1. DATE, TIME GROUP 30 March 65 31/0300Z	**2. LOCATION** Lewisburg, Ohio Dayton, Ohio
3. SOURCE Civilian	**10. CONCLUSION** 1. Astronomical (JUPITER) 2. AIRCRAFT
4. NUMBER OF OBJECTS Two	
5. LENGTH OF OBSERVATION 10-12 Minutes	**11. BRIEF SUMMARY AND ANALYSIS** See case file. Sgt Moody and Sgt Jones investigation (Field). Color, shimmering effect inaccord with observation of Jupiter. Mr [redacted]g looking at a/c departing to SE called Mrs [redacted] to observe object over her barn (SW). Mrs [redacted] did not observe an object (Looking in the wrong direction). Object was not under continuous observation. Mr [redacted] observation was the setting and refraction of Jupiter. Inversion in the area at 5,000 and 15,000 ft. COMMENTS: Consultation with Dr Hynek lead to conclusion that there was sufficient evidence to evaluate the case as the setting of Jupiter and an a/c observation. The 60 deg elevation and reflection in the lake are inconsistant. The object necessarily having to be at a low angle of elevation in order to reflect from the lake. The color and magnitude 5-7X as bright as the brightest star are consistant with this analysis. Jupiter setting coincides with the disappearance of the first object.
6. TYPE OF OBSERVATION Ground-Visual	
7. COURSE Stationary, SE	
8. PHOTOS ☐ Yes ☒ No

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

30 (Day) — 3 (Month) — 65 (Year)

2. Time of day: 10 (Hour) _____ (Minutes).

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. (Eastern) b. Central c. Mountain d. Pacific e. Other _____

(Circle One): a. Daylight Saving b. (Standard)

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address) — Lewisburg (City or Town) — Ohio (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) 10 (Minutes) _____ (Seconds)

a. (Certain) c. Not very sure
b. Fairly certain d. Just a guess

5.1 How was time in sight determined? By clock

5.2 Was object in sight continuously? Yes ____ No V Just for few seconds not in sight.

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	a. (Bright)
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you d. To your left
b. In back of you e. Overhead
c. To your right f. Don't remember

FTD FORM OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. (Many)
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. (No moonlight - pitch dark)
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. (Clear sky)
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. (Dry)
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. (As a light)
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. (Brighter)
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

The largest star nearest the object was white, and the object was like glowing gold a bright yellow.

12. The edges of the object were:

(Circle One): a. (Fuzzy or blurred)
b. Like a bright star
c. Sharply outlined
d. Don't remember

e. Other Quivered like a burning flame.

13. Did the object:

	(Circle One for each question)		
a. Appear to stand still at any time?	(Yes)	No	Don't know
b. Suddenly speed up and rush away at any time?	(Yes)	No	Don't know
c. Break up into parts or explode?	Yes	(No)	Don't know
d. Give off smoke?	Yes	(No)	Don't know
e. Change brightness?	(Yes)	No	Don't know
f. Change shape?	Yes	(No)	Don't know
g. Flash or flicker?	(Yes)	No	Don't know
h. Disappear and reappear?	(Yes)	No	Don't know

14. Did the object disappear while you were watching it? If so, how?

Yes, It was stationary while we were watching it and then started to move South. As it moved it got smaller in size and then just disappeared. But, then reappeared in about ½ minute way off in the distance.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

