Dear [redacted],

Reference your unidentified observation of 4 August 1965. The information in your letter was not sufficient for evaluation. It is requested that you complete the attached FTD Form 164 and return it in the envelope provided.

The Air Force appreciates your interest in this subject.

Sincerely,

HECTOR QUINTANILLA, Jr Major, USAF
Chief, Project Blue Book

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

4 (Day) Aug (Month) 1965 (Year)

2. Time of day: 9 (Hour) 30 (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. Eastern
b. (Central)
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
(b. Standard)

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address) | Dallas (City or Town) | Texas (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) _____ (Minutes) 10-15 (Seconds)

(a. Certain)
b. Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? 10 or 15 seconds is not hard to guess at

5.2 Was object in sight continuously? Yes ✓ No ____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a. Bright)
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One):
a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

It was as bright as our brightest satellite which is said to awfully bright

12. The edges of the object were:

(Circle One): a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember

e. Other It was awfully small, so it would be hard to tell what the edges looked like!

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

14. Did the object disappear while you were watching it? If so, how?

Yes. By speeding out of sight.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

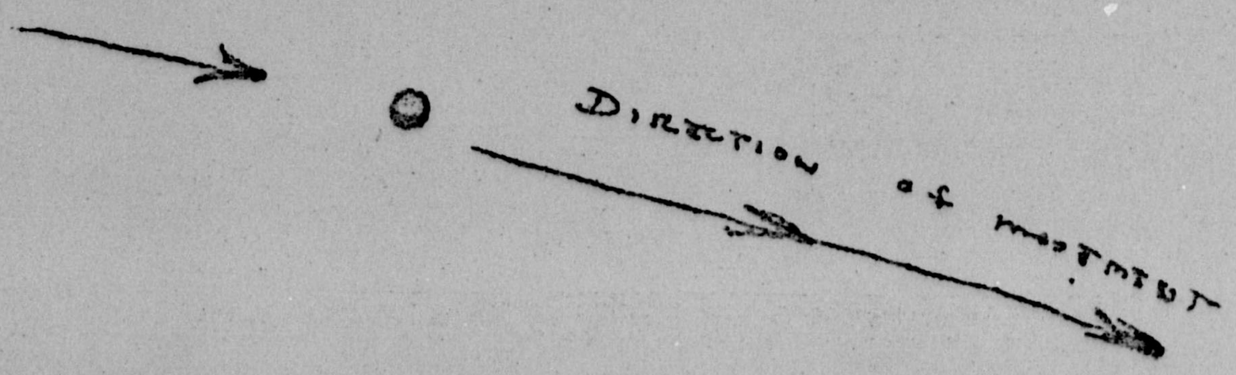

a. Sound None

b. Color white (light)

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

all of it I suppose!

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No) It was faster than any aircraft I have ever seen.

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No It was higher than any aircraft I have ever seen could be visible to the naked eye!

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? *(Circle One):*

a. Inside a building
b. In a car
(c. Outdoors)
d. In an airplane (type)
e. At sea
f. Other on back porch

23. Were you *(Circle One)*

a. In the business section of a city?
b. In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? *(Circle One)*

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

a. Eyeglasses	(Yes)	No	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

a tiny white button. It was just a small white object. I don't know what it was or what it looked like. The only thing that made me notice it was its speed!

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No) It was faster than any aircraft I have ever seen.

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) (No) It was higher than any aircraft that would be visible to the naked eye!

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
(c. Outdoors)
d. In an airplane (type)
e. At sea
f. Other on back porch

23. Were you (Circle One)

a. In the business section of a city?
b. In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

