15. SUMMARY:

(Leave Blank)

Mr. [redacted], contacted Police Headquarters and stated, that he, had observed an object that appeared to be about the size of a large star, traveling from a northeasterly to a southwesterly direction. The object was of a bright orange red color then faded out and came on bright at intervals then faded out completely. Mr. [redacted] stated that the object was visible for from 10 to 15 minutes with use of binoculars at approximately 2135, 30 June 1965.

CONTINUATION SHEET	(Classification and Control Markings)	REPORT NO. PAGE 2 OF 2 PAGES ORIGINATOR SECURITY & LAW ENFORCEMENT DI McCLELLAN AFB, CALIFORNIA

(Leave Blank)

A. DESCRIPTION:

1. Shape - Like a star.
2. Size - A large star.
3. Color - Orange-red.
4. Number - One.
5. N/A
6. Features - Similar to a star.
7. Tail/Exhaust - None.
8. Sound - No sound was heard.

B. DESCRIPTION OF COURSE OF OBJECT:

1. While sitting on patio observed what looked like a large bright star moving from the northeast to the southwest, very high.
2. Angle of elevation - Up and curved to the southwest.
3. Angle of elevation upon disappearance - Curved down over horizon.
4. Description of flight path - Curved until disappearance.
5. Manner of disappearance - Over horizon.
6. Length of time in sight - 10 to 15 minutes.

C. MANNER OF OBSERVATION:

1. Ground, visual and binoculars.

D. TIME & DATE OF SIGHTING:

1. 0445 hrs. ZULU, 1 July 1965.
2. Night.

E. LOCATION OF OBSERVER:

[redacted]e. Bryte, California.

F. IDENTIFYING INFORMATION OF OBSERVER:

Civilian - Mr. [redacted] Age 55 yrs, [redacted]., Bryte, Calif. occupation, Division of Forestry.

G. WEATHER AND WINDS:

Wind - 7 Knots. S. E.
Temperature - 58 degrees
Dew Point - 49
No Clouds.
No air traffic.
No balloon release.
No existance of physical evidence (Materials or Photographs)

Summer 65

Hamilton, Ohio
March 27, 1966

Wright-Patterson Airforce Base
Dayton, Ohio

Dear Sirs:

This is probably going to sound to you like a made up story, because no matter how many times my mother and I think of it, and remember it, it sounds like one.

It was about 11 o'clock one night last summer (or maybe this fall: I was getting ready for bed when I heard a strange noise. I'd never heard a noise like it so needless to say I did not venture to look out. It was so close! It sounded like some kind of machine, but it made some sort of a WHISHING sound which sounded dredfull, especially since I couldn't see the thing that made the sound.

W I thought I was hearing things untill my mother called, "Karen, what's that funny noise." But just as soon as she said that it sounded as if the thing flew away. At that moment it sounded as if it were clicking.

I wouldn't have said anything to anyone at all but I heard about the UFO's in Michigan and in the Ohio area.

The day the UFO's were reported in Michigan was about two days before I heard the same noise as before. Before it stayed about 15 minutes, this time about 3.

Believe me, I don't want publicity. My father, Judge Walsh, would kill me if he knew about this letter. (Not really--He'd just yell a lot! You see I work in his office and he dosen't like this kind of publicity.)

I just wrote this letter to see if it would be any help to you, and to possibly find out if the UFO's which were seen in your area had any specific noise. Believe me, it would calm my mother and I considerably if we knew we both weren't having helucinations.

Thank you.

Sincerely

[redacted]

NO CASE (INFORMATION ONLY)

INTERPLANETARY INTELLIGENCE OF UNIDENTIFIED FLYING OBJECTS-TECH. INFORMATION

This questionnaire has been prepared so that you can give us as much information as possable concerning the unidentified aerial phenomen that you have observed. Please try to answer as many questions as you possably can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request the personal information so that if it is deemed necessary, we may contact you.

1. When did you see the object?

June (Month) 1 (Day) 65 (Year)

2. Time of day: 8 (Hour) 20-30 (Minuits)

(Circle One): A.M. or (P.M.)

(Sightings Continued thru a

3. Time Zone:

(Circle One): a. Eastern
(b. Central)
c. Mountian
d. Pacific
e. Other_____

(Circle One):
a. Daylight Saving
(b. Standard)

4. Where were you when you saw the object?

Post. Add. Kenny Road
City San Antonio
State Texas

5. How long was it in sight? (Total Duration) ____ 10 ____

Hours Minuits Seconds

a. Certian
(b. Fairly Certian)
c. Not very sure
d. Just a guess

5.1 Was the object in sight continuously?

YES ✓ NO____

5.2 How was time in sight determined? Timed by Watch

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a. Bright)
b. Cloudy	b. Cloudy

7. IF you saw the object in daylight, where was the sun located as you look at the object?

a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the stars and moon?

STARS	MOON
(a. None)	a. Bright Moonlight
b. Few	(b. Dull moonlight)
c. Many	c. No moonlight- pitch dark
d. Don't remember	d. Don't remember

Clouds

a. Clear sky
b. Hazy
c. Scattered Clouds
d. Thick or Heavy Clouds
e. Don't remember

WEATHER

a. Dry
b. Fog, mist or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared:
a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brightest than the brightest star?

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object: Light Bulb 20 ft away

12. The edges of the object were:
a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other

13. Did the object:

a. Appear to stand still at any time?	YES	No	Don't know
b. Suddenly speed up and rush away?	Yes	No	Don't know
c. Break ud into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't Know
h. Disappear and reappear?	Yes	No	Don't know

14. Did the object disappear while you were watching it? Yes If so, how?
The object slanted down & went below the horz.

15. Did the object move behind something at any time, particularly a cloud?
Yes No Don't know IF the object moved behind something, then what?

16. Did the object move in front of something, particularly a cloud?
Yes (No) IF you answered YES, then tell what it went in front of:

17. Tell in a few words the following things about the object:

Sound None
Color White ⇒ Red - Green - Gold

18. We wish to know the angular size. Hold a match stick at arm's length in line with some known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

1/4

19. Draw a picture that will show the shape of the object or objects. Lable and include in your sketch any detailsof the object that you saw such as wings, protrusions, etc., and especially exaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?
(Yes) No
IF you answered YES, then what speed would you estimate? 500 MPH

21. Do you think you can estimate how far away the object was from you?
Yes No
IF you answered YES, then how far away would you say it was? 1½ mi

22. Where were you located when you saw the object?
a. Inside a building
b. ~~In a car~~
c. (Outdoors)
d. In an airplane (type)
e. At sea
f. Other_____

23. Were you:
a. In the busness section of a city?
b. In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other?

24. If you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then compleate the following questions:

24.1 What direction were you moving?

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving?_____miles per hour

24.3 Did you stop at any time while you were looking at the object?

Yes No

25. Did you observe the object through any of the following?

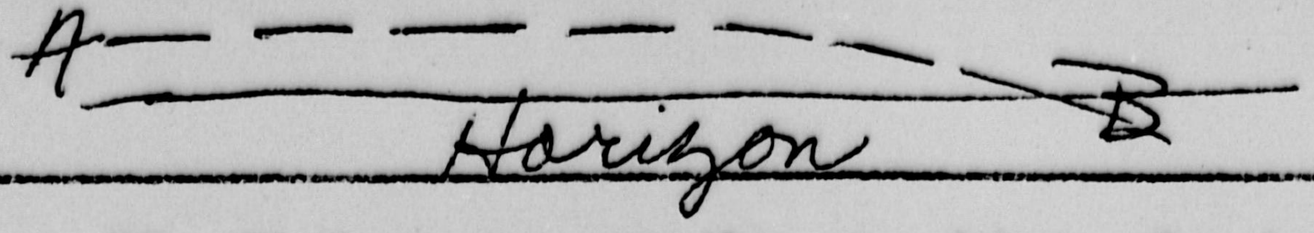

a. Eyeglasses	Yes	(No)	e. Binoculars	(Yes)	No
b. Sunglasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other_____		

26. In order that you can give us as clear a picture as possable of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

None, I've never seen anything like it

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon where you first saw it. Place a "B" on the same curved line to show how high above the horizon where you last saw it. Place an "A" on the compass where you first saw it. Place a "B" on the compass where you last saw it.

made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was more than one object, then how many were there? # 6
Draw a picture to show how they were arranged, and put an arrow to show the direction that they were traveling.