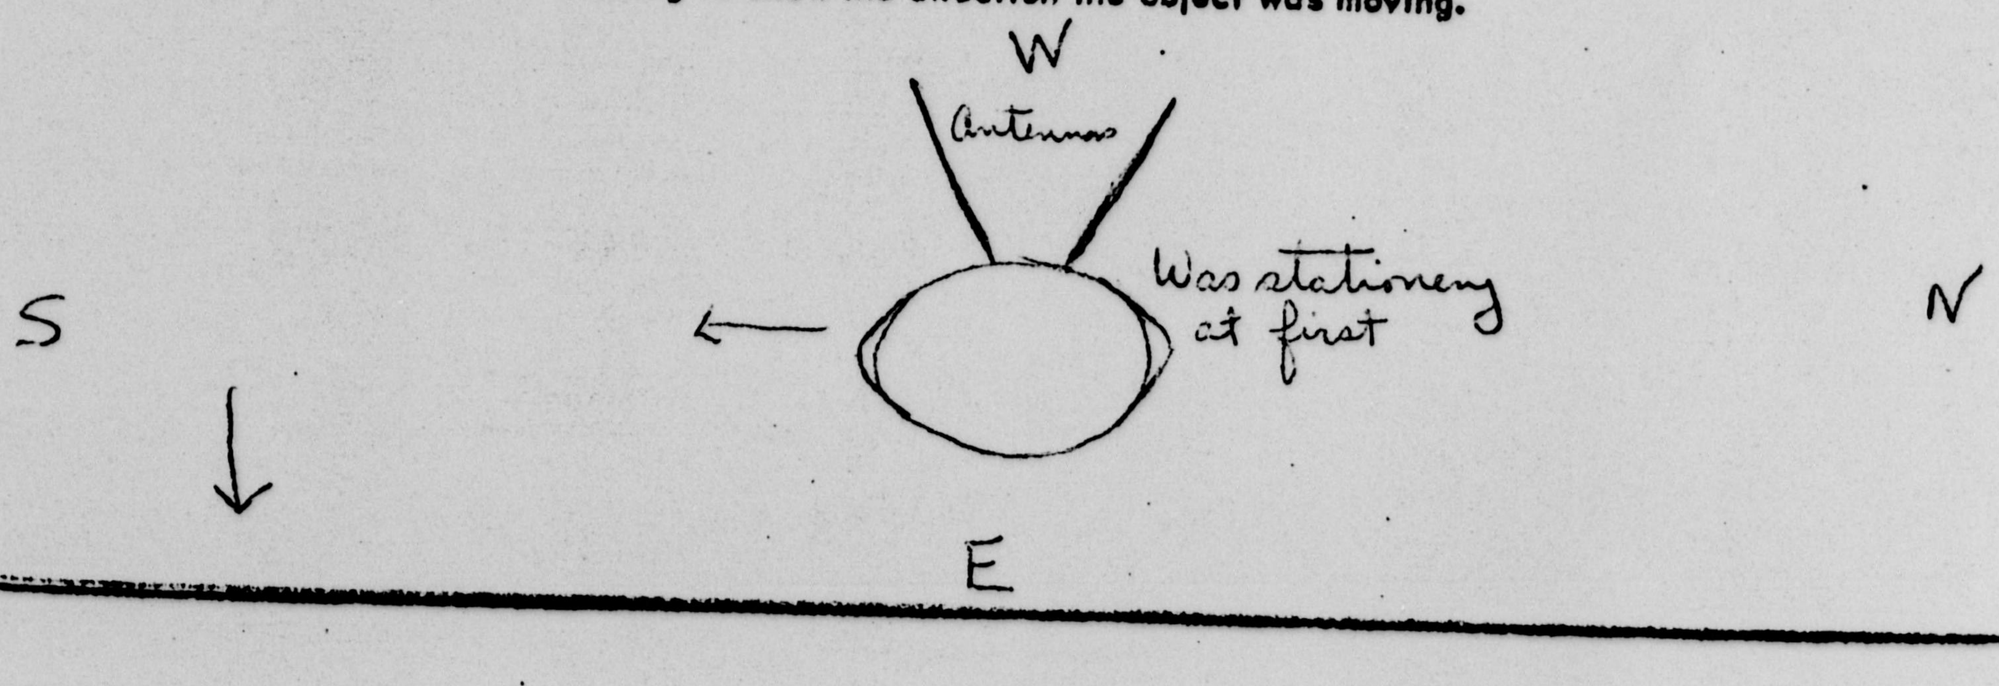

a. Sound - We couldn't hear any sound because we were inside

b. Color - Bright gold or yellow.

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

Compared to the largest star closet to the object, the object was about 6 or 7 times bigger then the star. This was the only way we could compare the size at that time.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? (Circle One):

a. (Inside a building)
b. In a car
c. Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
b. In the residential section of a city?
c. (In open countryside?)
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

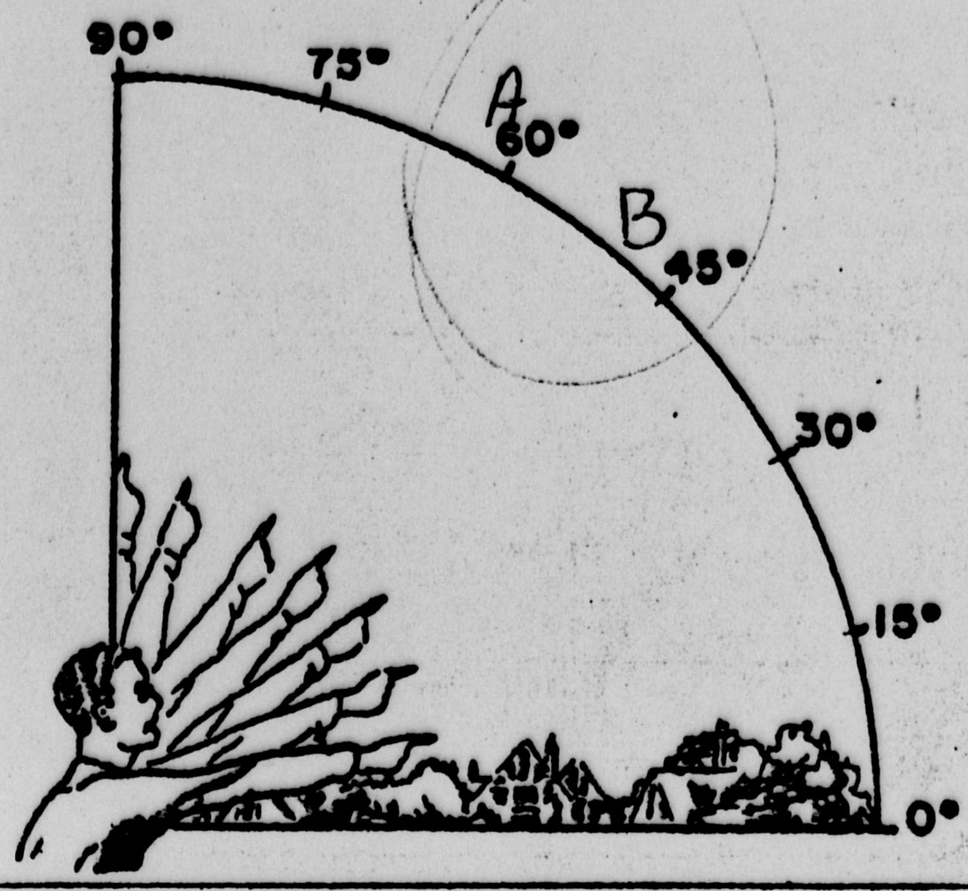

25. Did you observe the object through any of the following?

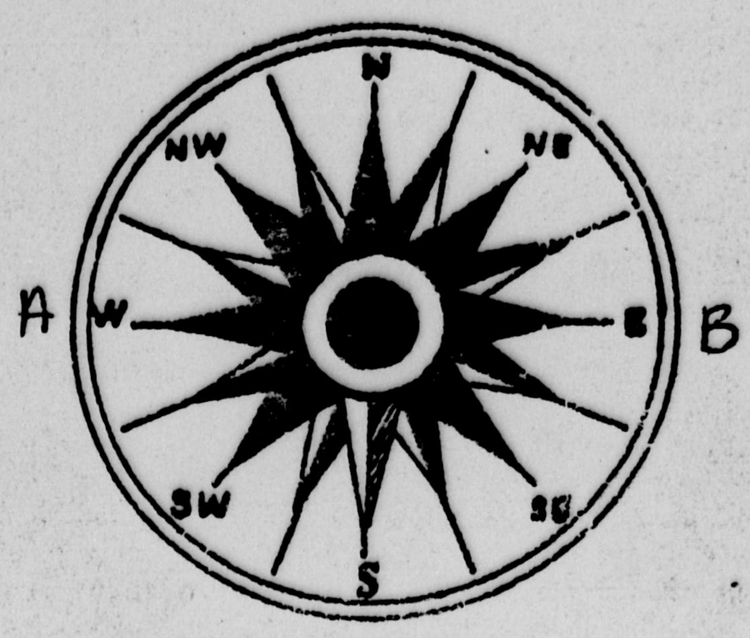

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. (Window glass)	(Yes)	No	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

