AIR INTELLIGENCE INFORMATION REPORT

SUBJECT
Unidentified Flying Object (FLYDBRPT)

UNCLASSIFIED

AREA REPORTED ON
Newfoundland

FROM
Dir/Int, NEAC

DATE OF REPORT
1 December 1952

DATE OF INFORMATION
17 November 1952

EVALUATION
C-2

PREPARED BY (OFFICER)
NATHAN J. MEYERSON, Captain, USAF

POST OFFICE ADDRESS
CO, McAndrew AFB, NFLD.

REFERENCES (Control number, director, previous reports, etc., as applicable)

SUMMARY: (Enter concise summary of report. Give significance in final one sentence paragraph. List inclusions and exclusions. Be brief and to the point. AF Form 142-1, 11-52)

1. The Following information was reported to the Director of Intelligence, Northeast Air Command, and is of interest to the Air Technical Intelligence Center, ATTN: ATIAA-A2c, Wright-Patterson AFB, Dayton, Ohio.

2. The Commanding Officer, McAndrew AFB, Newfoundland made the following report on an unidentified flying object.

3. On 17 November 1952 at 0917Z, S/Sgt Canny reported seeing an object. It was sighted moving over McAndrew towards Red Island, 4723N/5410W, with an unknown altitude. Object was going in which he believed to be a circular motion and climbing at a terrific speed. Object was of a white color at that time. Object then started moving southeast towards Placentia, 4714N/5358W, and then took about a 160° left angle turn towards Fox Harbor, 4713N/5355W, before disappearing at 0942Z. Object during this time seemed to change from a white color to an orange-like color and then to a green color. A/26 [redacted], A/10 [redacted] and S/Sgt [redacted] also witnessed the same phenomena.

COMMENTS of Preparing Officer:

1. Weather conditions prevailing during the period of sighting: estimated 2000 feet overcast, 10 miles visibility, temperature 33 degrees, wind from the northeast at 6 knots.

2. There was no activity or condition, meteorological or otherwise, which might account for the sighting.

3. No interception or identification action was taken.
