Dear Sir:

My husband and I watched the documentary film about unidentifiable flying objects the other night - two nights ago I believe, and decided to write you about something we saw the summer before last year.

We were vacationing in Deering, New Hampshire where we have a summer place, and on our way to an auction in Dunstable, Mass. we saw a peculiar object

Our place is set right on the side of a hill and we have to

Dayton, Ohio —

Dear Sir:

I wonder if you would be interested in a sight my husband and I and our children and I saw one a day in August 1958

We were in our car high on a dirt road on the side of a hill overlooking a valley which was heavily wooded

We all saw at about the same time. A flying object-elliptical in shape and it was not a plane. It had no windows or wings or rudders of any sort. It was a

luminous orange color. It was from ~~from~~ the distance we were, about the size of a plane but it could have been bigger.

It disappeared into the tops on the horizon which was below us! It was going at such a speed that if it had been a plane it would have crashed. There is no airfield there where it disappeared, as we asked about later.

We watched it disappear and then drove to our destination which was an auction at Dunstable New Hampshire. We were in Deering N.H. when we saw the object.

We never reported it fearing we would be ridiculed.

Yours sincerely

[redacted]

My husband [redacted] a Major of Infantry [redacted] attest that it was a flying saucer

Come down a little distance
be the main body to top of roof.
While coming down the last part
one of my children drew our
attention to a bright light over
the horizon and we saw a cluster of brilliant
reddish orange metallic lights
but it didn't have any wings
or rudder. It was elliptical
in shape and a plane would
look rude were but we don't
think it was a plane. We saw
it on the horizon which was
below us and it went fast
down onto the trees.

We later told neighbors about
it and as they are makers of the
Detroit we looked if there was
any landing field there. They
said there wasn't. There is
a lake in that vicinity so we
felt that if the machine had
landed it must have been on
water as it would have

cracked if it landed on the
woods at it speed it were)
going. She continued on to Down-
stable and the auctioneer knew were
mends were puzzled by the weight

In the car with me were
my children and I asked my
oldest girl (after asking your selves)
if she remembered that day
She said she did but I don't
discuss it with her mother tonight.

We felt there must have
been a logical explanation of
the whole thing so we decided
report what we saw, being
scared I suppose - Anyway we
wouldn't know who to tell.

My husband said we should
report it even now, and as he
is working tonight I am taking
the liberty of doing it for him.

If you see in your purview

all the U.F.O. were up on the sky but what u saw was coming down for a landing. It was defiantly not a balloon. It could have been an enormous rocket but no nose cone or tail.

Well we may be crackpots about this but these facts are true. We will swear to it.

This past summer we spent a couple of weeks at our Lodge home but weren't looking for or didn't see any thing strange. However your film brought the episode back to our minds and even if we are late with this (it was about August 1958) we feel we should report it.

Yours very truly,

Dear Mrs. [redacted]

This is to acknowledge and thank you for your recent letter concerning an Unidentified Flying Object seen by your family in August 1958. Unfortunately, this sighting is so old that it would be impossible to effect a valid evaluation of just what you did see.

There is no U. S. Air Force or Department of Defense documentary film on the subject of Unidentified Flying Objects. Therefore, the film you saw must have been a commercial or Hollywood enterprise.

The Air Force must be objective in its analysis and evaluation of UFO sightings. For your information, I am inclosing the latest Department of press release on this subject which clearly states the Air Force position.

Thank you very much for your interest in this matter.

Sincerely,

LAWRENCE J. TACKER

Dear Mrs. [redacted]

Your recent letter addressed to the Aerospace Technical Intelligence Center, Wirght-Patterson Air Force Base, Dayton, Ohio concerning an unidentified flying object sighted by your family in August 1958 has been referred to this Office.

This is evidentally the same sighting you referred to in your November letter to this office, which sighting was determined to be too old to effect a valid evaluation.

However, since you feel that this sighting was significant, I am inclosing two United States Air Force questionnaires which should be filled out in detail by you and your husband. When the questionnaires are completed, please send them directly to the Aerospace Technical Intelligence Center, Wright-Patterson Air Force Base, Ohio.

Sincerely,

U. S. AIR FORCE TECHNICAL INFORMATION SHEET

This questionnaire has been prepared so that you can give the U. S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes, and will be regarded as confidential material. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that, if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

20 (Day) Aug (Month) 1958 (Year)

2. Time of day: 12 (Hour) 45 (Minutes) ~~A.M.~~ or P.M.

(Circle One): A.M. or P.M.