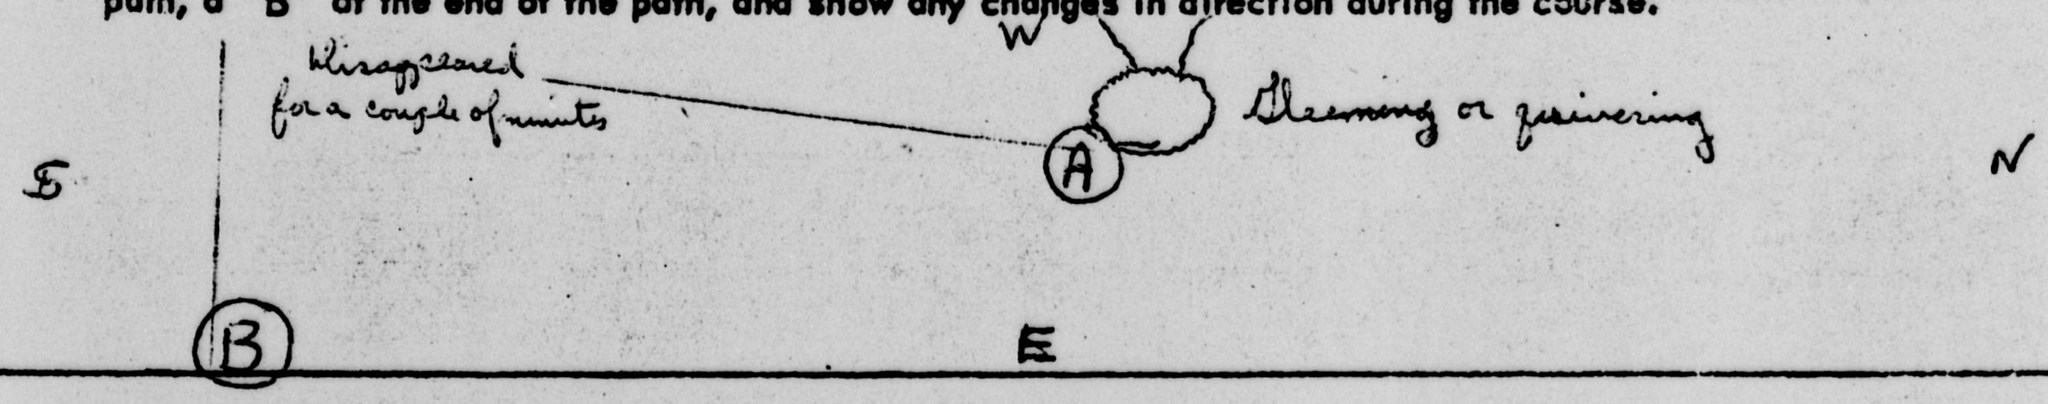

A ball of fire, a mirror with something gold reflecting from it.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

No.

31. Was anyone else with you at the time you saw the object? *(Circle One)* (Yes) No

31.1 IF you answered YES, did they see the object too? *(Circle One)* (Yes) No

31.2 Please list their names and addresses:

Mrs. [redacted] Lewisburg, Ohio
Mr. [redacted] Lewisburg, Ohio

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) Lewisburg (City) ___ (Zone) Ohio (State)

TELEPHONE NUMBER [redacted] AGE 23 SEX Female

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

30 (Day) 3 (Month) 65 (Year) - To The Clayton Journal Herald News Paper

34. Date you completed this questionnaire: 3 (Day) 4 (Month) 1965 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

When the object was moving East it seemed very far away. It was about the size of a star at that time. There was an airplane, with a red flasher on the bottom, going West at the time the object was going East, and the object was going quite a bit faster then the airplane.

We thought that maybe the object saw the airplane coming, and was moving out of its ways.

When the object was stationary it glared in the lake behind the farm.

I have talked with two other people who have seen objects at different times, but didn't report them. They also saw them in the Lewisburg area. Thier names are:

1. Mrs. [redacted]
   Lewisburg, Ohio
2. Mrs. [redacted]
   Lewisburg, Ohio

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

30 (Day) March (Month) 1965 (Year)

2. Time of day: 10:00 (Hour) _____ (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): (a. Eastern)
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
(b. Standard)

4. Where were you when you saw the object?

[redacted] Rd (Nearest Postal Address) Louisburg (City or Town) Ohio Preble (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) 10 or 12 (Minutes) _____ (Seconds)

(a. Certain)
b. Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? Clock

5.2 Was object in sight continuously? Yes ____ No ✓

6. What was the condition of the sky?

DAY
a. Bright
b. Cloudy

(NIGHT)
(a. Bright)
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FTD FORM OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight — pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

_____

12. The edges of the object were:

(Circle One):
a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other _____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

14. Did the object disappear while you were watching it? If so, how?

Yes - It seemed to burn out, but then it reappeared I was farther away.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

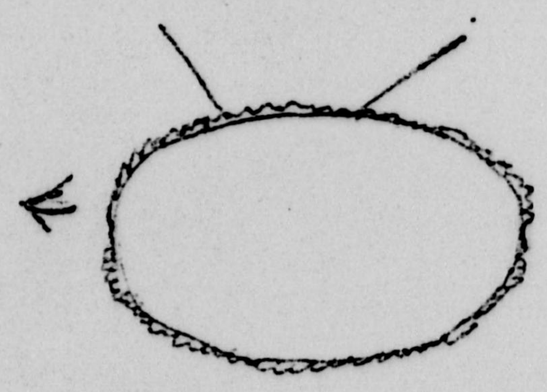

a. Sound We were in the house - no sound was heard.

b. Color Bright Gold -

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

About 10 times as large as match head.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? *(Circle One):*

a. (Inside a building)
b. In a car
c. Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you *(Circle One)*

a. In the business section of a city?
b. In the residential section of a city?
c. (In open countryside?)
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? *(Circle One)*

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? _____miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