We saw two at 8:20. So we decided to sleep outside that night. During the night we saw 4 more. One on the same horizon & the other 3 on opp. horizons

30. Have you ever seen this, or a similar object before? If so, give the date or dates and location. No

31. Was anyone else with you at the time you saw the object? (Yes) No
31.1 IF you answered YES, did they see the object too? Yes (No)
31.1 Please list their names and addresses:

[redacted]
San Antonio, Texas

32. Please g[redacted] the fol[redacted]owing imformation about yourself:

NAME [redacted] [redacted] [redacted]
Last Name First Middle

ADDRESS [redacted] San Antonio Texas 78230
Street & No. City State ZIP

TELEPHONE NUMBER [redacted] AGE 24 SEX M

Indicate any additional information about yourself, including any speeal experance, which might be pertinant.

We of the IIOUFO wish to take this time to very cordially thank you for your coopsration in filling out this form. Once again we remind you that the information you have put on this form is confidental.

In the space below, please add any information, details, or sketches that you feel should be added. Please try to present them in the order in which they occured. Additional pages of the same size paper may be attached if they are needed.

We were walking down the street, (a very hilly street) We stopped to look at a bird that had been run over. Just as I bent down, I noticed something in the Southern sky. It had a faint disc shape & when I looked at it from the binocular it had a very ~~dull light~~ defanant disc shape but very dim. As soon as I let t binos down, the disc became very brig so bright, that I couldnt ~~no~~ see the shap any more. Then it changed to dim red then to dim green & then to dim gold. Then it became very bright again & then ver dim. Then it went below the horizon. Anot followed, repeating the same motions. Thats a we saw for that time. [illegible]

"Zeppelin" over Belfast

The *Belfast Telegraph* of June 28 told how civil servant William Busby of Upper Malone heard a strange drone: he was outside his house, and it was 6.45 p.m. He saw an object that looked like one of the old-time Zeppelins travelling from the direction of Lisburn, and disappearing over Cave Hill, i.e. roughly from South to North. It was daylight, and apart from a momentary disappearence behind a cloud, the object was in view for ten seconds.

Info only
Summer 65

[redacted]

Lansing, Michigan
March 30, 1966

Sirs:

I read in Wednesday's State Journal your request for more clues concerning UFO's.

Last summer, a few of my friends and myself were outdoors at about 8:00 P.M., when it was quite dark. Two of us saw a brilliant, fairly large, white fireball which had distinct outline. Almost immediately after it caught our eye, it narrowed into a point and disappeared.

We think now that it was probably a meteor, but at the moment we were sure it was some kind of vehicle from another planet. Later in the evening, a friend backed up our sighting by saying she had seen part of it, also. Another friend told

as that, while we were staring at the sidewalk while walking another friend home, he saw a similar object.

My point is this: I feel strongly that mature adults, face to face with a shocking experience such as this can and will act like kids who are barely in their teens and yet do not get excited at a lot of things. A UFO can cause an adult to back up another's sighting when he didn't see it at all himself. We all know this is because he believes the other or refuses to admit his friend is crazy. Also, another way to back him up is to "see another one like it."

I expect you know all this, but a great deal of "UFOs" which are caused by nature, can be "confirmed" and blown out of proportion.

I sincerely hope my experience

and thoughts have been a little,
if any, help to you.

Yours very truly,

[redacted]

[redacted]

Wolcott, 16, Conn.

