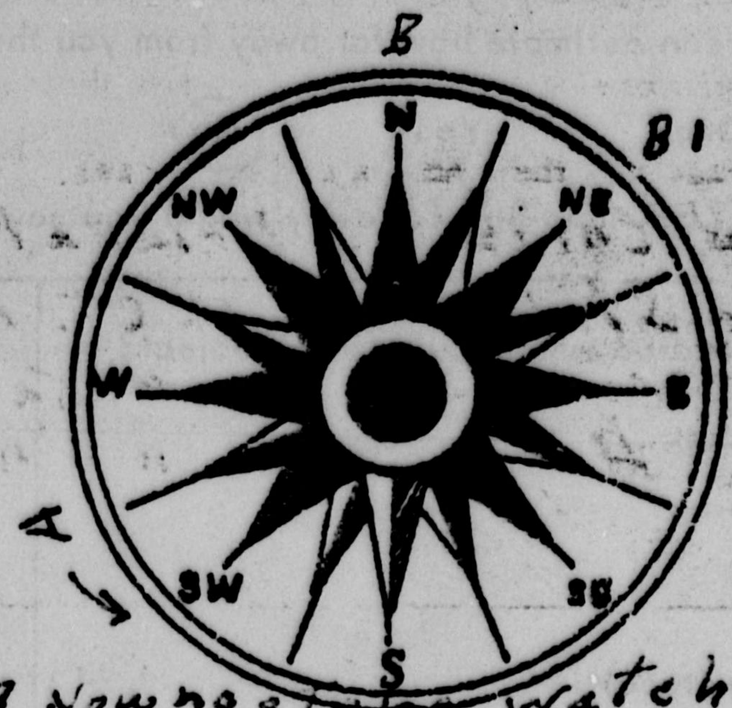

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

A very bright star traveling as discribed in Sect. B, 19

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

I called the Suffolk A.F. Base at point B

6 or 7 young girls watched To point B1. Trees blocked the view of this point.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

My son [redacted] reported that he focust his telescope on it for a few moments and that he saw a number of smaller lights entering from the direction in which it was traveling and leaving in the opposite direction. (Age 13) I could not see these lights with the naked eye.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

No

31. Was anyone else with you at the time you saw the object? *(Circle One)* (Yes) No

31.1 IF you answered YES, did they see the object too? *(Circle One)* (Yes) No

31.2 Please list their names and address: [redacted] Report

[redacted] " " " " " "

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) [redacted] (City) ___ (Zone) N.Y. (State)

TELEPHONE NUMBER [redacted] AGE 39 SEX male

Indicate any additional information about yourself, including any special experience, which might be pertinent.

I was in the army Air Corps 1945-1946 served in the U.S. and Wiesbaden, Germany Hq. Sq.

33. When and to whom did you report that you had seen the object?

6 (Day) 9 (Month) 1965 (Year) O.D. Suffolk Air Force L.I. N.Y.

34. Date you completed this questionnaire: 12 (Day) 10 (Month) 65 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

My son [redacted] who was in a lighted bedroom with the shade up was the first to see the light. He and [redacted] went to the west side of the house and watched for a few minutes, they then called [redacted] and [redacted]. and the other youngsters in the neighborhood who also watched for a few minute. Then they called me: I did not think it unusual until it changed course. I sent [redacted] for my Camera and [redacted] set up his telescope. I took three exposures and called the Air Force Base. The enclosed negatives show nothing to me, try your luck.

Sincerely

[redacted]

Mr [redacted] of [redacted]rt, Northport, New York submitted a report to the Air Force of an unidentified flying object observed on the evening of 6 September. The sighting coincided with passage of the satellite Echo II. Echo II passed north of the city, 45 degrees above the horizon, heading Northeast. Mr [redacted] submitted photographic negatives of an alleged object. Examination of these negatives fails to reveal any object. It is requested that these negatives be returned to Mr [redacted] with your reply.

Dear Mr [redacted]

This is in reply to your report of an aerial object which you observed and were unable to identify on the night of September 6, 1965.

Your sighting coincides with the passage of the satellite ECHO II which passed north of the city 45 degrees above the horizon heading northeast.

The negatives which you submitted with your report failed to reveal any object. They are returned herewith.

Thank you for reporting your observation to the Air Force.