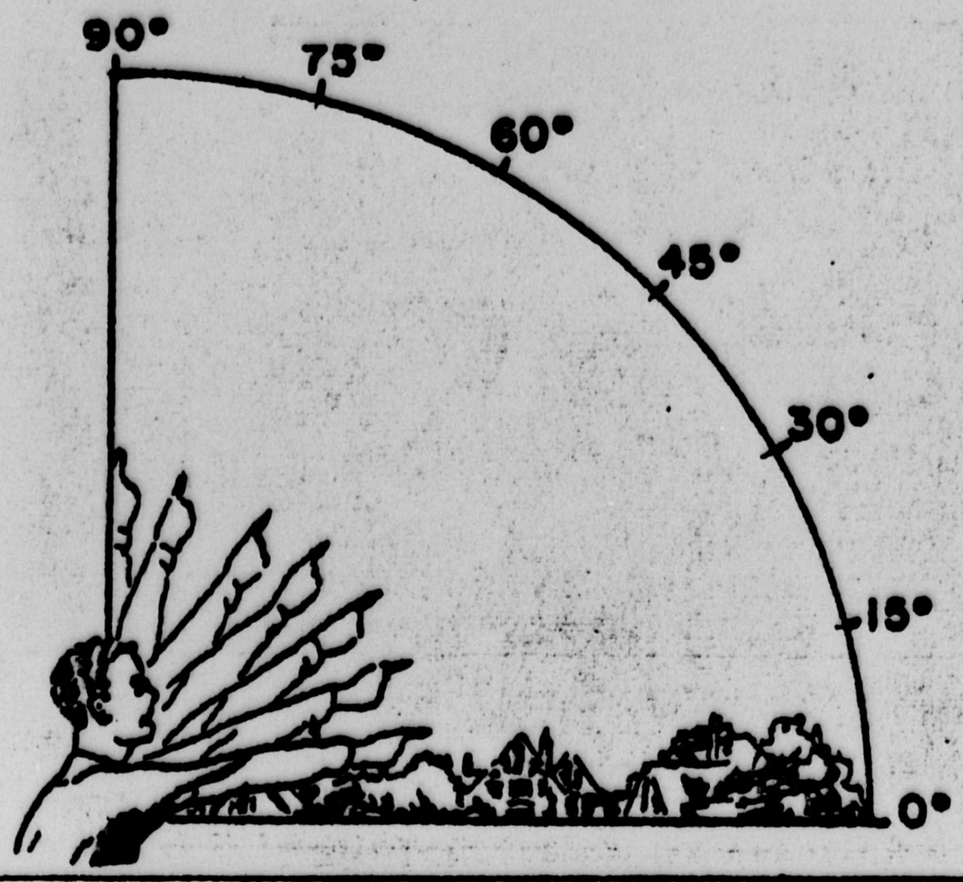

25. Did you observe the object through any of the following?

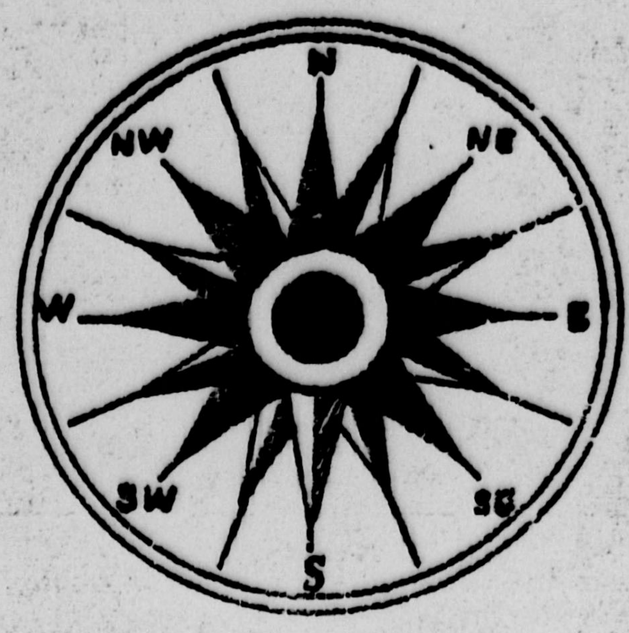

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	(Yes)	No	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

A burning yellow light bulb.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? Only One
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

No

31. Was anyone else with you at the time you saw the object? *(Circle One)* (Yes) No

31.1 IF you answered YES, did they see the object too? *(Circle One)* (Yes) No

31.2 Please list their names and addresses:

[redacted]

Husband - [redacted]

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) Lewisburg (City) 45338 (Zone) Ohio (State)

TELEPHONE NUMBER [redacted] AGE 42 SEX Female

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

30 (Day) March (Month) 1965 (Year) My daughter called the Jr. Herald Newspaper in Clayton

34. Date you completed this questionnaire: 1 (Day) April (Month) 1965 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

At first it looked like a bright star but was more gold in color. It seemed to coming closer to earth. It reflected in the lake, like the moon would, but no other stars reflected that night. ~~Then it rose~~ It seemed to get brighter & brighter then it shimmered & something came out on it. It started moving very slowly left or (South) it went out (the light) & came back on & then off again. Then my daughter said it was gone. I ran to the south window & there it was just a speck going east, very very fast. It must have been very far away at this time according to its size.

5 April 1965

Sgt Moody;

Received a collect call from Mrs [redacted], Lewisburg, Ohio

She said she received a letter from a Mr [redacted] telling her that he observed the same light or one just like the one she seen on the same night at 10 PM from his west window. She said that he stated in his letter that he looked at the orange light through a pair of BX, and it was oval shape and looked like heat, and it was stationary and all at once the light went out. I asked her if we could have this letter and she said yes, and would send it out today along with her Form 164.

UFO Sighting, 30 March 1965

Mr [redacted]

[redacted]

Dayton, Ohio

1. Mrs [redacted]r., has informed us that you also observed the objects which she reported to the Air Force. This object was observed at about 2200 Tuesday night, March 30, 1965.

2. Several other witnesses to this object have called or notified our office of their observation, and the standard FTD Form for reporting unidentified objects has been mailed to them to assist us in identification of this particular UFO.

3. Completion of the enclosed Form 164 and return to this office in the envelope provided would add to the reports on this specific object. We assure you that your name will not be used in any way should you so desire regarding this observation.