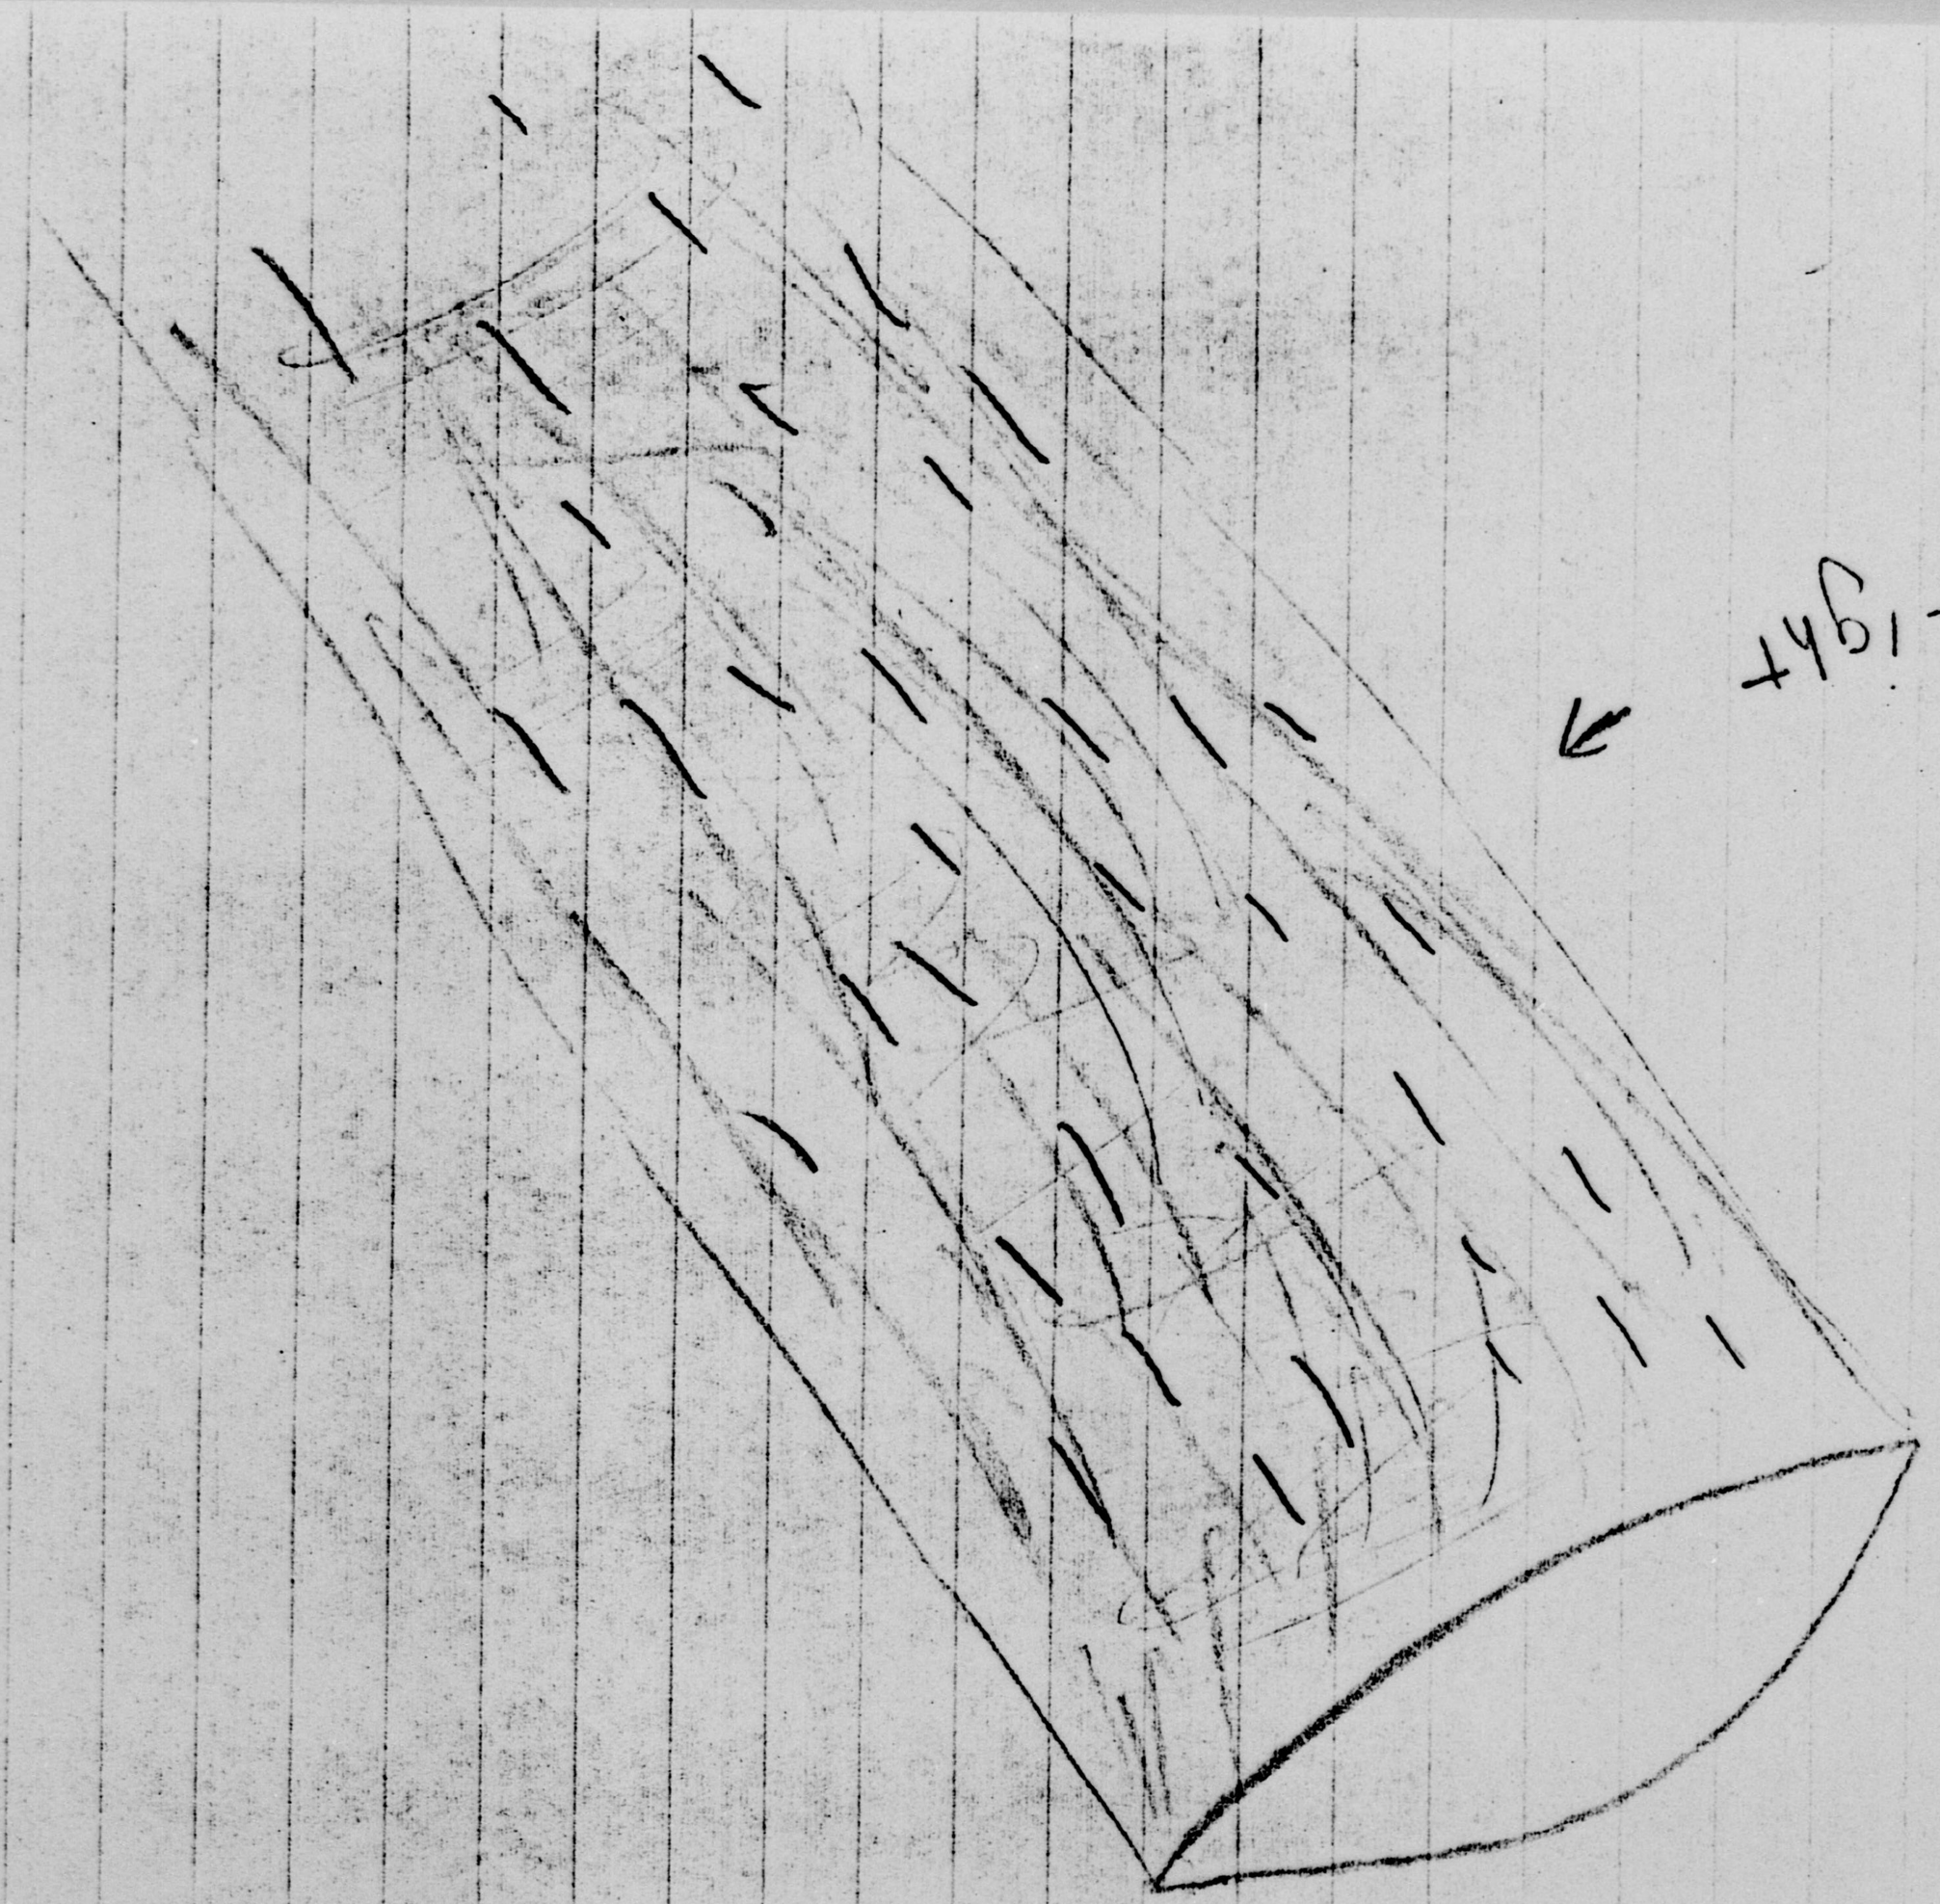

Dear Sir,

One night in June of 1966 about 11:25 p.m. my brother and I saw a silverish object in the sky coming over the hill across from the Colonial Club Restaurant on Hawley Road Oxford, Conn. It was about 200 feet in the air. At that height it looked about 7 ft. in diameter.