3. Time zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address)

Hillsboro (City or Town) [redacted] (State or Country)

Additional remarks: _____

5. Estimate how long you saw the object. _____ (Hours) _____ (Minutes) 20 (Seconds)

5.1 *Circle one of the following to indicate how certain you are of your answer to Question 5.*

a. Certain
b. Fairly certain
c. Not very sure
d. Just a guess

6. What was the condition of the sky?

(Circle One): a. Bright daylight
b. Dull daylight
c. Bright twilight
d. Just a trace of daylight
e. No trace of daylight
f. Don't remember

7. IF you saw the object during DAYLIGHT, TWILIGHT, or DAWN, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

8. IF you saw the object at NIGHT, TWILIGHT, or DAWN, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight — pitch dark
d. Don't remember

9. Was the object brighter than the background of the sky?

(Circle One): a. Yes b. No c. Don't remember

10. IF it was BRIGHTER THAN the sky background, was the brightness like that of an automobile headlight?:

(Circle One) a. A mile or more away (a distant car)?
b. Several blocks away?
c. A block away?
d. Several yards away?
e. Other

11. Did the object: *(Circle One for each question)*

a. Appear to stand still at any time?	Yes	(No)	Don't Know
b. Suddenly speed up and rush away at any time?	Yes	(No)	Don't Know
c. Break up into parts or explode?	Yes	(No)	Don't Know
d. Give off smoke?	Yes	(No)	Don't Know
e. Change brightness?	Yes	(No)	Don't Know
f. Change shape?	Yes	(No)	Don't Know
g. Flicker, throb, or pulsate?	Yes	(No)	Don't Know

12. Did the object move behind something at anytime, particularly a cloud?

(Circle One): Yes ✓ No Don't Know. IF you answered YES, then tell what it moved behind: tree tops and horizon below

13. Did the object move in front of something at anytime, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, than tell what it moved in front of: _____

14. Did the object appear: *(Circle One)*: a. (Solid?) b. Transparent? c. Don't Know.

15. Did you observe the object through any of the following?

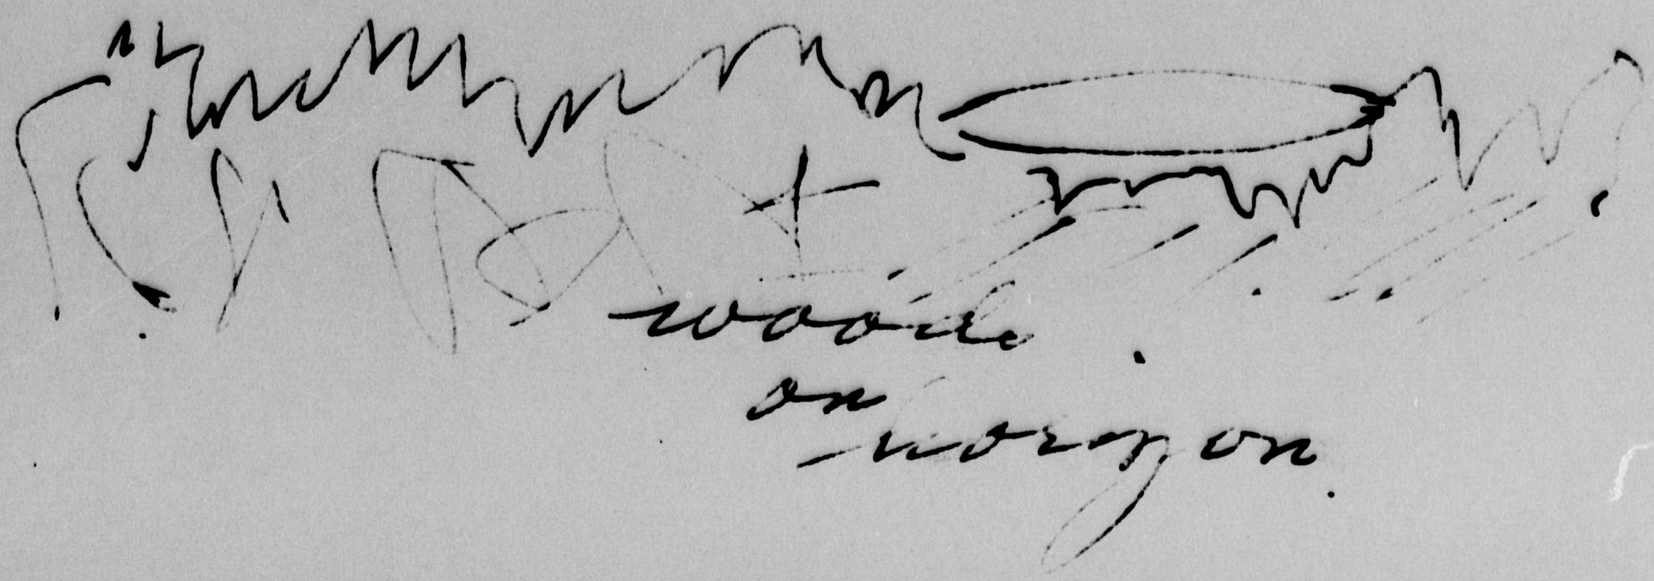

a. Eyeglasses	Yes	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. (Windshield)	Yes	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	h. Other _____		

