Dear Major Graham.

My best wishes for your good health.
You will recall my phone conversation regarding a central point for forwarding U.F.O. information.
Enclosed are three sketches (Rough) on this matter. I have others on hand - but forwarding only those which were observed through 10 x 50 night-glasses. Have other sightings also that were not sketched due to my not realizing that others were to follow.
I hope I have not wasted your time, and that these may be of some interest to those at Hamilton Fld.

Thanking you for your help + consideration.

Yours truly -

Dear Sir:

Received your letter and forms of this date. I notice you thank me for reporting sighting - I mailed three sketches of three sightings with a note about others - I hope you received all of them. In any case - copies are on hand - will be glad to forward same - but my job will be a little easier if you would kindly forward forms necessary to give detail, these forms make it very much easier to complete the picture.

Certainly happy to know where to forward data - it certainly was a long drawn out affair trying to give information on hand to proper parties.

Thanks to you Sir - and I hope to be of a little help some where along the line -

Yours Sincerely

21. IF POSSIBLE, try to guess or estimate what the real size of the object was in its longest dimension.
30 feet. Very hard to estimate positive size at night — not knowing height of object.

22. How large did the object or objects appear as compared with one of the following objects held in the hand and at about arm's length?

(Circle One):

a. Head of a pin
b. Pea
c. Dime
d. Nickel
e. Quarter
f. Half dollar
g. Silver dollar
h. Baseball
i. Grapefruit
j. (Basketball) slightly larger.
k. Other _____

22.1 (Circle One of the following to indicate how certain you are of your answer to Question 22.

a. (Certain)
b. Fairly certain
c. Not very sure
d. Uncertain

23. How did the object or objects disappear from view? appeared to just vanish — my wife explained it that way - she ran to side of garage to follow flight - I remained to keep it in binoculars — had to move backward to do so - garage partly hid it from my view

24. In order that you can give as clear a picture as possible of what you saw, we would like for you to imagine that you could construct the object that you saw. Of what type material would you make it? How large would it be, and what shape would it have? Describe in your own words a common object or objects which when placed up in the sky would give the same appearance as the object which you saw.

#1. of a light-duable metal
#2. 30 to 50 feet - diameter - 12 to 15 feet in height
#3. Washing machine lid or cover (upside down) with a dome center top side (more like squatty dome) about one third size in diameter of base.

25. Were you (Circle One)

a. In the business section of a city?
b. In the residential section of a city?
c. In open countryside?
d. Flying near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other I would call it fringe area of Business section.

27. What were you doing at the time you saw the object, and how did you happen to notice it?

Doing our regular sighting - we spend an hour to three hours on good nights - you might say just observing + chatting -

28. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

28.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

28.2 How fast were you moving? _____ miles per hour.

28.3 Did you stop at any time while you were looking at the object?

First - May I mention that shortly after passage of flying object my Wife and I could not help but notice a very peculiar odor - nothing I could recall anytime in my life - can only say it was a plain stink - lasted for about 20 minutes -

— — — — — —

Mrs [redacted] + myself were sitting on bench in back yard sipping cup of coffee - binoculars on seat - we sight planes and any object that happens to attract our vision. my wife first pointed out object observed heaven and remarked - what's that — on seeing it I remarked - that's a new one - we watched it approach it looked like what is called flying saucer - it appeared dove grey in colour - no lights - I reached for glasses and had a little trouble getting it in field (10x50 glasses on fixing it knew I was looking at something I had never seen before - but it was very plain. while holding glasses on object - I said to my wife - If there is such

a thing as a flying saucer then we are seeing one — held it in view by stepping back and - as by this time it cruised directly overhead and headed north - (approx from east -) called to wife to keep it in view as it was passing over garage and I did not want to loose one second of sighting. I watched it go below garage roof line + dashed down to where mrs Hargood was standing — too late - she said just plain vanished.

I immediately questioned the mrs as to sound and her observation — nothing outstanding — no noise - no sound of any kind - no lights - no glow - no nothing — while we compared sightings we keeped up constant look-out for maybe a return — NONE — about five to six minutes later - I asked - what in blazes is that stink - she said - I was about to ask same thing — we checked alley + looked for smoke - none - just an awful stink - it remained about 20 minutes. We both agreed the colour was smokey grey or dove grey - object was SOLID. I made rough sketch + notes right away. after making sketch did everything possible to figure out what it was - allowing for just about everything - nothing seemed to replace that which we had seen. The time was noted on observation + immediately afterward — this was due to other sightings of which we had been not to sold on - it was due to these other sightings that I purchased the binoculars — and have since exchanged them for 16 X 50 from 10 X 50.