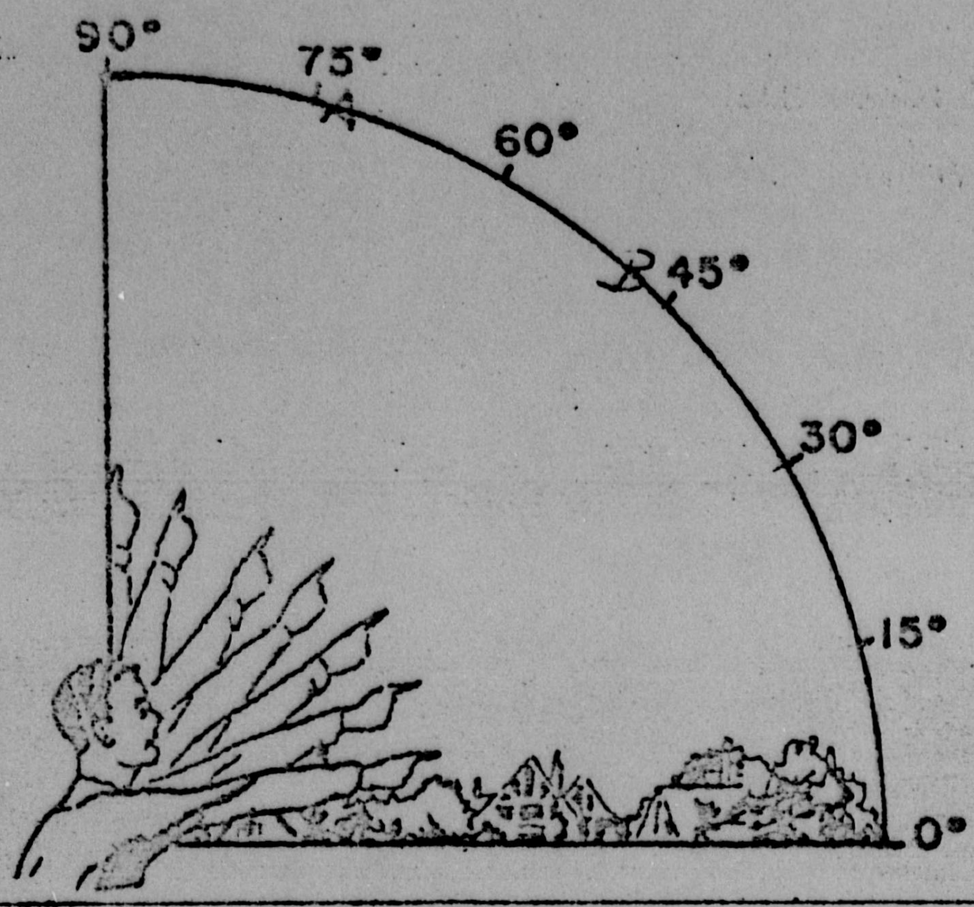

25. Did you observe the object through any of the following?

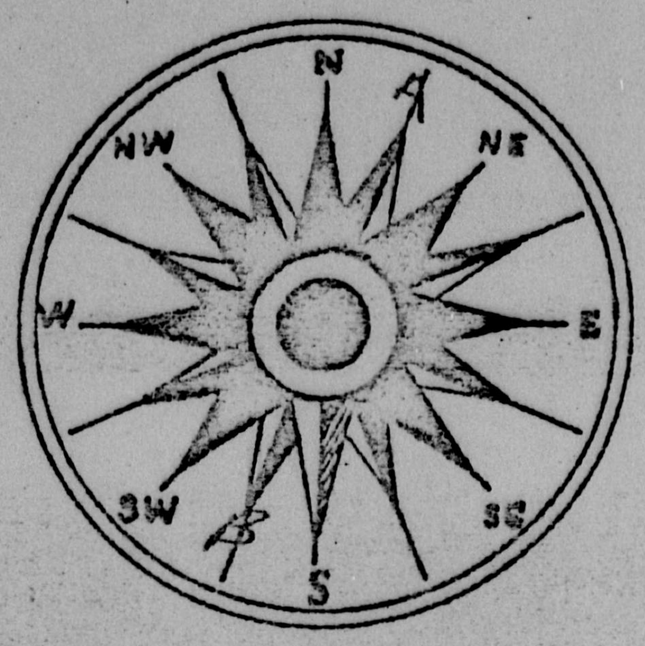

a. Eyeglasses	(Yes)	No	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

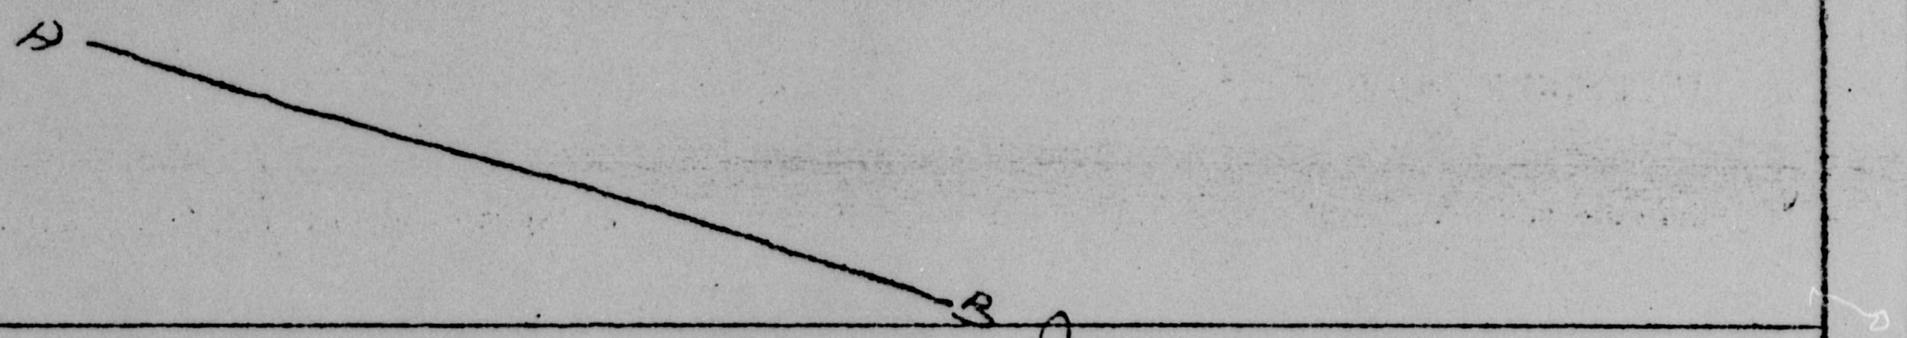

a tiny white button. It was just a small white object. I don't know what it was or what it looked like. The only thing that made me notice it was its' speed!

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? Just one

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

None

31. Was anyone else with you at the time you saw the object? *(Circle One)* Yes (No)

31.1 IF you answered YES, did they see the object too? *(Circle One)* Yes No

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) Dallas (City) 16 (Zone) Texas (State)

TELEPHONE NUMBER [redacted] AGE 19 SEX M

Indicate any additional information about yourself, including any special experience, which might be pertinent.

In high school My "senior thesis" was on unidentified flying objects. So, I know about hoaxes and people claiming to see this bull crap and that bull crap! — But I Know what I saw!! This light the size of a bright star was moving was faster than any object I've ever seen!! I know this was no meteor, trail whatsoever. actually, I hope this is! It left no can be explained!!

33. When and to whom did you report that you had seen the object?

Dec 5 (Day) Aug (Month) 1965 (Year) I wrote a letter and told my parents about it and told none else because none wanted believe me.

34. Date you completed this questionnaire: 6 (Day) Sept (Month) 1965 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

Just to sum up!

This small dot moved across the horizon in about 12 seconds at approx. a 75° angle. So you know that a small object that - Light moving totally across the horizon in 12 seconds is pretty fast!!! That' all I saw. The reason I was looking up into the sky is because at this time there was a siege of reports of U.F.O.'s in our city, and this interested me - because I had made such a detailed report in high school and alas in College!

Thank you so much for letting me lend your ear!

I hope this can be solved! I know there must be an explanation somewhere!!!

4

Sloop - Dallas, Texas

4 Aug. Meteors?? or/objects

[redacted]

Dallas, Texas

United States Air Force
Washington D. C.

Dear Sir:

My senior year in High school I wrote my senior theme in English on U.F.O.'s. In my home town, recently, there have been reports of many unidentified flying object reports on which I believe many are farce and have no authenticity at all!

I have also observed many things in the sky in the past years — such as weather balloons, satellites, reflections, etc.; and I reported one satellite last year to you because suddenly the light from the satellite disappeared. But it was reappeared and all was O.K.

But tonight, August 4, 1965 about 9:25 P.M. I was out looking for

some of these so-called flying
saucers that so many people have
reported!

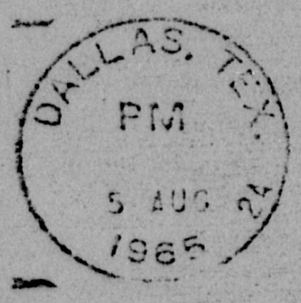

I am one! After a laugh! But
I'm serious! This object was a dim
red — is moved in a straight line
due South — straight overhead — what
seemed to be miles higher than any
plane I have ever seen. It was
visible at about a -1 magnitude.
This object moved fully across
the horizon in approximately 10 seconds!
faster than any plane I have ever
seen — to be that high up. Then
it faded away because it wasn't
bright enough to see to with.
Maybe this report sounds as crazy
as all the rest you receive — But!
I hope you will write back and
tell me what it probably was! I
am! I would appreciate it very
much.

Sincerely,

[redacted]

Dallas, Texas

Dear [redacted]

Reference your unidentified observation of 4 August 1965. The information in your letter was not sufficient for evaluation. It is requested that you complete the attached FTD Form 164 and return it in the envelope provided.

The Air Force appreciates your interest in this subject.

Sincerely,

HECTOR QUINTANILLA, Jr Major, USAF
Chief, Project Blue Book

DALLAS, TEXAS

4 AUGUST 1965

Observer was out looking for unidentified flying objects when at approximately 2125 hours a dim red object appeared and was moving due south, straight overhead. The light crossed half of the sky in ten to fifteen seconds. The light, about the size of a bright star, was moving faster than any aircraft the observer had ever observed. The object just disappeared by speeding out of sight. There was no sound or trail noted. The object wasn't bright enough to be seen clearly.

COMMENTS.

The presented data is characteristic of a meteor, however, no trail or tail was reported. As for being a satellite, balloon or aircraft, the duration and degree of arc through which the object passed discounts such an explanation. Observer has reported two other sightings to the Air Force. As such, with the information available, the case is considered as unidentified by the Air Force.