16. Tell in a few words the following things about the object.

a. Sound heard no sound

b. Color like a luminous red orange

17. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

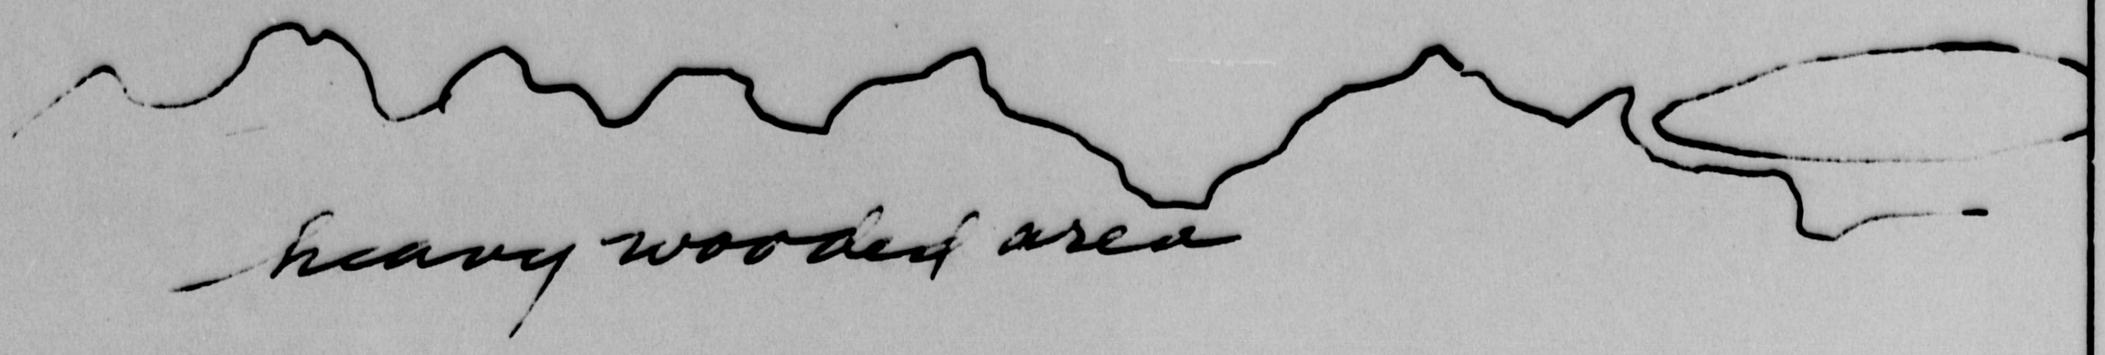

18. The edges of the object were:

(Circle One): a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember

e. Other _____

19. IF there was MORE THAN ONE object, then how many were there? just one.
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

20. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

21. IF POSSIBLE, try to guess or estimate what the real size of the object was in its longest dimension.
_____feet.

22. How large did the object or objects appear as compared with one of the following objects *held in the hand* and at about arm's length?

(Circle One):

a. Head of a pin
b. Pea
c. Dime
d. Nickel
e. Quarter
f. Half dollar
g. Silver dollar
h. Baseball
i. Grapefruit
j. Basketball
k. Other _____

22.1 *(Circle One of the following to indicate how certain you are of your answer to Question 22.*

a. Certain
b. Fairly certain
c. Not very sure
d. Uncertain

23. How did the object or objects disappear from view? It was gliding fast and disappeared behind the treetops.

24. In order that you can give as clear a picture as possible of what you saw, we would like for you to imagine that you could construct the object that you saw. Of what type material would you make it? How large would it be, and what shape would it have? Describe in your own words a common object or objects which when placed up in the sky would give the same appearance as the object which you saw.

Brown-white Saucer-shaped object
on shape without any windows
or wings or any rudder - It had no
nose cone or tail such as a rocket

25. Where were you located when you saw the object? *(Circle One):*

a. Inside a building
b. In a car ✓
c. Outdoors
d. In an airplane
e. At sea
f. Other _____

26. Were you *(Circle One)*

a. In the business section of a city?
b. In the residential section of a city?
c. In open countryside?
d. Flying near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other on road coming down steep hill to stop sign

27. What were you doing at the time you saw the object, and how did you happen to notice it?

We were in the car on a dirt road coming down the side of the hill. Eileen who was in the middle seat of the sta. wagon saw it first then we all looked at it until it was out of sight.

28. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

28.1 What direction were you moving? *(Circle One)*

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

28.2 How fast were you moving? just crawling as hill is steep - miles per hour.

28.3 Did you stop at any time while you were looking at the object?

(Circle One) (Yes) No

29. What direction were you looking when you first saw the object? *(Circle One)* Just like a woman - can't tell direction

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

30. What direction were you looking when you last saw the object? *(Circle One)*

1

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

31. If you are familiar with bearing terms (angular direction), try to estimate the number of degrees the object was from true North and also the number of degrees it was upward from the horizon (elevation).

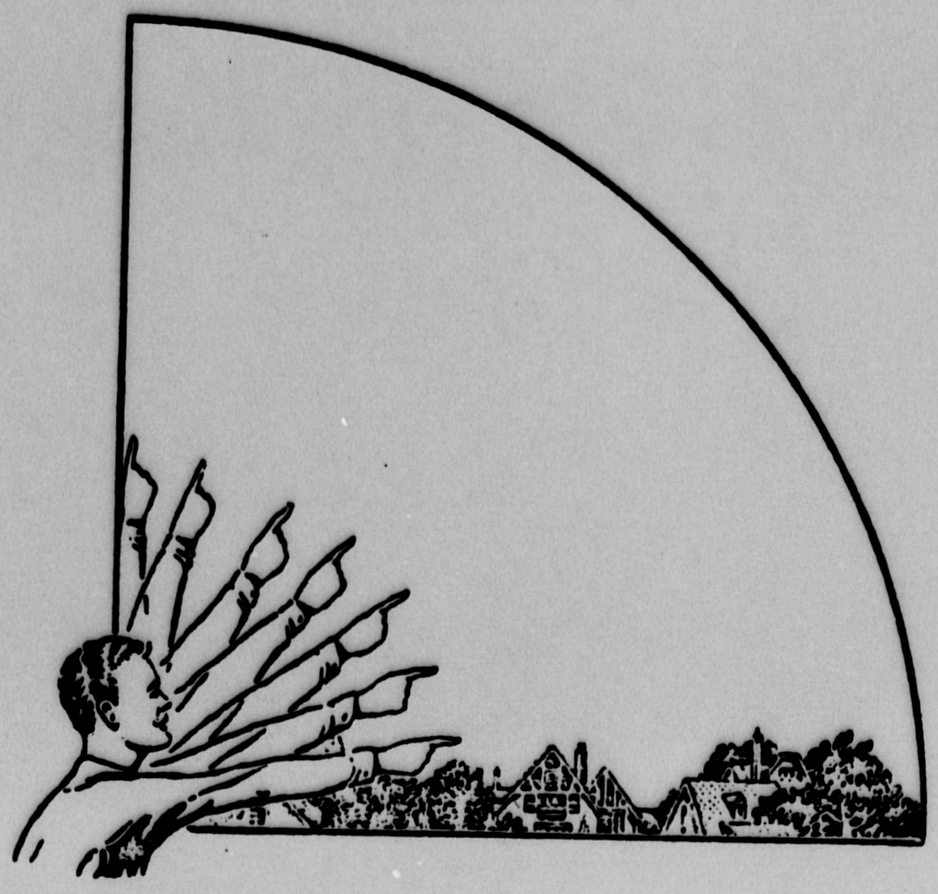

31.1 When it first appeared:

a. From true North _____ degrees.
b. From horizon _____ degrees.