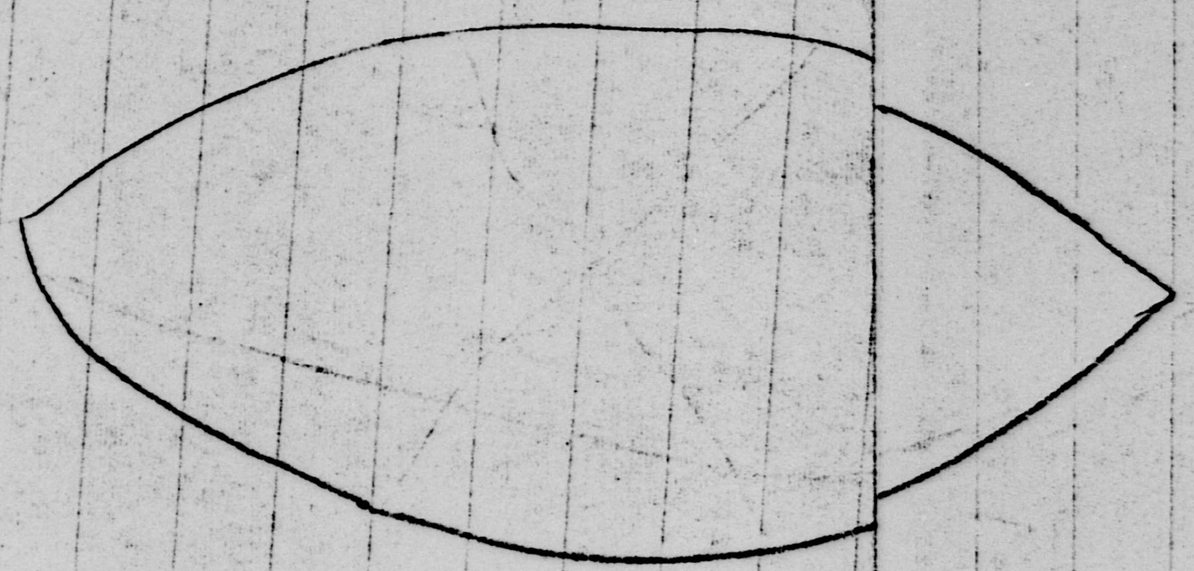

I sent you some pictures of what I saw. In the first picture shows the U.F.O. when it was first seen. The second picture shows the U.F.O. when a very bright, white, light came down from the bottom of it. The third picture shows it hovering. The fourth picture shows the light going over the restaurant before it disappeared.

Yours truly

MYSTERY OBJECT CAPTURED ON FILM

HOUSTON, Tex., June 12 — Space agency officials have released these photographs taken by astronaut James McDivitt over Hawaii during the four-day Gemini 4 space flight. They were described as showing a cylindrical object, believed to be a satellite. On these three frames of movie film, a faint tail of light and a fanlike glow are barely visible with each dot.—AP

Source: Ltr from Fawcett
Source Saucer News Sept 65

3-7 June 1965
China, Hawaii, Asia

GEMINI TWINS SEE BUT FAIL TO PHOTOGRAPH UFO: The Gemini 4 astronauts, James McDivitt and Edward White, saw two UFOs - possibly "space junk" or satellites - during their recent flight, but failed to get pictures of either of them. McDivitt reported he believed that he had obtained at least three pictures of one of the mystery objects, but a minute examination of all photographs made from the Gemini 4 capsule during its four-day orbital flight, failed to turn up any trace of the UFO.

During the June 3-7 space flight by astronauts James A. McDivitt and Edward H. White II they both reported sighting UFOs on three ocassions, one over China, one over Hawaii and one over Asia. The one over China looked like a "bright star moving fast". They photographed the one over Hawaii, which was "round, white with a tail of light and a fanlike glow". The sightings and films are being studied by NASA.

"UFOs" Watch GT-4 ?

On June 3, 1965, GT-4 Pilot Major James McDivitt and U.S. Major Space walker Edward White were launched into orbit from Cape Kennedy.

Edward White in the opening orbits got out of the GT-4 and walked through space for 20 minutes, twice as long as Alexei Leonov did for the USSR.

In a letter from Major McDivitt to Hayden Hewes, dated April 22, 1965, Major McDivitt relates that he has seen a great number of peculiar lights and objects in the skies at night and even in the day. However, in almost every instance he was able to identify these objects. As for sighting an object that he for certain identify the shape and size of and not be able to explain, "I'm afraid I just haven't seen this sort of thing," But he added "However, I know that there have been many reports of UFO's, and I just cannot speak for the other people."

Major McDivitt sighted three objects while in space during the four day space flight.

McDivitt said the first object was a cylindrical object sighted over Hawaii. He took five frames of movie film of it, but officials said all it shows is a unidentifiable white dot with a tail of light and a fanlike glow. (Cover photo)

The GT-4 went into its 21st orbit at 6:55 p.m.

MsDivitt spotted the second object during the 20th orbit, as the Spaceship was whirling across the United States.

Gemini control asked McDivitt: "You still looking at that thing up there?"

McDivitt replied: "I've lost it. It had big arms sticking out of it, it looked like."

He said he had only seen it for about a minute, and had taken pictures with a movie camera although the position of the sun prevented any recognizable photographs.