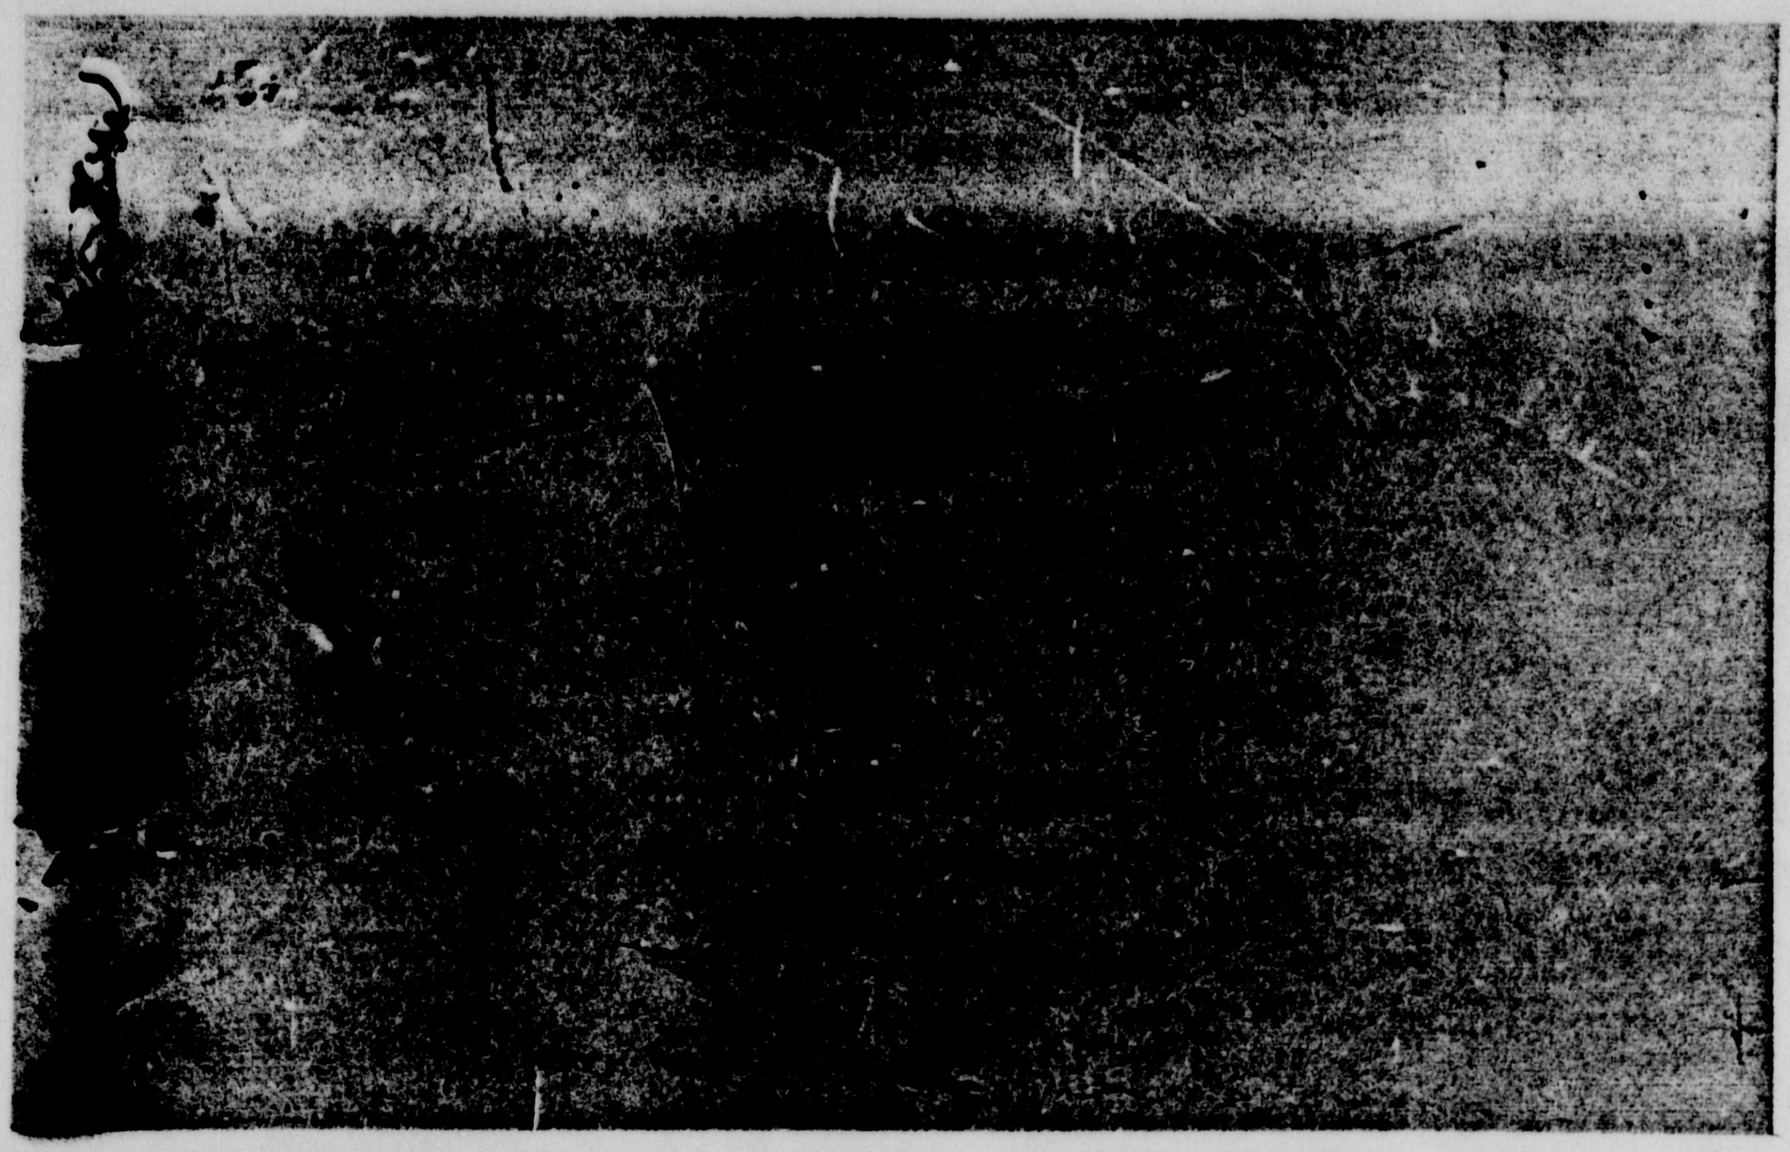

