29.2 Please list their names and addresses:

[REDACTED]
LOS GATOS, CALIFORNIA

30. Please add here any further comments which you believe are important. Use additional sheets of the same size paper, if necessary.

Estimate of 300-350 Mile per hour speed was made because there was very little lag to the sound and the object disappeared over mountains approximately five miles to the west of observation post.

I have been closely interested in aircraft for a long time, especially military, as I have a son who is a Navy Flyer ... and further qualifications as an observer are that I was a technician on Navy and Air Corps (WW 2) training and identification films at the Walt Disney Studios during the last war. Also, I did much flying---private---many years ago.

I give you this information so that I will not be rated as a vapor-headed jerk, trying for publicity, and so that this report will have some meaning.

Additionally: This questionnaire was not received by me until September 10th, and the envelope had been opened and the inclosed self-addressed envelope removed before I got it.