Sincerely,

HECTOR QUINTANILLA, Jr
Major, USAF
Chief, Aerial Phenomena

[redacted]

Dayton Ohio
April 2, 1965

Dear Mrs. [redacted]
After reading of your reported UFO observation tuesday night, March 30, I am convincedthat I also seen this object at approximately 10;00 PM. A passing glance from the window immediately caught my eye to an extremely bright light. This was somewhat low in the sky, west of my home which is located south of Dayton near Moraine City. First thought also was of an aircraft with landing lights, but it did not move. After a short time I got binoculars and could see positively that it did not move and also was much more brilliant than any star. The light was somewhat oval shaped and distorted as by heat or atmospheric conditions and I could not gain any idea of the distance. As I was watching, the light went out just as if it was turned off by a switch. I watched briefly, and could not detect any beacon light similar to an aircraft.
I mentioned, passively, at the time to my wife that I thought I had seen an UFO, but gave it no more thought until I read the newspaper story of you and your friends experience. You may forward this letter to any investigative authority if you care to, and I will absolutely verify the information as I have described it. If you gain any information as to the explanation of this experience I would appreciate hearing of it.

Sincerely;

[redacted]

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

30 (Day) MAR (Month) 65 (Year)

2. Time of day: 1000 (aprox) (Hour) (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): (a. Eastern) b. Central c. Mountain d. Pacific e. Other _____

(Circle One): a. Daylight Saving (b. Standard)

4. Where were you when you saw the object? (RESIDENCE)

[redacted] (Nearest Postal Address) DAYTON (City or Town) OHIO (State or County)

5. How long was object in sight? (Total Duration) — (Hours) 3 (Minutes) _____ (Seconds)

a. Certain
(b. Fairly certain)
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? PERSONAL ESTIMATE

5.2 Was object in sight continuously? Yes I No _____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a. Bright)
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you b. In back of you c. To your right d. To your left e. Overhead f. Don't remember

FTD FORM OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

2-3 × BRILLIANCE OF PLANET VENUS, WHEN IN VIEW

12. The edges of the object were:

(Circle One):
a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other _____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

14. Did the object disappear while you were watching it? If so, how?
YES. IN A VERY POSITIVE MANNER BUT WITHOUT MOTION Eg. AS TURNING OFF LIGHT SWITCH.

15. Did the object move behind something at any time, particularly a cloud?
(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?
(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:
a. Sound NONE
b. Color AS SLIGHT YELLOW OF INCANDESCENT LIGHT

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?
APPROX. SAME SIZE AS MATCH HEAD

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

OBJECT SKETCHED REPRESENTS LIGHT ONLY. WAS DISTORTED, AS IF BY HEAT OR ATMOSPHERIC CONDITIONS.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes No NO SPEED, REMAINED STATIONARY

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____.

22. Where were you located when you saw the object? (Circle One):

a. (Inside a building)
b. In a car
c. Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
b. (In the residential section of a city?)
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? _____miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

a. Eyeglasses	Yes	(No)	e. Binoculars	(Yes)	No
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	(Yes)	No	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

ONLY SIMILAR OBJECT WOULD BE AIRCRAFT LANDING LIGHTS. HOWEVER, COULD NOT SEPARATE TO TWO LIGHTS, AND DID NOT MOVE IN ANY DIRECTION AS SEEN WITH 7X50 BINOCULARS. AS LIGHT WENT OUT DURING BINOCULAR OBSERVATION, NO NAVIGATION OR BEACON LIGHT COULD BE OBSERVED.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

NO

31. Was anyone else with you at the time you saw the object? *(Circle One)* Yes (No)

31.1 IF you answered YES, did they see the object too? *(Circle One)* Yes No

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME [redacted] [redacted] [redacted]
Last Name First Name Middle Name

ADDRESS [redacted] DAYTON 39 OHIO
Street City Zone State

TELEPHONE NUMBER [redacted] AGE 31 SEX M

Indicate any additional information about yourself, including any special experience, which might be pertinent.