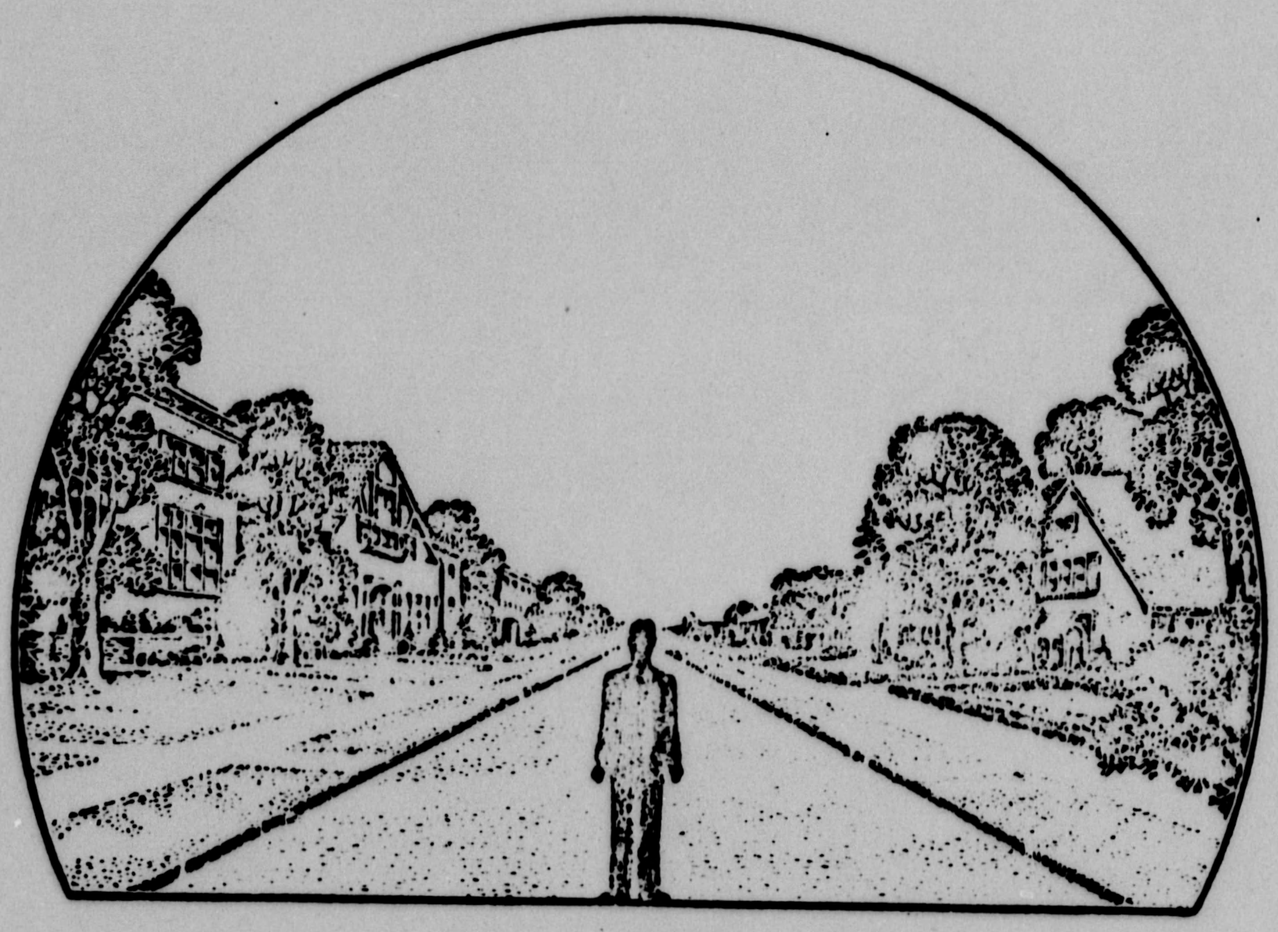

31.2 When it disappeared:

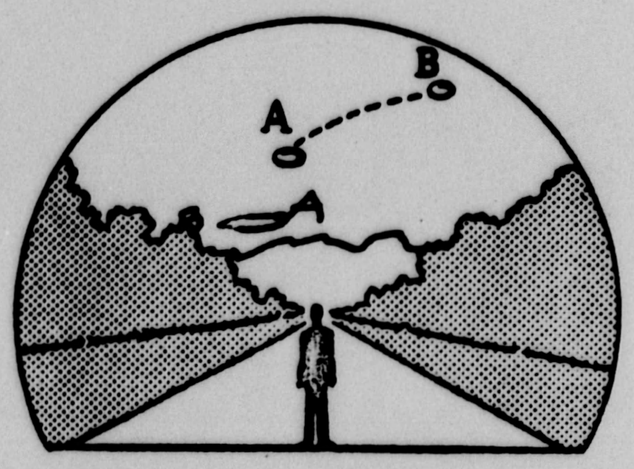

a. From true North _____ degrees.
b. From horizon _____ degrees.

32. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the *same* curved line to show how high the object was above the horizon (skyline) when you *last* saw it.

33. In the following larger sketch place an "A" at the position the object was when you *first* saw it, and a "B" at its position when you *last* saw it. Refer to smaller sketch as an example of how to complete the larger sketch.

