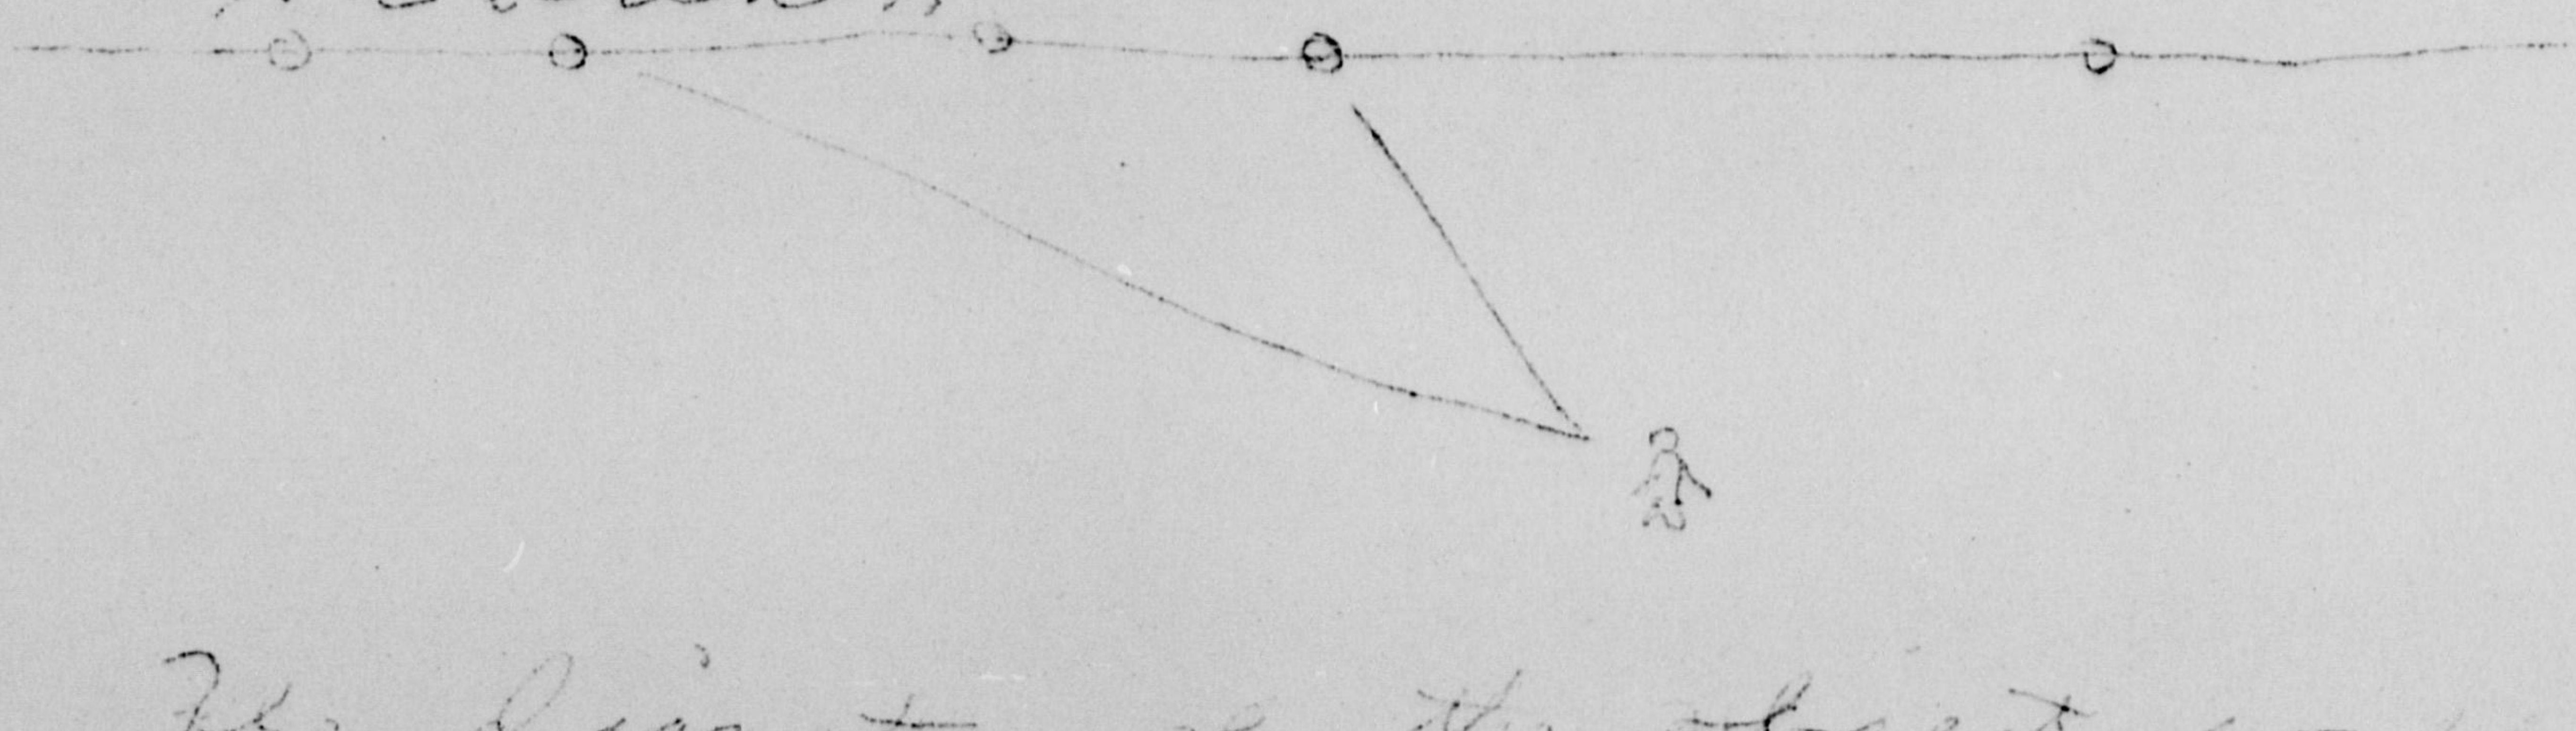
Dear Sir

On February 23 at 4:00 P.M., I seen a golden object go across the sky, it was on a straight course, it was between 500-6000 ft above the ground. No aircraft in area.

The object was gold, ashy color, looked like gold ball. it flew past quickly at about 5000 mph., no sound, no wind in area..



The diameter of the object I would say was fifty feet. it had a 2" thickness.

Dear Mr. [redacted]

This is in response to your recent letter requesting information on the subject of unidentified flying objects.

This Office, which has the primary responsibility for releasing information concerning the subject of unidentified flying objects, does not have a clerical staff of sufficient size to permit our entering into prolonged discussions with individuals other than bona fide scientific researchers.

It is recommended that you obtain a copy of "The World of Flying Saucers" by Menzel and Boyd. This book has recently been published by Doubleday. It may help to clarify some of your queries on this subject.

Dear Mr. [redacted]:

The Office of the President has asked the Air Force to reply to your letter.

There is no truth to allegations that the Air Force withholds or otherwise censors information vital to public understanding or evaluation of the nature of unidentified flying objects (UFO). In some instances the names of individuals are withheld to protect them from the curious. It is sometimes necessary to withhold information concerning investigative procedures which are also used in the evaluation of other intelligence information to prevent compromise.

As of this date, no unidentified aerial object has given any indication of threat to the national security; there has been no evidence submitted to or discovered by the Air Force that unidentified sightings represented technological developments or principles beyond the range of our present day scientific knowledge; and finally, there has been nothing in the way of evidence or other data to indicate that these unidentified sightings were extra-terrestrial vehicles under intelligent control.

Your interest in Air Force activities is appreciated.

I am really surprised at the armed services especially the Air Force of not admitting the truth to the people that "Flying Saucers are real", "Credible", the real McCoy!! Gentlemen I would like to inform that the people of the United States are well educated in reading Science Fiction Stories the good kind, the kind with morals to them.

If you released it to the public they would understand because this is not October 28, 1938, this is the Atomic age, Space age and era of wonder the thirty, seventy, eighty we are advanced. We have not reached the limits of advancements. The people must know about it. They would not be [illegible]

Now just suppose next week or the week after news leaks out about Unidentified flying objects being spaceships from another world or world then what do you, by withholding the Reports from the people, They'll get more and more curious about the air force view about U.F.O.