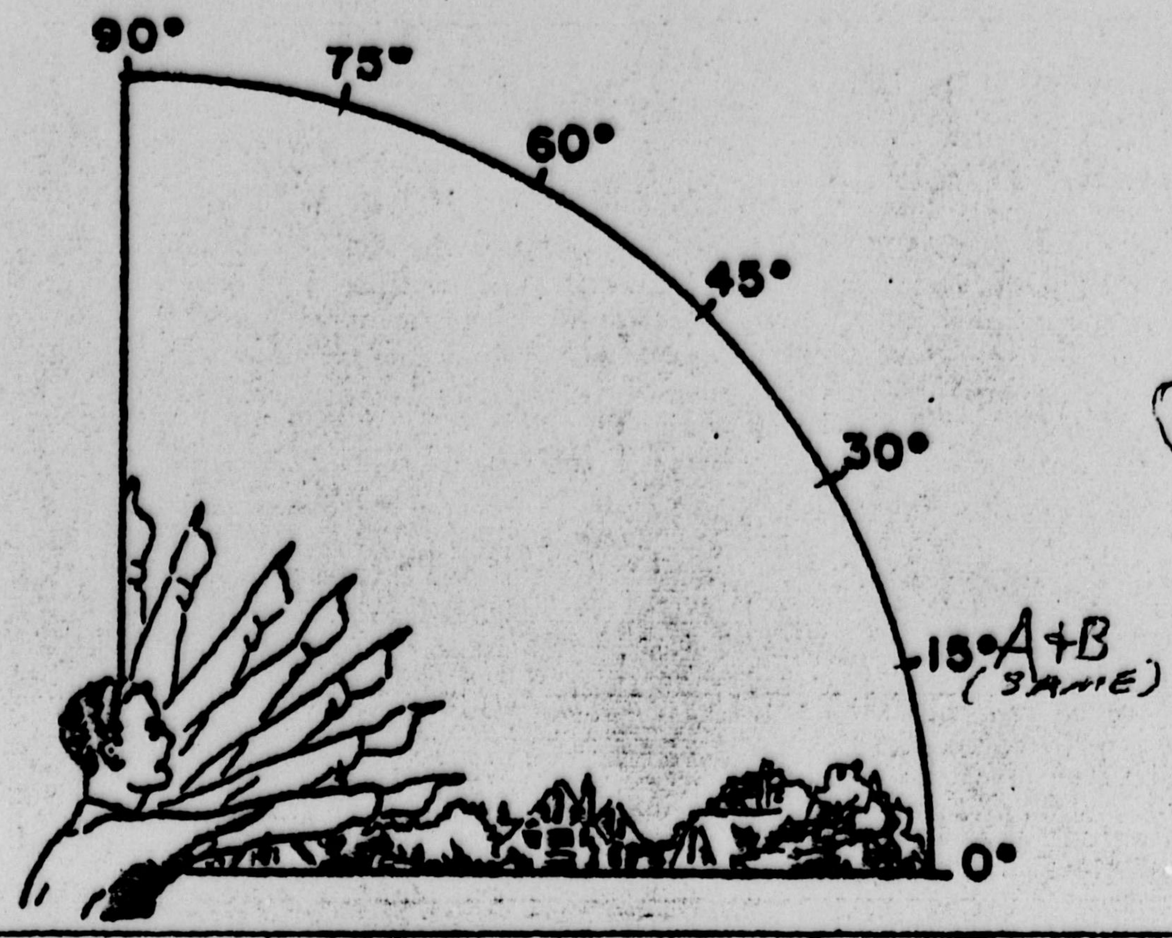

DO NOT DRINK, DO NOT WEAR GLASSES, HONORABLE DISCHARGE FROM U.S. ARMY

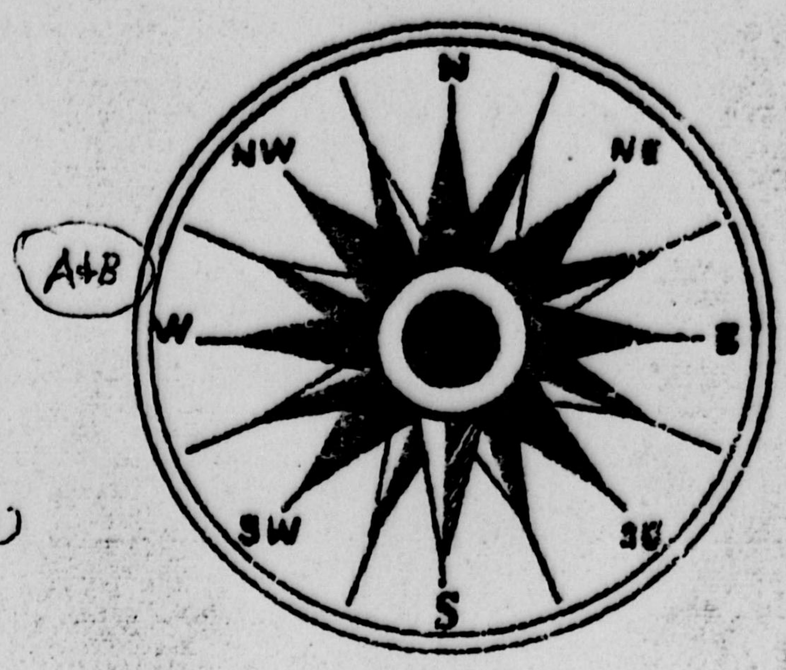

33. When and to whom did you report that you had seen the object?

2 4 65
Day Month Year

TO MRS. [redacted] JR. AFTER SEEING STORY IN JOURNAL HERALD (1-4-65)

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

NONE

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

N/A

FTD (TD-EW/UFO)

Wright Patterson AFB, Ohio.

FTD FORM JUL 61 383 This form supersedes ATIC Form Nr. 383, dated Dec 60, which is obsolete.

34. Date you completed this questionnaire: 7 (Day) 4 (Month) 65 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

IN BRIEF:

PASSING WINDOW IN DARKENED ROOM, BRIGHT LIGHT WAS NOTICED AND NOT REDILY IDENTIFIED. OBSERVATION FOR SEVERAL SECONDS REVEALED NO MOTION. SUFFICIENT TIME LAPSED TO OBTAIN BINOCULARS, AND WATCH OBJECT FOR SEVERAL SECONDS MORE. 7X MAGNIFICATION REVEALED ABSOLUTELY NO MOTION. BRIEF MENTION TO MY WIFE OF POSSABLE UFO OBSERVATION, AND NO MORE THOUGHT OF IT UNTIL STORY IN NEWSPAPER OF PARALLEL EXPERIENCE.

At 1558, 31 Mar 65, Mrs [redacted] called from Rt 1, Box 240, Lewisburg, Ohio, phone [redacted] On the night of 30 Mar 65 at 2200 hours and looked out the window, looking West, she saw a gold object in the sky which was six or seven times brighter than the brightest star in the sky. It was pretty large and had na natenna, reflection of obj showed on the water, appeared to have its own light, so brilliant watched it for about five minutes, suddenly flickered, moved South, as it moved it faded, at this time it appeared to be going backwards, all of a sudden it was completely gone out of sight. She then looked out the South window, coming from the West was a plane. The beacon was larger than the light she observed. She watched the light go East to Dayton, kept moving East, looked through the South window for a coupls of minutes. Stars were visible, no moon. The object appeared to be over Johnsville and New Lebanon, at least that was the general direction. Looked gold and flickered. Antenna as tall as it was round. Two streams of gold going up, looked like television antenna, V shaped, like rabbit ears, they were watching other stars and it always stayed in the same position and then asit moved you could see the antenna.

At 1550, 1 Apr, Mrs [redacted], Ohio called. On the night of 30 Mar 65 her daughter, at 2200 was sitting in a chair doing her homework, in a West window. "There was something in the sky I have never seen before". A great big golden light hanging in the sky. Never seen anything like it before. It was a huge golden gold light, a great big gold light, saw a plane go over high at the same time. My youngest daughter watched it for a couple of minutes, it flickered and disappeared.

At 0830, 1 Apr 65, Mrs [redacted] called. On the night of 30 Mar 65 at approximately [redacted] or [redacted] her husband also saw the flying object while driving in Oakwood, they were coming North on Shafer three south of [redacted] glanced out of the West, there was a large light in the sky many many feet above the ground. Too large to be stars, they were driving slowly and Mrs [redacted] looked and saw them both, we lost sight of it when passing houses, lights were both of gold tone and the upper seemed to be slightly smaller than the one on the horizon. Couldn't tell if there was any motion, we saw them for at least ½ minute. Looked like a tower, it had to be miles away, it looked like 3 or 4 " in diamter, much too bright to be a star, no planet in sky, it seemed brighter than Venus as its brightest. Did not see an a/c but saw two lights, looked like it might have been a tower, comparitively lower and perfectly lined up, could have been connnected.