Sincerely,

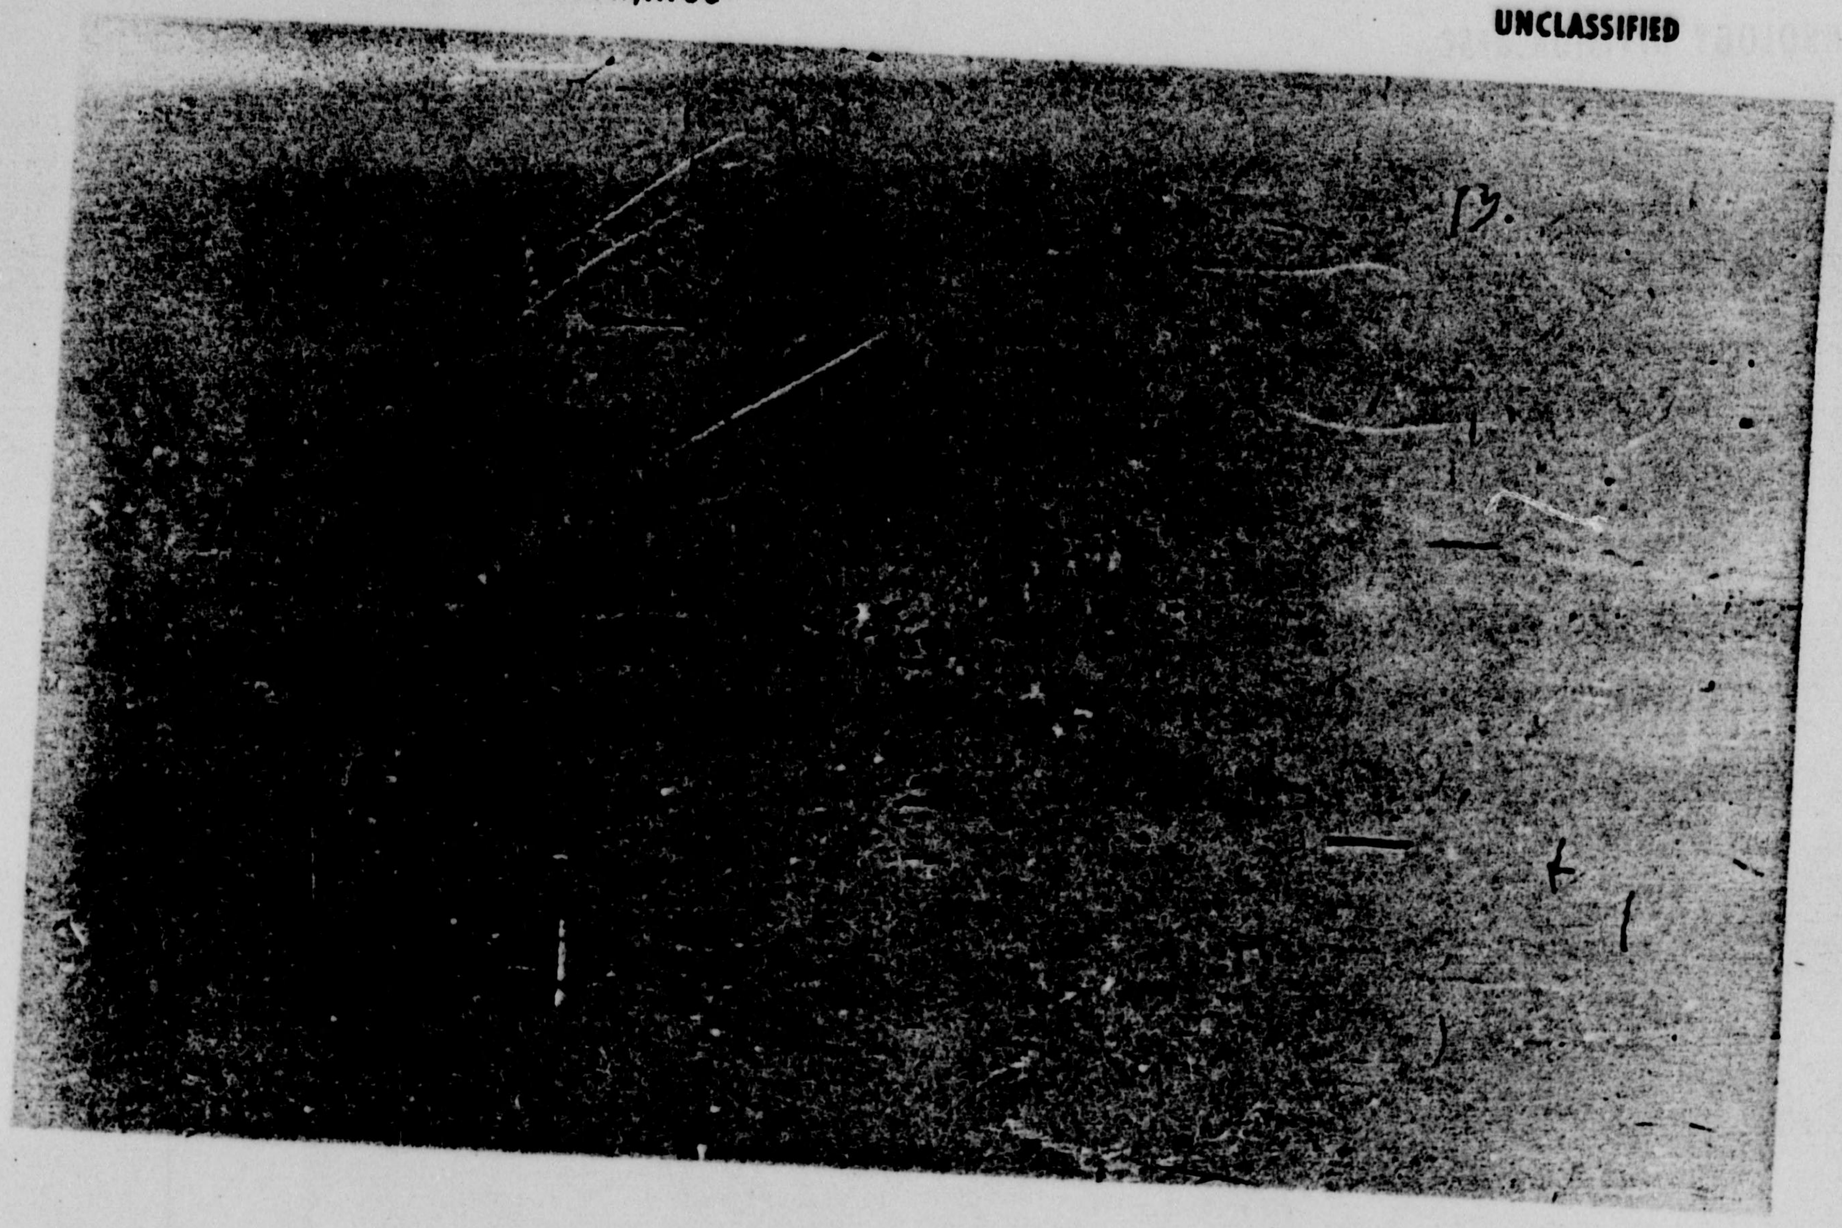

Mr [redacted]
