Gentlemen:

Enclosed is a report of an unidentified flying object which I saw on 3 July 1959. A copy has been sent to both NICAP (in Washington) and APRO (in Alamogordo, N.M.).

In paragraph #5, I said the object could not have been a "conventional aircraft". By this I meant a prop-driven plane. The only known object it might have been is an extremely fast jet aircraft. If it was that, I don't think it was a plane based in this area, as I have never seen a jet in this area travel at that apparent rate of speed.

I checked today with the four Chicago newspapers. None had a UFO report for that date.

Would you please acknowledge this report? Also, I would like to know any conclusions you may come to and what prompted these conclusions.

Sincerely yours;

Gentlemen:

Enclosed is the questionnaire sent to me by Major L.J. Tacker, concerning my sighting of an unidentified flying object near Williams Bay, Wisconsin, on 3 July 1959.

I have tried my best to give you all information I have about the incident.

I have contacted the chiefs of police at both Williams Bay and Fontana (across the lake from the campgrounds), Wis. In their replies, they said that no one reported seeing anything unusual on that date.

I would appreciate it very much if you would notify me of any conclusions you may come to in connection with this sighting and what prompted that conclusion.

Sincerely yours;

Describe in your own words a common object or objects which when placed up in the sky would give the same appearance as the object which you saw.

|--------------|---------------------|--------------|--------------|
| a. North     | c. East             | e. South     | g. West      |
| b. Northeast | d. <u>Southeast</u> | f. Southwest | h. Northwest |

31. If you are familiar with bearing terms (angular direction), try to estimate the number of degrees the object was from true North and also the number of degrees it was upward from the horizon (elevation).

31.1 When it first appeared:

- a. From true North 120 degrees.
- b. From horizon 75-80 degrees.

31.2 When it disappeared:

- a. From true North 110-115 degrees.
- b. From horizon 75-80 degrees.

32. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the *same* curved line to show how high the object was above the horizon (skyline) when you *last* saw it.

33. In the following larger sketch place an "A" at the position the object was when you *first* saw it, and a "B" at its position when you *last* saw it. Refer to smaller sketch as an example of how to complete the larger sketch.

See PHOTO

34. What were the weather conditions at the time you saw the object?

34.1 CLOUDS (Circle One)

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

35. When did you report to some official that you had seen the object?

9                      July                      1959  
Day                      Month                      Year

36. Was anyone else with you at the time you saw the object?

(Circle One) Yes                      No

36.1 IF you answered YES, did they see the object too?

(Circle One) Yes                      No

36.2 Please list their names and addresses:

As I don't believe it would have been possible to see the object without the aid of sunglasses, and also because none of the others were looking in the correct direction I don't believe you could learn anything additional by contacting them.

37. Was this the first time that you had seen an object or objects like this?

(Circle One) Yes                      No

37.1 IF you answered NO, then when, where, and under what circumstances did you see other ones?

On Dec. 13, 1958 at 7:23 P.M. (CST) I saw a bright yellow -  
colored fireball for a split second while I was waiting for  
a CTA bus two blocks from my home. It was traveling east  
with perhaps a tendency towards the southeast.

38. In your opinion what do you think the object was and what might have caused it?

As you may know, I am interested in UFO's and believe many of them have an interplanetary origin. However, in this case, I would not hazard a guess. As I said in my letter, it may have been a jet-powered aircraft, but it would have had to have been of a type faster than the standard operational jet based in that area.

39. Do you think you can estimate the speed of the object?

(Circle One) Yes No

Only so far as to say it was faster than a jet at the same apparent altitude.

IF you answered YES, then what speed would you estimate? \_\_\_\_\_ m.p.h.

40. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was? \_\_\_\_\_ feet.

41. Please give the following information about yourself:

NAME \_\_\_\_\_  
Last Name First Name Middle Name

ADDRESS \_\_\_\_\_  
Street Chicago City 18, Zone Ill. State