Women See "UFO" At Lewisburg

By William Steponkus
Journal Herald Staff Writer

"I just couldn't believe my eyes" was a Lewisburg housewife's reaction to an apparent UFO (unidentified flying object) that Wright-Patterson Air Force base officials are now investigating.

"It was about 10 p.m. when my mother said 'Look at that strange-looking object in the sky,'" Mrs. Howard Wysong Jr., said yesterday.

The two women watched the circular shape closely for about five minutes Tuesday night, Mrs. Wysong said.

Gold In Color

"It was gold in color and seemed to quiver. It was about five times bigger than a regular star," she recalled.

"It had an antenna on top and the length seemed to be equal to the circumference of the object.

"It was stationary as we watched it, looking toward the west. Then it started moving south and it seemed to fade in color as it moved away.

"Then, in a split second, it disappeared.

"We kept watching it for awhile and then saw it again in the distance, moving east toward Dayton."

Reflection In Water

Mrs. Wysong could not estimate its size or distance.

"The only way to measure it was in comparison to the stars. I would say it wasn't close, but we could see its reflection in the water," she said.

There is a lake behind the Wysong residence on RR 1, Salem road.

She was sure it wasn't an airplane because "we saw an airplane passing with its red, rotating beacon.

"I studied it to be sure when I told about it later," Mrs. Wysong said.

Confirmed By Neighbor

She also called a neighbor, Mrs. Donald Mart, who lives across the street.

"Mrs. Mart had told me she saw two of them this year, or last year, and when I called her she said it sounded like the same object," Mrs. Wysong said.

The 23-year-old woman said the sighting was a new experience — "I've never seen anything like it before."

Base officials had no other reports of the incident, they said.

The Air Force's office for investigating UFO sightings in the U. S. ironically is located here.

ROUGH DRAFT ROUGH DRAFT

TRIP REPORT ON LEWISBURG SIGHTING 30 MAR 65 T/SGT DAVID MOODY
S/SGT HAROLD JONES

ITINARY of investigation on Thursday 1 April 1965

LOCATION	ARRIVE	DEPART	CONTACT
W-P AFB		1030	Base Ops for Local WX
Sulphur Grove	1045	1115	U S Weather Station
Lewisburg	1150	1245	Joe Tucker (Chief of Police)
Greenville	1310	1325	Patrolman Grooms
Lewisburg	1350	1400	Phone calls
Rural Area	1415	1445	[redacted]
			Mrs [redacted]
			Mrs [redacted]
Lewisburg		1500	
W-P AFB	1545		

Proceeded to the US Weather Station at Sulphur Grove and interviewed Mr [redacted] who provided the wind data for their 1800 launch. This balloon rose to 98,000 Ft and burst. It did not carry a light. Time of burst occurred at approximately 1930. (See Attached Data) The balloon was a rawinsonde (6-8 ft diameter, white, expanding to about 28 ft at altitude of burst.)

Departed from UFO office at FTD for Base Operations to obtain local WX data. At 2200 on 30 March the winds were from 060 deg at 08 knots. Temperature was 30 deg. Local wind data indicated that the winds were such that a baloon from the Dayton area could have been over the Lewisburg area.

Information regarding balloons launched from this site in general revealed that the only launch that carries a light is the midnight (2400 local) launch. The light on this balloon is a white flashlight type of a light. The nearest other US WX Bureau launches are at Flint, Michigan, Pittsburg, Pennsylvania and Rantoul, Illinois. The average bursting altitude of the rawinsonde is 90,000 and the rate of climb between 750-800 ft per minute. The only time that this ascent is slowed is when ice forms on the balloons from the atmosphere. Under icing conditions the balloon may maintain the same altitude, fall or rise more slowly.

From Sulphur Grove we proceeded to Lewisburg, arriving at about 1150. We had lunch and then went to the Police Station. INSERT "A" From there a call was made to Mr Joe Tucker, Chief of Police of Lewisburg. Regarding the observation of unidentified objects on 30 Mar he revealed that he had been outside all night and did not see anything unusual. He carries Binoculars. He had heard of no other reports from the area. He had not been contacted by anyone regarding this observation.

As to M[redacted], he knows her slightly. He has known her mother for 2-3 years and described her as "windier than hell", and feels that ~~her daughter~~ [redacted] is just like her. MOTHER Chief Tucker retired from the Air Force in 1957 and does not regard this type of report seriously. He has had one report of an Unidentified Object while Police Chief and this occurred two or three years ago. He looked at the object with Binoculars and identified it as an F-100 with afterburner.

From Lewisburg we proceeded to the State Police Office at Greenville, Ohio. This office has jurisdiction for Preble county. Patrolman Don ~~Grimes~~ ROBINS checked the State Police logs for the night of 30 March and no unidentified objects or unusual activities were reported. Patrolman WEBER was on duty in Preble County (Lewisburg Area) on that night. Word of the[redacted]g observation will be relayed to him when he comes on duty. A negative report will NOT be forwarded, however, if there were any reports of this nature or unusual observations by him or others he will call Major Quintanilla at Wright-Patterson and arrange for an interview if necessary.

From Greenville we proceeded to Lewisburg where an attempt to contact Mrs [redacted] or Mrs [redacted] was made. No answer on either exchange.

From here we proceeded to the [redacted]m (scene of the observation). Pictures of the house, lake and direction of observation were made, as well as the direction (reported) of the object from beneath the windows. A tree to the right of the initial observation was also photographed and directions in azimuth were made with a box Pocket Compass Stock #6605-171-5121 (See Atch 2). FTD Form 164s were placed

in Mrs [redacted] mailbox with instructions for her and Mrs [redacted] to complete the forms and forward them to our office in the envelopes provided.

We then went tothe house adjoining the [redacted] farm and talked with Mrs Ray [redacted]. Mrs [redacted] and her daughter were aware of the sighting but had not observed anything unusual on the night of 30 March. Mrs [redacted] then directed us to the Mart farmhouse. She stated that Mrs [redacted] was probably at the hospital (Good Samaritan) with her husband who had recently been in an auto accident and was supposedly in critical condition.