34. What were the weather conditions at the time you saw the object?

34.1 CLOUDS *(Circle One)*

a. Clear sky ✓
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds
e. Don't remember

34.2 WIND *(Circle One)*

a. No wind
b. Slight breeze ✓
c. Strong wind
d. Don't remember

34.3 WEATHER *(Circle One)*

a. (Dry)
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

34.4 TEMPERATURE *(Circle One)*

a. Cold
b. Cool
c. (Warm)
d. Hot
e. Don't remember

35. When did you report to some official that you had seen the object?

It was in the late part of Nov. this year 1954

Day _____ Month _____ Year _____

36. Was anyone else with you at the time you saw the object? [redacted]

(Circle One) (Yes) No

36.1 IF you answered YES, did they see the object too?

(Circle One) (Yes) No

36.2 Please list their names and addresses:

We were spending vacation at [redacted] Farm in Hillsboro R.2. Hillsboro Tex.

37. Was this the first time that you had seen an object or objects like this?

(Circle One) (Yes) No

37.1 IF you answered NO, then when, where, and under what circumstances did you see other ones?

38. In your opinion what do you think the object was and what might have caused it?

Well it was most unusual — it could have been a flying saucer — at least I am sure it was an unidentifiable flying object —

39. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate? _____ m.p.h.

40. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____ feet.

41. Please give the following information about yourself:

f. Southwest
g. West
h. Northwest

31. If you are familiar with bearing terms (angular direction), try to estimate the number of degrees the object was from true North and also the number of degrees it was upward from the horizon (elevation).

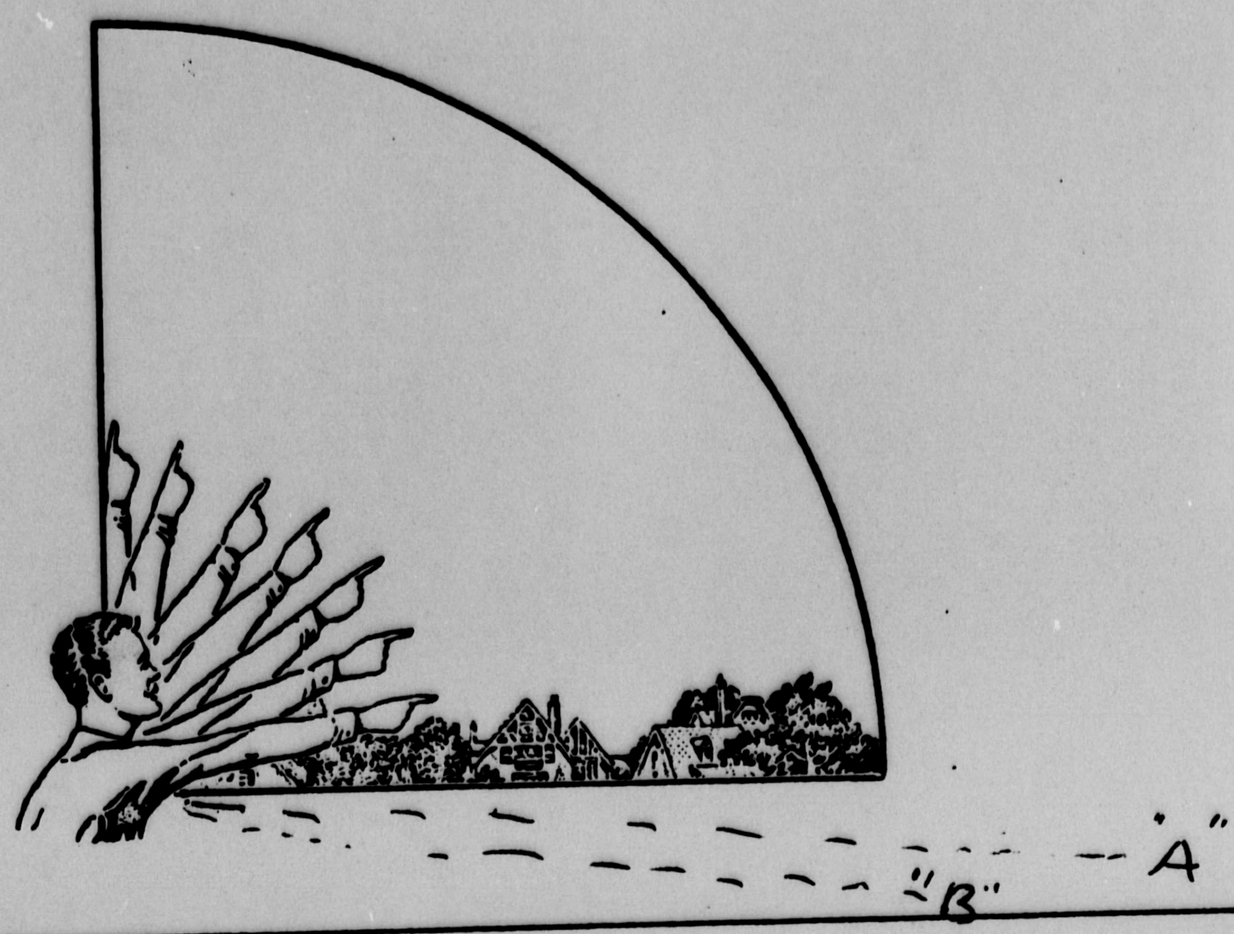

31.1 When it first appeared:

a. From true North 160° degrees.
b. From horizon −15° degrees.