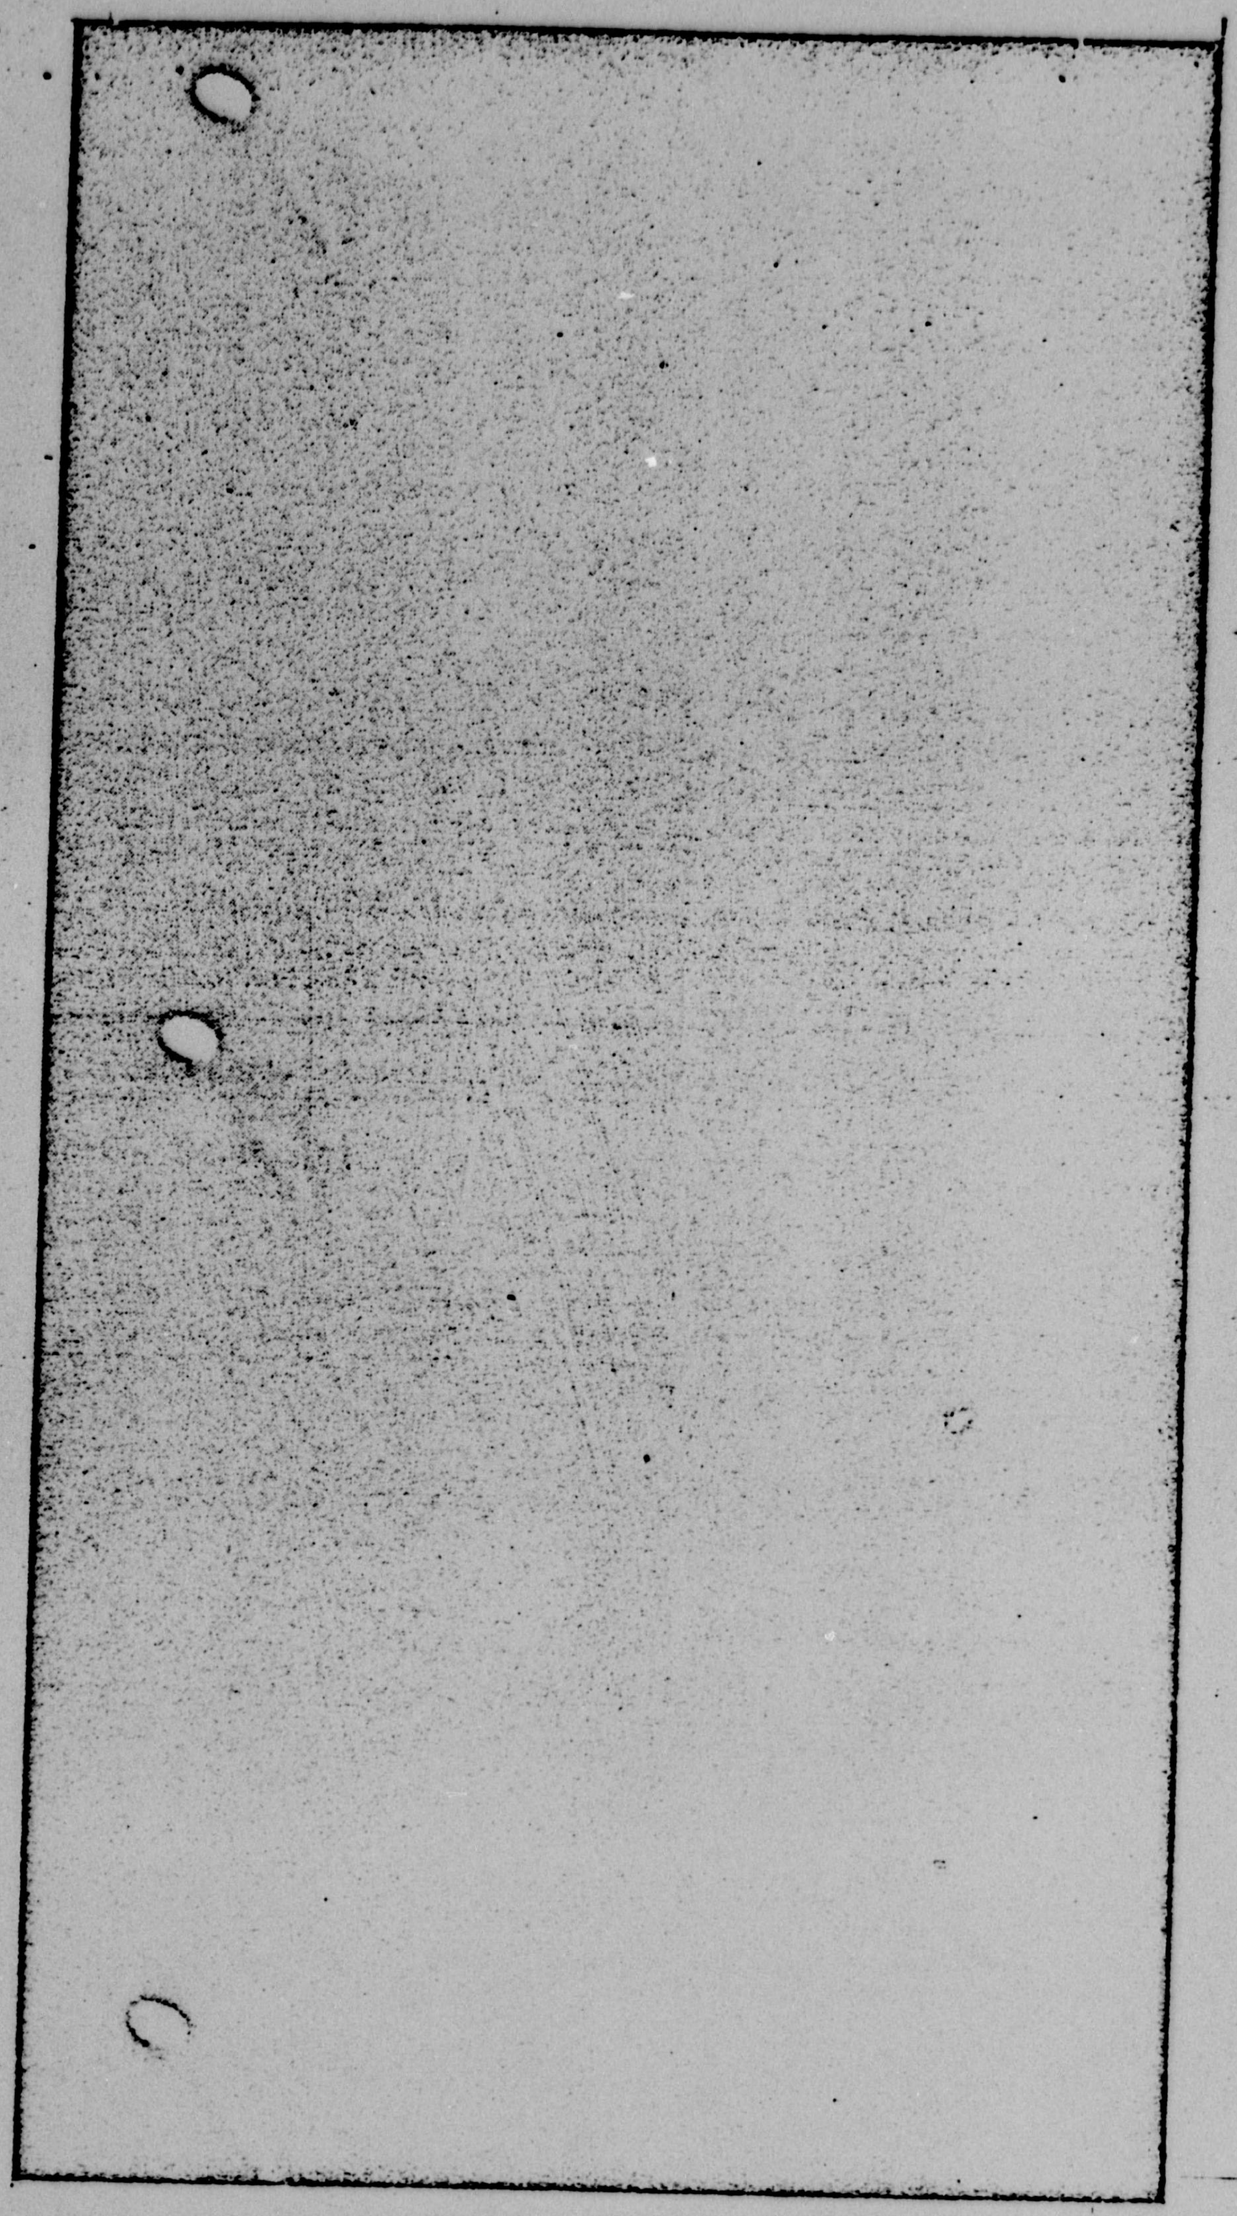

There was some speculation it was the Pegasus 2 meteoroid detection satellite launched May 25. 1965.

Space agency officials ordered an immediate check by space tracking agencies to see what the objects were.

The Air Force tracking center at Colorado Springs, Colo., which keeps track of man-made objects in space is currently following 1,391 objects. Object No. 1,390 is GT-4 and object No. 1,391 is its burned out second stage rocket booster.

The Pegasus 2 was about 1,200 miles from the GT-4. Dr. Dwayne Catterson, flight medical expert, said he did not know if an object within 1,200 miles could be identified by the human eye. "But certainly if the contrast was great enough between sunlight on the object and background he could see an object there and he might well see reflection giving shape from the arm."

The third sighting came on the 38 orbit, officials said McDivitt described the object which was sighted over China as looking like "a bright star moving fast." He did not attempt to make pictures of it. The space flight took them 62 times around the globe, a total of 1,609,684 miles.

GEMINI NEWS CENTER

Release No. 17
June 4, 1965

HOUSTON, TEXAS -- Analysis by Norad Spadat computational facilities reveals the following earth satellites were within 1000 km (about 600 miles) of GT-4 Spacecraft at the time Astronaut James McDivitt reported the satellite sighting:

5 June 1965
Fiji Island

Another Mystery Light Over Fiji

On the 5th of June 1965, in the dark, early morning hours, the Fiji Island of Taveuni was lighted up by an unknown source, and ear-splitting explosions followed. One islander said "It was a strange and terrifying experience. Without warning the sky suddenly brightened and it seemed almost like daylight. We looked up and saw a bluish white light followed by sparks. It disappeared to the northwest of Canua Levu. About three seconds later there was a loud double explosion and then everything was quiet."