The [redacted] house is located about .2 mile from the [redacted] across the road (SE). Mrs [redacted] revealed that she had been called by Mrs [redacted] on the night of 30 March and told that the object was just above her barn. She and her husband and son were unable to observe the object in the direction which they were looking (SW) and did not see the object. She said that she had observed lights on several other occassions, but did not observe this one. None of the objects she had observed were reported to the Air Force.

Upon completion of the interview of Mrs [redacted] wereturned to W-P AFB arriving at the Project Office at 1545.

INSERT #4

The police station is in the same building with the Fire Station. Only City employees were at this location. ~~A call was placed to the home of Police Chief Tucker~~. City employees informed us that Mrs [redacted] husband had recently been in an auto accident and that Mrs [redacted] was probably staying with their parents at the Wilkinson farm. This farm has a fishing lake and the house is fairly new. Directions to the [redacted] farm were obtained from these officials.

WEATHER BUREAU BALLOON LAUNCH STATION (UPPER AIR) SULPHUR GROVE, OHIO (233-2070)

DATA RECEIVED FROM DONALD KING BY T/SGT MO DY ON 1 APRIL

1800 Balloon Launch 30 March 1965

ALTITUDE(*)	WIND DIRECTION(#)	WIND SPEED
1,000 ft	040	10 knots
2,000	040	12 "
3,000	040	08 "
4,000	020	06 "
5,000	360	08 "
6,000	350	18 "
7,000	330	20 "
8,000	310	23 "
9,000	310	27 "

(*) Altitude is above ground level.
(#) Wind Direction is direction FROM which the wind was blowing.

This launch burst about 1930 at an altitude of 98,000 ft.

At altitudes above 10,000 ft the ballo continued to fly SE and S turning toward the East at higher levels.

Surface data Winds from 090 deg 5-10 knots variable.

Balloon rises at an average rate of about 750-800 ft per minute.
Average altitude reached is 90,000 ft.
This balloon carried NO light. If a light is carried it is a small flashlight bulb type of a light. Only local launches during this part of the year that carries light is the 2400 Local launch.
No Balloon was launched between 1800 and 2400.
Balloon is Rawinsonde. White 6-8 ft diameter at launch, bursts at about 28 ft diameter.

An inversion was indicated at the 790MB level (about 6,700 ft)

MB Level	TEMPERATURE (C)	DEW POINT
994 (Surface)	~~XX~~ 03	-4
864	-8	-10
848 (5,000)	-5	-16
816	-6	-25

UFO SIGHTING 30 March 1965 Lewisburg, Ohio

INVESTIGATIVE DATA FROM TELEPHONE CONVERSATIONS 2 April 1965

51202 Base WX Sgt SCOTT: Balloons not launched when ceiling is above 2,000 ft. Obly balloon launches are for ceiling measurement.

36254 ASD WX Sgt Smith: Refer to Maj Mills at FTD. No launches from ASD.

Bunker Hill AFB, Indiana: No WX balloons launched from Bunker Hill AFB on the night of 30 March. Squadron just activated and the first launch was 31 March. (MJ 92211 Ext 2311)

University of Minnesota ([redacted]) Discontinued #.

Liton Industried ([redacted]) Off Duty Hours call [redacted]
No Launches in the past few weeks.

Holloman AFB Balloon Control Center. Can account for all of the Holloman Balloons. One was launched on 31 March and lost. Would NOT be over Indiana-Ohio. No launches unaccounted for from Chico. Last balloon burst On 24 March. Mr Bethune. Will call us if anything turns up.

70242 RAPCON for Vandalia Tower. Mr James Payne was on duty. Did not observe anything unusual. No reports, no calls, routine evening. WX clear and good visibility.

NCAR Boulder, Colorado Vince Lally No launch last week that was not accounted for. Balloon was launched on 30 March but was cut down on 30 March.

Lockbourne AFB 87th FIS. (Local ADC Unit). Major BOYS Operations Officer. Log check revealed that last a/c landed at 2015. No a/c were in the air at the time of the observation and no scrambles were made that night. *apt 7485, Sgt V Steigerwald*

71236 Local GCA Radar. T/Sgt Calvin operator on duty at 2200. Sgt Simmons was on Scope. This Radar is used for close approach only. It would not pick up a far target. No balloons or unusual targets were observed on the night of 30 March 1965. FAA Radar has more range suggest that they be called.

71236 FAA Radar. Watch supervisor. Infor given revealed that scope picks up range and azimuth only. Usually no pickup over 25,000 ft. Nothing unusual was observed on the Radar scopes on the night of 30 march, 1965.

ADC Radar at Bellefountain. Data is piped in to Detroit on computor. Lt Acceta No Unidentified tracks. (225-226-231 extensions). Detroit called back at our request. Equipment was used in trying something new. Might have missed a balloon if one was there. No balloon was picked up. Radar will pick up a balloon if it is there if equipment is under normal operations.

ADC Det #3 4608th Radar section 26111 WPAFB. No equipment Liaison Only.

This case contains 7, 3"x4" photos.

On 2 April 1965 called Dr J Allen Hynek regarding possible sunlight reflection from a balloon. The end of Astronomical Twilight occurs at 2028 Local. The observation was near 2200. At 2028 an object would have to be at an altitude of 200 miles to be in the sunlight. This eliminates the possibility of sunlight reflection on any object in the earth's atmosphere as the cause of the observation.

TDFCS

UFO Report

2 APR 1965

TDEW

While Duty Officer, I received a call from Mr. [redacted], Bellbrook Ohio, telephone No. [redacted], who claimed to have seen the same UFO that was reported on the 30th of March 1965. He said he saw a bright object larger than a star similar to what the women from Lewisburg Ohio had seen. He said he saw it at about 10:15 on the 30th traveling from East to West and then it appeared to turn and go North.

Dear Mr [redacted],

Our office is investigating the observation of an object in the Dayton - Lewisburg area on the night of 30 March 1965. The Duty Officer at Wright-Patterson reported to us that you observed an object which may be associated with this event.

Would you please complete the attached FTD Form 164 and return it to our office in the envelope provided.

We assure you that your name will not be released to the news media in connection with this observation.

Sincerely,

HECTOR QUINTANILLA, Jr
