

PROJECT 10073 RECORD CARD

1. DATE 20 May 64		2. LOCATION Glasgow AFB, Montana		12. CONCLUSIONS <input type="checkbox"/> Was Balloon <input type="checkbox"/> Probably Balloon <input type="checkbox"/> Possibly Balloon <input type="checkbox"/> Was Aircraft <input type="checkbox"/> Probably Aircraft <input type="checkbox"/> Possibly Aircraft <input checked="" type="checkbox"/> Was Astronomical Venus/Regulus <input type="checkbox"/> Probably Astronomical <input type="checkbox"/> Possibly Astronomical	
3. DATE-TIME GROUP Local _____ GMT 21/0450Z		4. TYPE OF OBSERVATION <input checked="" type="checkbox"/> Ground-Visual <input type="checkbox"/> Ground-Radar <input type="checkbox"/> Air-Visual <input type="checkbox"/> Air-Intercept Radar			
5. PHOTOS <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No		6. SOURCE military			
7. LENGTH OF OBSERVATION 40 minutes, two hours		8. NUMBER OF OBJECTS one	9. COURSE north	<input type="checkbox"/> Other _____ <input type="checkbox"/> Insufficient Data for Evaluation <input type="checkbox"/> Unknown	
10. BRIEF SUMMARY OF SIGHTING Irregular shaped obj similar to auto headlight observed by two separate groups of witnesses. Brighter than a star. White color. 30 deg elevation descending slightly. Path horizontal from SW to NW. Passed through 16 deg arc gradually. Some witness indicated obbing motian. Second group observed for over two hours.			11. COMMENTS VENUS at 295 deg az 10 deg elev at 2200 local moving to horizon at 2300, 310 deg az. REGULUS at 250 deg az 30 deg elev at 2200 moving to horizon at 290 deg az at 0100 local time. Brightness indicates VENUS observation while duration and elevation favors observation of REGULUS. Sighting attributed to one of these two objects or possibly both.		

VENUS OR REGULUS

(DURATION + ELEVATION INDICATE)
REGULUS (2 HOURS) (10)

POSSIBLE ONE OF 2 OBSERVATIONS
WAS VENUS.