A report from Sydney, Australia noted

(*See "Fiji", page 4*)

off the Coast.

Five days after the Fiji phenomenon, most of Sydney, Australia, and much of New South Wales suffered a two-hour blackout in the early morning hours. The black-out began at the height of a violent electrical storm which struck Sidney shortly after midnight. "I cannot understand it", said Mr. C. E. Ranger, General Manager of the Sidney City Council, the authority responsible for distribution of electricity in Sidney and surrounding areas. He said—"I know of no single place or unit in the statewide system which could be responsible for the blackout."

The foregoing is only one of many similar mysterious blackouts which have come to the attention of this office. In mid-May most of the State of Arizona, including Phoenix and Yuma, suffered a four-hour cessation of electrical power during the hottest part of the day. No UFO was reported, and there was no thunderstorm activity. It is not surprising that no one would think to look up during such a calamity, however.

NO CASE (INFORMATION ONLY)

10-11 June 1965
Palm Springs, California

THIS IS TO CERTIFY that we, the undersigned, individually and collectively observed the following phenomena in the skies on the night of June 10, 1965, between the hours of 9 and 11 p.m.

As pre-advised by Wesley H. Bateman, we saw from our positions on our roof-patio, several star-like objects going at a high rate of speed, and on no set pattern, from west to east, in the center of the sky.

Then after a time-lapse of ten to fifteen minutes, as pre-advised by Mr. Bateman, we saw two more objects to the north--one in the vicinity of the Big Dipper, and at Mr. Bateman's request, this object blinked on and off for a period of approximately ten minutes. Then it suddenly streaked across the sky and was gone.

At this time, it was stated by Mr. Bateman that there would be another similary display on the following evening.

SIGNED:

Sgt. Palm Springs

State of California
County of Riverside

Subscribed and sworn to before me, a notary, this 14th

day of June, 1965.

Notary Public

My Commission Expires May 13, 1967

THIS IS TO CERTIFY that we, the undersigned, individually and collectively, observed the following phenomena in the skies on the night of June 11, 1965, between the hours of 9 and 11 p.m.

As pre-advised by Wesley H. Bateman, we saw from one to four star-like objects going at a very high rate of speed, and on no set orbit, from west to east, in the center of the sky.

Then again, approximately ten minutes later, as pre-advised by Mr. Bateman, we saw two more objects to the north--one of which was hovering in the mouth of the Big Dipper, and at Mr. Bateman's request, this object blinked on and off for a period of approximately ten minutes, dropping each time it flashed on. Then suddenly it streaked across the sky and was seen no more.

[redacted] Commission Expires [redacted]

We of the newly formed organization titled Mental Investigations of New Dimensions (M.I.N.D.) wish to inform those interested in U.F.O.'s and all New Age subjects of our establishment. It is our purpose to inform all of new data that is in our possession, which clarifies the following subjects:

1) The propulsion mechanics of the U.F.O.'s.
2) Mental telepathy.
3) The true purposes of the U.F.O. visits to the earth.
4) The reason for the lack of direct physical contact between these visitors and the inhabitants of the earth.

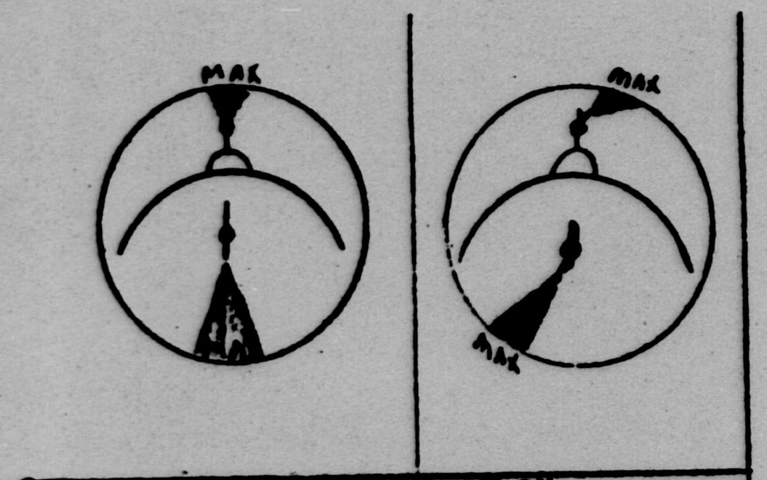

This information has made believers of many who were previously skeptics. The mechanics of the saucer propulsion has been evaluated by engineers who are astounded by the simplicity of it. Enclosed is a small diagram that will be of reference value when printed details of the craft and its association with planetary gravitational forces are available.

M.I.N.D. does not and will not release any data that cannot be certified. Our association with the visitors from space is solid enough that they cooperate in establishing proof of our association.

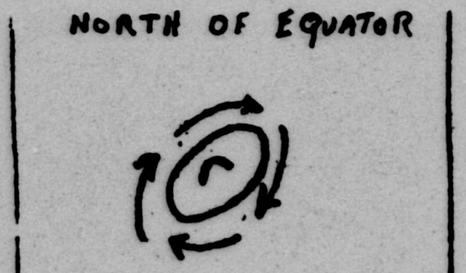

The enclosed affidavits are signed by people of sound occupation and background, ranging from teacher, educational director, wife to an active Marine Corps Lt. Colonel, and two who are civilian pilots. We base our method of telepathy as being factual as well, on these affidavits. Since telepathy is an ability that sleeps within all people, we do not claim we are exceptional, and do not plan to keep this information secret. We are presently making this information available to the Parapsychology Laboratory of the University of Virginia.

We desire correspondence with you and all others that you might inform of our address. We hope that in the near future we will be able to present in some manner this information without the appearance of exploitation. While we are working this out, please drop us a line.

24 June 1965
Vincetown, N.J. & Hampton Lake N.J.

On June 24, Mrs. [redacted]4, of Vincetown, New Jersey reported a large platter-shaped object buzzed her car on Red Lion Road. The object glowed and had a sort of "cockpit" in the center. It also had windows, something like antennae and a red light on it. Mrs. [redacted] 30, of [redacted] Hampton Lake, New Jersey shortly thereafter discovered a circular imprint on white sand in a clearing of a wooded area. The circumference of the circle is marked by a blackened, solid rim of fused sand and is depressed about five inches.

The circle is "perfectly round" and has a deposite of odd, "crusty" material in the middle. There is an inner circle of what also looks like burned, fused sand, about four feet inside the outer circle. This sighting, which occured on the 18th Anniversary of the 'modern era' and original sighting by pilot Ken Arnold of 9 strange flying objects round, brillant and flying in formation over Mount Rainer, Washington State on June 24, 1947. The South Jersey sightings are being investigated by the State Police at the Red Lion Barracks.

What Is It?

There's no prize for identifying it, but this could be one of the "flying saucers" folks say they've seen whizzing around. Lee Noll of Hershey, Pa., said he snapped this picture of a bright object in the sky near his home June 30. A newspaper [illegible] the picture for him. The two lines at the top [illegible] telephone wires.

U.S. Leave Viet Nam

MOSCOW (AP) — Leonid I. Brezhnev, head of the Soviet Communist party, last night once again demanded withdrawal of U.S. troops from Viet Nam.

Brezhnev also said the Soviet Union, "as before, will render necessary aid to its Vietnamese brothers in the just war against American imperialists."

The Soviet leader made his remarks in a statement issued for the 20th anniversary today of the atom bombing of Hiroshima. It was in response to a request from the Hiroshima newspaper Tyugoku Shimbun and was carried by Tass.

Brezhnev condemned the United States for bombing Hiroshima and said its present policy creates an ever-increasing danger to world peace.

He expressed his "sincere sympathy to all victims of the barbarous atomic bombing of Hiroshima." He said, "The Soviet people are fully resolved to struggle, in close unity with all peace-loving peoples, to prevent a repetition of the Hiroshima tragedy.