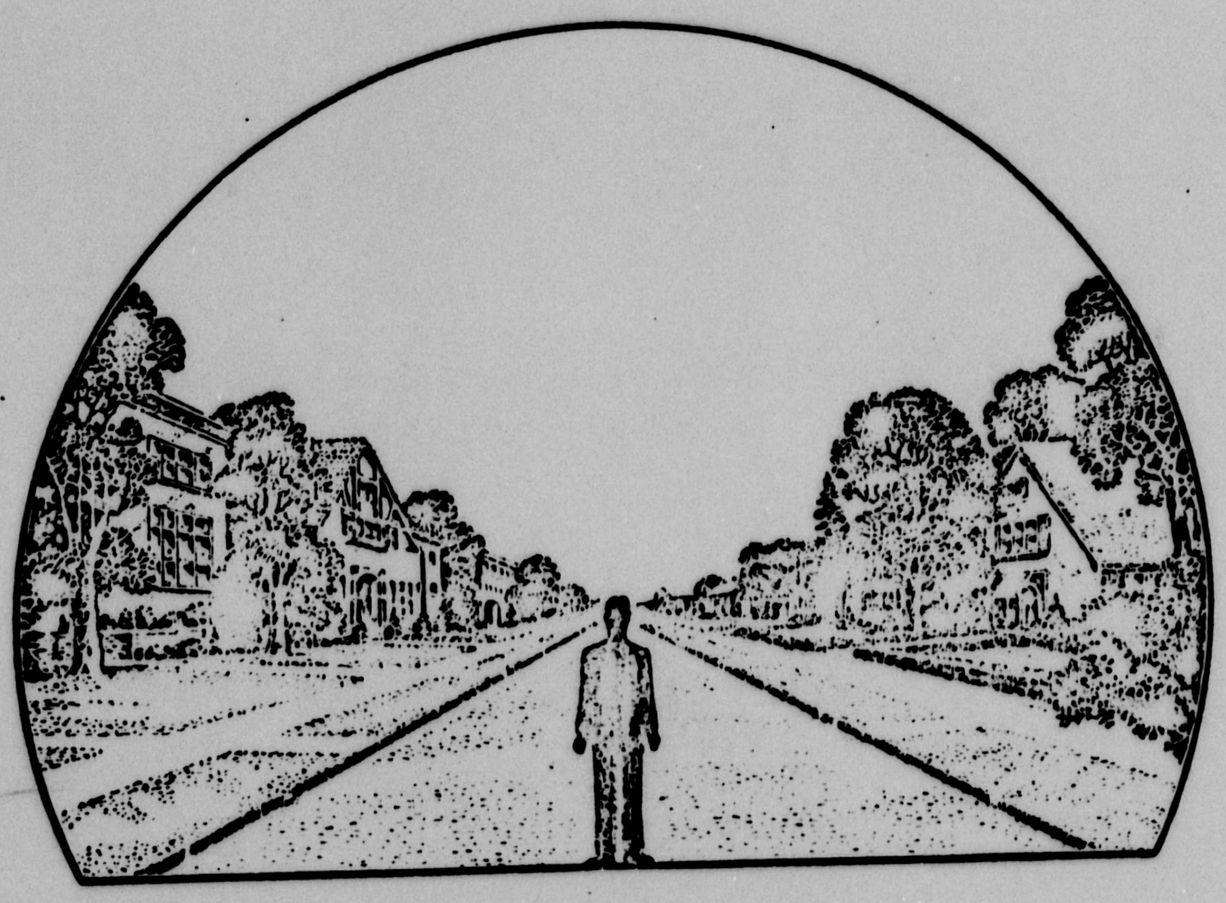

31.2 When it disappeared:

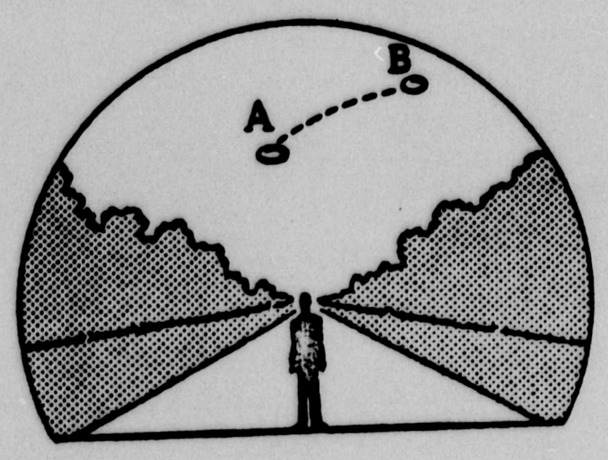

a. From true North 85° degrees.
b. From horizon −15°+ degrees.

32. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the *same* curved line to show how high the object was above the horizon (skyline) when you *last* saw it.

33. In the following larger sketch place an "A" at the position the object was when you *first* saw it, and a "B" at its position when you *last* saw it. Refer to smaller sketch as an example of how to complete the larger sketch.

34. What were the weather conditions at the time you saw the object?

34.1 CLOUDS *(Circle One)*

CODE:

On August 27, 1958 - while vacationing at our summer home located in East Deering N.H. - My family and I decided to go to an auction to be held in Dunbarton (see enclosed bulletin). Our home is located high amongst the rolling hills of this area - Elevation estimated at 1100 ft.

After lunch we drove upgrade and along the ridge line of a large hill mass - then the road turns sharply to the left - here for about 200 yds the grade of descent is very steep - about 40° from horizontal. Off to our right the hill falls away to expose a beautiful view (Birds-eye)

of 1/2 to 3/4 miles in width. bordered with a heavy tree line on the far side - rolling hills and a view of a distant Lake. (Lake Horace)

It is customary for me to always look at this vista and comment about it. As a side note - One Sunday after Mass we returned

from Hillsboro N.H. along a road that runs through the defile, and I observed an Air Force plane flying overhead - I'd guess he was at 500 ft more or less - It appeared to me at the time, that as he was lower than the hilly country side, that it was strictly a pleasure hop (a Sunday driver pilot). Twenty minutes or so later, when we reached the spot of our later observation I was amazed to see that the plane was still in the confines of the valley area, and that we - in the car were higher than they in the plane. It was a thrill for me, as I've always considered myself a "frustrated" pilot. Incidently, I have flown light planes (Pipers + Aircruisers).

Getting back to the date in question - as I turned the car to the left about to descend the steep hill (low gear after a stop - as the road is (BLIND) and no less to give right of way to any car fighting to climb the upgrade), one of my youngsters said "look" - look" - what is that? I stopped and we all instantly saw the same thing - "what is it Daddy" - Look look - What is it." One would say "It looks like a flying saucer - then more scrutiny - remarks were fast coming - no wings - no tail - it's going to crash - I'm scared etc etc. After a brief pause from view - right front to front, behind or through tree tops, I asked each one in turn - "What did you see" not offering any comments or suggestions. The conclusion were unanimous - "like two saucers, one on top of the other but upside down - no wings - no tail - no smoke - no windows - color - reddish-orange. Remember we were looking down on this object and could see the entire ~~outline~~ OUTLINE, both in diameter and side view.

(CONT'D)

I was so amazed at this spectacle, that I sat there for several minutes - to assure myself that it could not have been an apparition - and that I wanted to impress this vision on my mind in the event - that if and as I expect this object crashed in the wood land - that upon its discovery and revealing by its finders or other watchers, that I could tell of its movement, as I saw them. Then we proceeded to the auction -

On our return, I inquired of several farmer & country friends if they had heard any reports of strange craft or a crash - no one had - and when I told my version - they like all normal people, would look askance and say nothing - I believe to them, I am respected for my intelligence and personal dignity. I made these same remarks to a few other close friends - but they (as you the reader of this note) what can be said? I decided to say no more - hoping that during the coming Bird + Deer hunting season, that hunters would come upon the wreckage (if any) in the woods - nothing has been reported to my knowledge, so I've said little more to anyone.

Let me state here emphatically that I certify that what I declare I saw, I really did see, and no one - I repeat, no one, can change my opinion - If it was not a secret weapon of our country - it was a foreign

basal object.

It appeared to me to be either control loading or a skim glide of a metal object, that could have burnt up coming through outer space and was gliding to a crash.

I request that if your office is interested - I would be glad - especially when the foliage is out - to have an Air Force representative meet me, and I will show the locale, direction of flight - altitude - point of loss of vision - and if it were necessary or thought desirable, we could by radio have a light recon plane or copter fly over the course.

I realize now, the effect of the time loss, but one does not enjoy sounding fantastic - and it wasn't until we saw the movie of Unidentifiable Flying Objects, that our thoughts along this line were brought back, and Mrs [redacted] (my wife) thought we should tell of the experience.