"Now that the aggressive policy of American imperialism creates an ever-increasing danger to world peace, the ashes of Hiroshima remind us of the need to bar the road to those who are striving to kindle the conflagration of a new world war.

U.S. to Equip Korean Units In Troop Deal

From The Patriot Wire Services

SEOUL — South Korean Defense Minister Kim Sung Eun yesterday said the United States has agreed to equip five Korean infantry divisions in exchange for the 15,000-man division Korea is planning to send to South Viet Nam.

Kim made the statement in testimony to a South Korean National Assembly committee considering dispatch of the combat division. He said the U.S. will equip one Korean army division, a marine division and three army reserve divisions.

Kim had been asked by a ruling party lawmaker what "assurances" the U.S. had given Korea as a "price" for Korea's contribution to the American effort in South Viet Nam.

Kim replied that Americans also would probably help to promote South Korean exports to South Viet Nam. The Koreans have sent flour and steel products and already have 2,500 combat engineers and security troops there.

The U.S. has been gradually cutting back on its aid to Korea as the country has become more self-sufficient, but there are still 50,000 American troops stationed here.

Nature Snapshot Amateur Held Secret for Over Mon

Hershey Man's 'Saucer' Photo

Lee Noll, 24-year-old Hershey resident, yesterday said his own photo of what appears to be a UFO (unidentified flying object) has erased any doubts he may have had about such things.

And, he said, it has stirred his interest in flying saucers.

"I believe they exist," the amateur photographer declared. "Whether they come from another planet, or, perhaps, from another country, I do not know."

Since viewing the results of pictures he snapped of a bright object in the sky above his home June 30, he has been reading everything about flying saucers he can find.

Noll took three pictures, making the photographs on the last three frames of an average speed film with a 35-millimeter camera. The object, he said, moved south "at an incredible rate of speed" after the third picture.

The pictures, enlarged by newspaper photographers, show the bright object Noll said he saw near his home. Below the object was another, seemingly streaking across the sky.

The larger object seems saucer-shaped, with a glowing circle in the center. Vapor trails appear to stream out from behind.

Noll said:

"I had no idea there was another object in the picture. It apparently passed by in range of the camera.

"I was concentrating on the bright spot I saw. I had no idea what it was. It appeared at a 65-degree angle with the horizon. I know it wasn't a balloon or a blimp."

Noll said he is aware his report of a UFO comes among many in the nation, particularly in the Midlands and the Southwest.

Because of this, he said, he did not reveal his photo of an apparent UFO until yesterday.

"I felt everyone might think I was stme kind of a nut," he said. "But after reading a report of an object hovering over an airport in Texas for 45 minutes and nobody got a picture of it, it made me wonder why."

Lee Noll
Proof of Saucer?

Noll, who lives at 304 W. Areba Ave., said he and his wife, Lona, have resided in Hershey two years.

Am employe of a finance company in Camp Hill, Noll is also a professional singer who appears weekends at area night clubs.

He said he has had no formal voice training, but appeared for a time with the Blue Jackets Choir at the Great Lakes Naval Training Station where he underwent basic training. He served in the Navy two years, he said.

A native of Newmanstown, he attended Girard College, Philadelphia, and also resided several years in Lebanon where his parents, Mr. and Mrs. Raymond Minnich, live. He has a brother, Leonard, serving in the Air Force in Oklahoma.

Noll said he became interested in photography about eight months ago. He says he has purchased several small cameras and has concentrated on close-up, nature photos.

Harrisburg, Penna., FRIDAY, AUGUST 6, 1965

Convinces Him They're Real

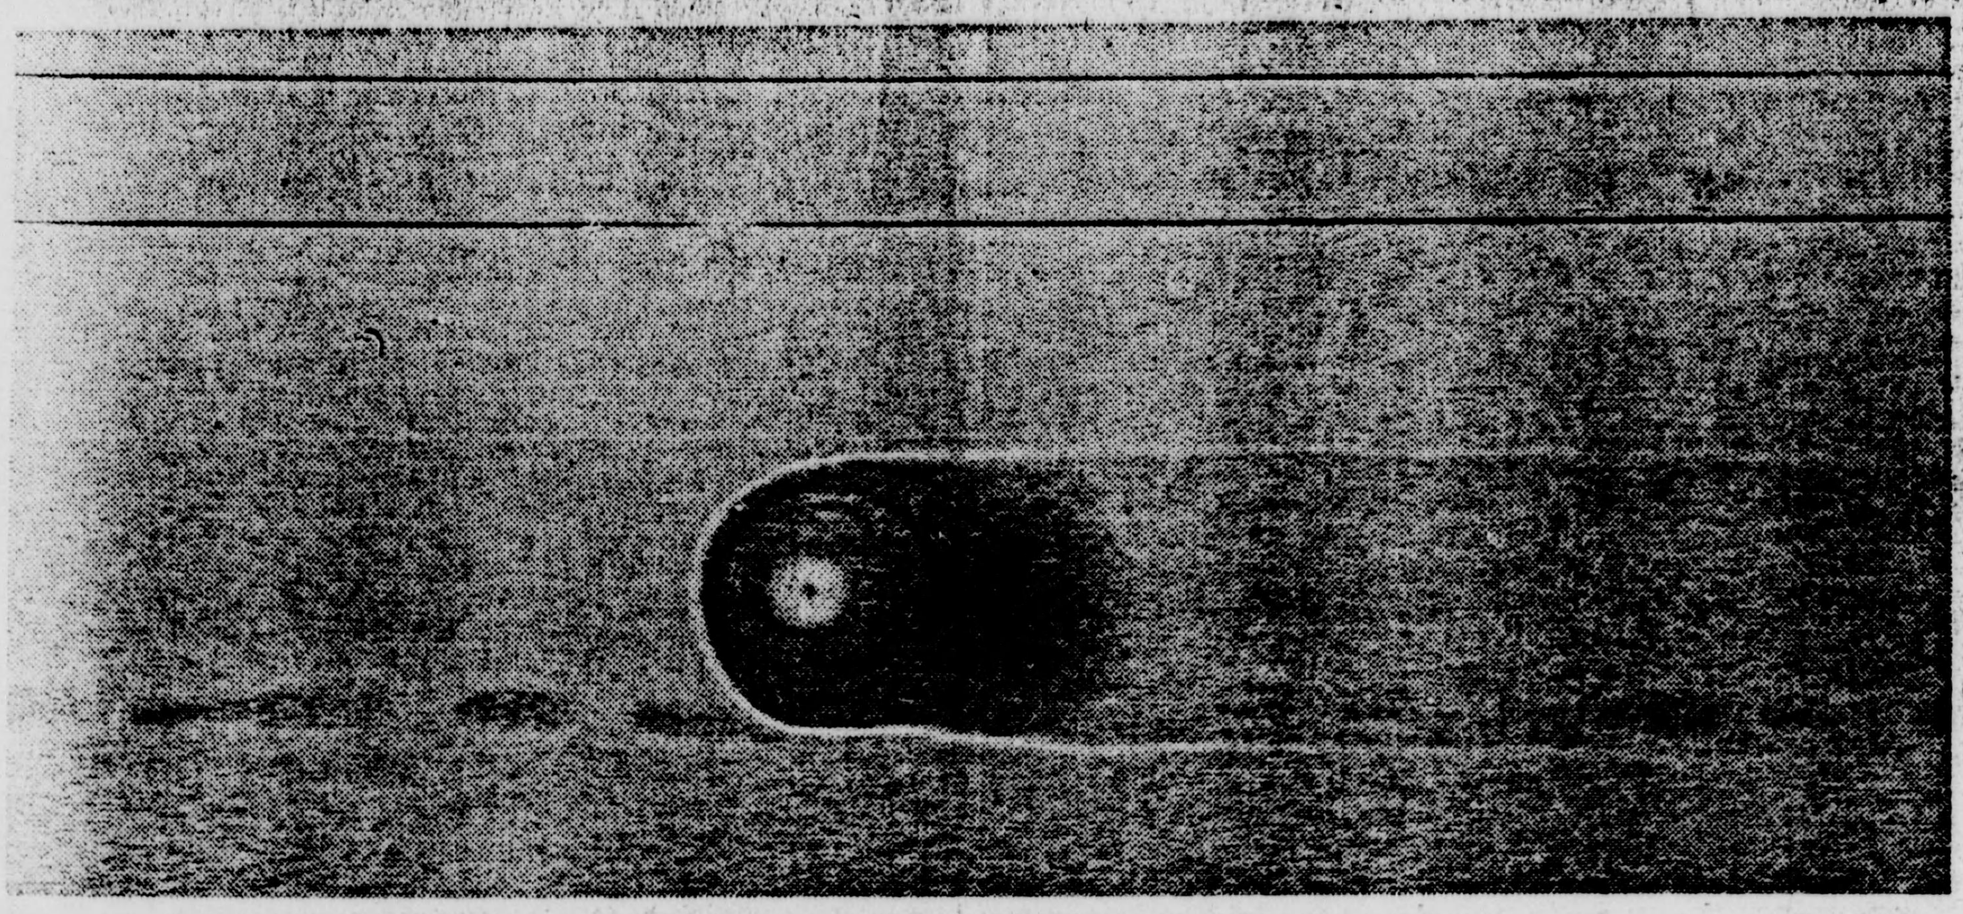

"My photos have been of bees, flowers and animals, mostly," Noll said.

As to his photo of an apparent UFO, Noll says he has been disturbed by Air Force explanations of objects being sighted. The Air Force contends that most of the sightings were probably stars or planets.

"I believe," Noll said, "the Air Force has a great deal of information which it is withholding, perhaps because it fears panic, or because the objects being sighted are something Russia has.

"My idea is that people fear something more when they don't understand what it is. It is better when people know what they are seeing.

"I'm hoping that, as a result of the latest sightings, the Air Force will provide the information which it now has in its possession."

Mystery Object Is Spotted by Camera

Saucer-like object streaks by in photo made by Lee Noll of Hershey. In taking the picture June 30 at Hershey, he said, camera was concentrated on bright spot near telephone wires at top of photo when the larger object in the center apparently went by unnoticed by him.

'St. Elmo's Fire'

That Flying Saucer Mystery-- Perhaps This Can Explain It

Editor:

Several weeks ago you published a photo taken by Lee Noll of Hershey. You quoted him as saying that he's convinced there are "flying saucers" and other types of UFOs in the air. I'm not prepared to argue the case, but I think I have a plausible explanation for the phenomena on his photo.

I'm quite sure that the bright spot on the phone wires is a phenomenon known popularly as "St. Elmo's Fire." It is caused by a bit of ionized air, a highly electrically charged molecule, that is so active that it glows.

I'm not too sure of the technical statements, but I know the phenomenon. It is a frequent occurence around electrical apparatus and transmission lines, especially that of high voltage.

Telephone lines are not usually of the high voltage variety, but it can happen anywhere. I have seen the little balls of "fire" dance around the floor of a radio transmitter building and explode with a loud "bang!" when they come in contact with something. We always stayed clear of them. It happened during a thunderstorm.

The name "St. Elmo's Fire" was contrived, I understand, by sailors in the windjammer days who often were terrified when the rigging of their ship would become highly charged during storms at sea and light up like a Christmas tree.

As they had no understanding of the properties of electricity, they were convinced that it was the work of some deity. I don't know if it was considered a good or bad omen.

There can be only one plausible explanation for the round "UFO" moving right to left across the film. If the photo was taken in the same direction as you printed it, the spot could have been caused by a drop of chemical or water splashed on the film during processing. As the film would travel horizontally in the camera, it would be hung vertically for drying in the photo lab.

It may have been wound on a drying rack, but that, too, would have been operating vertically. After the fluid ran down the film, it stopped and dried there, depositing a little more of its chemicals, causing the concentric "speed" image.

—Rev. Robert H. Logan,
Gratz.

BUT IT'S A GREAT IDEA

Those Zip Codes Stir a Complaint

Editor:

There has been a good deal of talk about using zip code on all mail. There also has been talk about a law stating that mail will not be delivered unless the zip code is used.

My family and I know and use the zip codes for Mechanicsburg, which is 17055, and for Harrisburg, which is 17105. But if we have to mail a letter to a city in Ohio, for example, and the zip code is not given, what are we to do?

Now the zip code is a great idea to speed the mail along, if the public had some way of knowing what the zip codes for most places are. Consider a typical example.

present time, there is no law that prohibits the deliverance of first-class mail not carrying zip code numbers. If you would like to find out what the zip code of a particular section of the country is, you can do so by calling the Harrisburg Post Office and asking for the zip code office. A list of zip numbers for all sections of the U.S. also may be obtained at the Post Office.

Hershey Man Has Photographic Proof

Unidentified Flying O

Flying saucers—unidentified flying objects—or Martian spaceships.

Call them anything you like, but Lee Noll, of Hershey, says he's seen a mysterious object in Central Pennsylvania skies similar to those reported by thousands of persons across the nation's Midlands and Southwest.

But, unlike many others who have spotted the so-far unexplained phenomena, Noll has photographic proof of what he saw.

And the picture turned out to be a little more than he expected.

NOLL, an amateur photographer, told The Evening News he saw a bright object in the sky above his home at 304 W. Areba Ave. around June 30 and took three pictures of it.

Noll said he made the photographs on the last three frames of an average speed film with a 35 millimeter camera and the object moved south "at an incredible rate of speed" after the third picture.

The amateur photographer yesterday turned over his negatives for enlargement by newspaper photographers.

Upon seeing the blown-up photos, Noll found he got more than he bargained for.

The enlarged pictures show the bright object Noll said he saw near his home.

But below the object was another, seemingly streaking across the sky.

THE LARGER object appears to be saucer-shaped with a glowing circle in the center. What appear to be vapor trails stream out behind the object.

"I had no idea there was another object in the picture," Noll said. "It apparently passed by in range of the camera.

"I was concentrating on the bright spot I saw. I have no idea what it was. It appeared at a 45-degree angle with the horizon I know it wasn't a balloon or a blimp."

WHY DID Noll wait more than a month before revealing the pictures?

"With all these reports of flying saucers, I didn't say anything because I felt everyone might think I was some kind of a nut.

"But after reading a report of an object hovering over an airport in Texas for 45 minutes and nobody got a picture of it, it made me wonder why."

Noll said he has been bothered by the Air Force explanation of the objects sighted.

The Air Force contends most of the sightings were probably just stars or planets.

"THIS bothers me," Noll said, "and now I'd like to see the Air Force explain this."

Most of the objects spotted by persons in the Southwest were described as red or yellowish, and speeding across the sky from southwest to northeast at very high altitudes.

Najeeb E. Halaby, former director of the Federal Aviation Agency, yesterday said the rash of reports may signal a new "American mythology."

"Reports of such objects seem to reach their peak in August and September. It may be that the long hot summer expedites the imagination," he said in Los Angeles.

Dec 65

Hershey, Pennsylvania
30 Jun 65

SAUCER PHOTOGRAPHED IN PENNSYLVANIA: The picture above is one of three taken about June 30th by an amateur photographer in Hershey, Pa. named Lee Noll, who waited more than a month before publicizing his sighting, for fear of ridicule. Upon blowing up the pictures, Noll found he had gotten more than he had bargained for. He had aimed his camera at a bright spot near the telephone wires shown here. The round object apparently moving right to left at terrific speed below the wires was not seen visually. The dark spots in front of the object are probably water marks on the film, whereas there seems to be a vapor trail of some sort behind the object, and a glowing circle in its center. The other UFO which was seen visually, disappeared toward the south at incredible velocity after the third picture was taken, according to Noll's account of the incident. He adds that he would like the Air Force to investigate his pictures and try to find an explanation; but as yet he has not been questioned by them.
